GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

Read—the following Proceedings of the Court of Wards, Mis. No. 1553, dated 7th October 1897:—

Read—the following letter from A. W. B. HIGGENS, Esq., Collector of Tinnevelly, to the Secretary to the Court of Wards, dated 27th May 1897, Ref. on Cur. No. 53:—

The estate of Ettiyapuram was surveyed by the Madras Survey Department during its last management by the Court of Wards—*vide* paragraph 75 of the manager's report embodied in Court's Proceedings, No. 3112, dated 20th December 1878. There are, however, 29 villages since acquired by purchase which have not been surveyed. The area of these 29 villages is 38¼ square miles. The Court in its Proceedings, No. 909, dated 12th March 1892, sanctioned the retention of a small survey establishment at a monthly cost of Rs. 66 for a period of one year and ten months and a further expenditure of Rs. 2,000 for the completion of the survey of the villages. The party started operation on the 16th November 1892 and continued work till the 12th July 1893 and the work done consisted of the demarcation of some villages at a cost of Rs. 232. Complaints of irregularity were received against the surveyor and the late manager suspended him from duty, and as there was no proper person to conduct the further survey the work was discontinued.

2. The present manager reports that the completion of the survey and demarcation of the newly purchased villages is indispensable and suggests that the work might be undertaken by the Government Survey Department. The Superintendent, Madras Survey, who was consulted, informs me that he can undertake the survey in the current year (1897–98) if the sanction of Government is obtained. He estimates the cost at Rs. 7,600 at Rs. 200 per square mile which includes the cost of stone boundary marks.

3. I have the honour to request that the Court of Wards may be pleased to sanction the survey and to move Government to instruct the Superintendent, Madras Survey, to undertake the work in the current year.

4. Necessary provision will be made in the budget for the work.

Reference on the above, dated 10th June 1897.

Forwarded to the Superintendent, Madras Survey, who is requested to state what will be the cost of surveying the villages in question on the lines indicated in Court's Proceedings, Mis. No. 832 of the 21st ultimo, and whether the work can be undertaken in the current year as reported by the Collector.

2. A copy of Court's Proceedings, Mis. No. 832 of the 21st ultimo, will be forwarded to the Collector, who is requested to state whether field registers, &c., have been duly maintained in the remaining portion of the estate.

I have the honour to state that the cost of surveying 38 square miles of the Ettiyapuram estate, Tinnevelly district, on the lines indicated in the Proceedings of the Court of Wards, No. 832, dated 21st May 1897, will be about Rs. 7,600 at Rs. 200 per square mile inclusive of cost of stone boundary marks.

2. If the survey is sanctioned by Government, it can be undertaken during 1897–98.

3. The original enclosure to the Proceedings under reply is returned.

Reference on the above, dated 24th July 1897.

The Collector of Tinnevelly is requested to expedite his reply to paragraph 2 of Court's reference, dated 10th June 1897, on C.W.R. No. 1528 of 1897.

2. On receipt of the Collector's reply, the Court will make the necessary application to Government under section 17 (*a*) of Madras Act IV of 1897.

Read—the following letter from M.R.Ry. P. SIVARAMA IYER, Manager, Ettiyapuram estate, to the Collector and Agent to the Court of Wards, Tinnevelly, dated 14th September 1897:—

In reply to your Ref. on Cur. No. 53 of 1897, dated 10th July 1897, regarding the maintenance of field registers, &c., in the remaining portion of the estate, I have the honour to state that field registers, &c., of the villages which have been already surveyed have been duly maintained. In respect of the registers of six of these villages, copies had been prepared during the late zemindar's time and are now available. As regards the measurement sketches of the surveyed fields, many, owing to the lapse of time, have been somewhat damaged by white ants, and the late zemindar has had copies of some of the same prepared on durable paper before the commencement of the present management of the Court of Wards. The measurement sketches of some more villages require to be copied out in the same way, and a small temporary establishment is needed for this purpose. I shall address you shortly on the subject of the entertainment of this small establishment.
