Area affected—Condition and prospects of.—The area affected fell from 22,963 square miles to 21,565; the decrease was mainly due to the elimination of tracts in Ganjám and Gódávari.

The rainfall during the month was good and general. Agricultural operations were largely extended, and prospects brightened. The season in all the affected areas is expected to be a good one, though the outturn of ragi and gingelly in the Northern Circars was generally poor.

Cattle improved in condition in the Deccan, and pasture was generally ample.

2. *Nature of works.*—As hitherto, the work given consisted chiefly of road construction and repair.

3. *Operations under the Loans Acts.*—In addition to the numbers employed on State relief works, about 6,000 persons are reported to have been employed on land improvement works, for which Rs. 33,711 were disbursed during the month as shown in the subjoined table :—

4. *Wages*—were calculated on prices varying from 9 to 15½ seers to the rupee. The majority of the workers, which consisted of agricultural labourers and petty ryots accustomed to labour, but not [illegible] the labour required on works, was in receipt of the B class wage. Many of those on the C class wage were weavers. Wages were calculated not upon the price of the staple grain, but on the combined price of the staple and cheapest grains.

5. *Gratuitous relief.*—The numbers on gratuitous relief fell to 61,992. The decrease was due to the improvement in the season.

6. *Prices*—fell considerably in all districts except Ganjám and Gódávari, as shown below :—

At the close of the month, the price of ragi had fallen in Anantapur and Cuddapah to the scarcity rates.

7. *Imports and Exports.*—The course of trade is shown by the subjoined figures :—

Districts.	Imports and exports by rail.			
	August.		September.	
	Imports.	Exports.	Imports.	Exports.
	MDS.	MDS.	MDS.	MDS.
Ganjám	51,800	3,300	39,900	2,300
Vizagapatam	83,400	14,100	70,100	2,200
Kurnool	24,600	3,400	6,700	3,700

Cuddapah	13,680	13,243	10,275	17,680

Gross imports were large in Ganjám, Vizagapatam and Bellary. Exportation was considerable from Bellary, Anantapur and Cuddapah, but much of this is believed to be Mysore grain. Exportation was fostered by high prices in Bombay.

8. *Condition of the People.*—The condition of the people was, on the whole, fair, though Bhadráchalam continued to give cause for anxiety. A large number of deaths from cholera was reported ; the District Surgeon of Ganjám considers that many of the deaths set down to cholera were due to "famine diarrhœa." The decrease in the numbers on works was mainly due to the improvement in the season.

Grain continued to be imported by Government into the Bhadráchalam taluk, the ordinary roads being impassable owing to the heavy rains, and the high floods in the Gódávari preventing native craft from ascending the river.

9. *Mortality.*—The following table shows the deaths in August 1897 and in the period, October—August 1896–97, and the average rates for each period :—

Districts.	Number of deaths reported			
	During August.		From October to August.	
	1897.	Average.	1896–97.	Average.
Ganjám	5,060	3,413	34,135	20,924
Vizagapatam	4,982	3,352	35,808	31,597
Gódávari	Information not available.			
Kurnool	3,437	1,795	16,794	16,655
Bellary	4,028	2,052	20,887	18,262
Anantapur	1,497	1,235	12,856	11,379
Cuddapah	2,607	2,069	22,064	24,461

Cholera was the cause of nearly two-thirds of the excess deaths in Ganjám during August, and of nearly half the excess deaths in Vizagapatam, Kurnool and Bellary.

Area affected—Condition and prospects of—. The area affected fell from 22,963 square miles to 21,565; the decrease was mainly due to the elimination of tracts in Ganjám and Gódávari.

The rainfall during the month was good and general. Agricultural operations were largely extended, and prospects brightened. The season in all the affected areas is expected to be a good one, though the outturn of ragi and gingelly in the Northern Circars was generally poor.

Cattle improved in condition in the Deccan, and pasture was generally ample.

2. *Nature of works.*—As hitherto, the work given consisted chiefly of road construction and repair.

3. *Operations under the Loans Acts.*—In addition to the numbers employed on State relief works, about 6,000 persons are reported to have been employed on land improvement works, for which Rs. 33,711 were disbursed during the month as shown in the subjoined table :—

4. *Wages*—were calculated on prices varying from 9 to 15½ seers to the rupee. The majority of the workers, which consisted of agricultural labourers and petty ryots accustomed to labour, but not to the labour required on works, was in receipt of the B class wage. Many of those on the C class wage were weavers. Wages were calculated not upon the price of the staple grain, but on the combined price of the staple and cheapest grains.

5. *Gratuitous relief.*—The numbers on gratuitous relief fell to 61,992. The decrease was due to the improvement in the season.

6. *Prices*—fell considerably in all districts except Ganjám and Gódávari as shown below :—

At the close of the month, the price of ragi had fallen in Anantapur and Cuddapah to the scarcity rates.

7. *Imports and Exports.*—The course of trade is shown by the subjoined figures :—

Districts.	Imports and exports by rail.			
	August.		September.	
	Imports.	Exports.	Imports.	Exports.
	Mds.	Mds.	Mds.	Mds.
Ganjám	61,800	3,300	39,900	2,300
Vizagapatam	83,400	14,100	70,100	2,200

Cuddapah	13,680	13,243	10,275	17,680

Gross imports were large in Ganjám, Vizagapatam and Bellary. Exportation was considerable from Bellary, Anantapur and Cuddapah, but much of this is believed to be Mysore grain. Exportation was fostered by high prices in Bombay.

8. *Condition of the People.*—The condition of the people was, on the whole, fair, though Bhadráchalam continued to give cause for anxiety. A large number of deaths from cholera was reported ; the District Surgeon of Ganjám considers that many of the deaths set down to cholera were due to "famine diarrhœa." The decrease in the numbers on works was mainly due to the improvement in the season.

Grain continued to be imported by Government into the Bhadráchalam taluk, the ordinary roads being impassable owing to the heavy rains, and the high floods in the Gódávari preventing native craft from ascending the river.

9. *Mortality.*—The following table shows the deaths in August 1897 and in the period, October—August 1896–97, and the average rates for each period :—

Districts.	Number of deaths reported			
	During August.		From October to August.	
	1897.	Average.	1896–97.	Average.
Ganjám	5,060	3,413	34,135	20,924
Vizagapatam	4,982	3,352	35,808	31,597

Anantapur	1,497	1,235	12,856	11,379
Cuddapah	2,607	2,069	22,064	24,461

Cholera was the cause of nearly two-thirds of the excess deaths in Ganjám during August, and of nearly half the excess deaths in Vizagapatam, Kurnool and Bellary.
