PROCEEDINGS OF THE BOARD OF REVENUE

(Revenue Settlement, Land Records and Agriculture).

W. J. H. LeFanu, Esq.
(Famine Commissioner).

Read—the following Fortnightly Narrative of the Anantapur district for the period ending 15th October 1897:—

State of the Country.

Rainfall and Water-supply.—The rainfall registered at each of the stations during the fortnight is as follows:—

	INCHES.		INCHES.
Tadpatri	5·48	Penukonda	10·10
Yadiki	5 75	Hindúpur	5·54
Gooty	2·03	Madakasira	3·85
Uravakonda	8·04		
Anantapur	6·21	Total ...	56·63
Kalyandrug	6 48		
Dharmavaram	3·15		

The average for the fortnight is 5·66 against 2·67. The aggregate quantity up to the period is 25·13 as against 18·31, the average based on the figures of last five years.

Most of the tanks and spring and river nalas are full. The rivers, Pennéru, Chitrávati, Jayamangali and Kuswati have been steadily in floods. Water-supply is abundant both for drinking and irrigation purposes.

Agricultural operations and condition of the standing crops.—Ploughing and sowing under tanks and nalas are going on briskly every where. Korra, cotton, white cholam and bengalgram are being sown on the regar or black cotton soils and horsegram on the red soils. Early-sown ragi and cholam are being harvested in parts under wells and nalas, the outturn being poor to average.

Standing wet and dry crops, viz., paddy, sugarcane, cholam, ragi, korra, &c., are in good condition. Gingelly is said to be in excellent condition. Castor is blighted by insects in parts of Anantapur, Gooty, Dharmavaram and Penukonda taluks.

Supply of fodder and pasture, and condition of cattle.—Pasture is abundant. The supply of fodder is moderate and is being replenished by the ragi and cholam harvests. The imported fodder which was partially rotten and therefore ceased to attract purchasers was sold in lots by public auction at Anantapur and Tadpatri for Rs. 55-9-0 and Rs. 76 respectively. The stock at other depôts will be similarly disposed of shortly. The condition of cattle has considerably improved. Cattle disease is reported to exist in parts of Uravakonda division and in the Madakasíra taluk, the number of attacks and deaths reported being 15 and 9 respectively.

General remarks on the previous subjects.—There has been a decided change for the better. A further fall in the prices of food-grains is now anxiously looked for.

Activity of trade.—Private trade is dull in all stations except at Tadpatri, where it is active in rice and cholam. Rice is being imported from Guntúr, Salem, Coimbatore, and cholam from Nellore, Venkatagiri and other places. Ragi is being imported into Gooty taluk from Bangalore.

Condition of the People.

On works—Continues to be good. The Sub-Overseer in charge of the Guntakal work was attacked severely by fever, and the paymaster was suffering from dysentery. Arrangements have been made to relieve them. One of the workers on this work was attacked by cholera and succumbed to it.

In villages.—Good, except for cholera.

Sickness and mortality.—Cholera prevails in almost all the taluks. Fever, dysentery, small-pox, &c., prevail in the Head Assistant Collector's division. No deaths from starvation.
