Fortnightly Narrative.—Submitting to Government — of the Anantapur district for the period ending 31st October 1897.

C. 24/11

PROCEEDINGS OF THE BOARD OF REVENUE

(Revenue Settlement, Land Records and Agriculture).

W. J. H. LeFanu, Esq.
(Famine Commissioner).

Read—the following Fortnightly Narrative of the Anantapur district for the period ending 31st October 1897:—

State of the Country.

Rainfall and Water-supply.—The rainfall registered during the fortnight is shown below :—

	Inches.
Yadiki	0·55
Gooty	0·17
Uravakonda	0·08
Anantapur	0·28
Rest	*Nil.*
Total ...	1·08

The average for the fortnight is ·11 inches as against an expected fall of ·99 inches. The total rainfall up to date is 25·23 inches as against 20·13, the average of the previous five years. The rainfall during the period is poor.

As stated in the previous report, all the irrigation sources in the district are full and have been supplying enough of water for irrigation. The supply of water for drinking is abundant.

Agricultural operations and condition of the standing crops.—Lands under tanks and nalas and wells are being prepared for sowing Visak paddy and ragi. Everywhere paddy is being sown in parts. Korra, white cholam, Bengalgram and cotton are being sown in Gooty, Tadpatri and in parts of Anantapur and Kalyandrug taluks on the black cotton soils, and horse-gram on the red-soil in parts. Early ragi and cholam under wells and nalas, and cumbu and cholam on dry lands, are being harvested, the outturn ranging from middling to average. Korra is in ears and being cut in parts of the Madakasíra taluk with an outturn of As. 8 (middling).

Standing crops, both wet and dry, consisting chiefly of paddy, sugarcane, cholam, ragi, korra, cumbu, gingelly and cotton, are generally fair. Castor is reported to be diseased in parts of Penukonda, Gooty and Anantapur, and improving in Dharmavaram.

Supply of fodder and pasture and condition of cattle.—Pasture is abundant. Fodder is available, but dear. Condition of cattle is improving and generally good. Cattle disease exists in parts of the Madakasíra taluk: there were twenty attacks and thirteen deaths.

General remarks on the previous subjects.—Prospects generally good. Agricultural operations are briskly going on. The long interval after the heavy rains was, no doubt, a desideratum. If the North-East monsoon is of average strength in the current month, slight anxiety that seems to exist about the standing dry crops will disappear.

Food-supplies and the state of the Markets.

Prices of principal food-grains at principal markets in the affected tracts, in seers of 80 tolas per rupee, for the period ending 31st October 1897.

Average ..	9·34	9·34	19·60	20·27	14 57	15·34	15 24	16·37	

Activity of trade.—Private trade is dull as usual except at Tadpatri, where it is active in rice and cholam. The former is imported from Guntur, Salem, Coimbatore, &c., and the latter from Venkatagiri and Nellore. Ragi is being imported into the Gooty taluk from Bangalore. Local markets are said to have been well supplied.

Condition of the People.

On works.—Continues to be good.

In villages.—Good except for cholera.

Sickness and Mortality.—Cholera prevails in almost all the taluks. Fever, small-pox, dysentery prevail in parts of the Penukonda division.

No deaths from starvation.

Measures of Relief.

Dharmavaram	90	80	..	..	..	..

General Remarks.—The general outlook is cheerful. During the fortnight under report the remaining works have been ordered to be closed. Village relief was discontinued from the 23rd October in the Anantapur taluk and has been ordered to be discontinued in the remaining taluks from the 1st November. Most of the kitchens have already been closed, and the few remaining will cease shortly. The Gooty Deputy Collector has been requested to report from what date the weavers' depôt at Tadpatri may be closed, and orders will issue on receipt of his reply. The Famine Deputy Collectors, M.R.Ry. K. Narasimham Pantulu Garu and M.R.Ry. P. Acharyulu Pantulu Garu, have been relieved of their duties and ordered to go back to their former appointments.

NOVEMBER.

Fortnightly Narrative.

Recording Board's Proceedings submitting to Government — of the Anantapur district for the period ending 31st October 1897.

GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

Read—the following Proceedings of the Board of Revenue (Revenue Settlement, Land Records and Agriculture), No. 707, dated 13th November 1897:—

W. J. H. LeFanu, Esq.
(Famine Commissioner).

Read—the following Fortnightly Narrative of the Anantapur district for the period ending 31st October 1897:—

State of the Country.

Rainfall and Water-supply.—The rainfall registered during the fortnight is shown below:—

	Inches.
Yadiki	0·55
Gooty	0·17
Uravakonda	0·08
Anantapur	0·28
Rest	*Nil.*
Total ...	1·08

The average for the fortnight is ·11 inches as against an expected fall of ·99 inches. The total rainfall up to date is 25·23 inches as against 20·13, the average of the previous five years. The rainfall during the period is poor.

As stated in the previous report, all the irrigation sources in the district are full and have been supplying enough of water for irrigation. The supply of water for drinking is abundant.

Agricultural operations and condition of the standing crops.—Lands under tanks and nalas and wells are being prepared for sowing Visak paddy and ragi. Everywhere paddy is being sown in parts. Korra, white cholam, Bengalgram and cotton are being sown in Gooty, Tadpatri and in parts of Anantapur and Kalyandrug taluks on the black cotton soils, and horse-gram on the red-soil in parts. Early ragi and cholam under wells and nalas, and cumbu and cholam on dry lands, are being harvested, the outturn ranging from middling to average. Korra is in ears and being cut in parts of the Madakasíra taluk with an outturn of As. 8 (middling).

Standing crops, both wet and dry, consisting chiefly of paddy, sugarcane, cholam, ragi, korra, cumbu, gingelly and cotton, are generally fair. Castor is reported to be diseased in parts of Penukonda, Gooty and Anantapur, and improving in Dharmavaram.

Supply of fodder and pasture and condition of cattle.—Pasture is abundant. Fodder is available, but dear. Condition of cattle is improving and generally good. Cattle disease exists in parts of the Madakasíra taluk: there were twenty attacks and thirteen deaths.

General remarks on the previous subjects.—Prospects generally good. Agricultural operations are briskly going on. The long interval after the heavy rains was, no doubt, a desideratum. If the North-East monsoon is of average strength in the current month, slight anxiety that seems to exist about the standing dry crops will disappear.

Food-supplies and the state of the Markets.

Prices of principal food-grains at principal markets in the affected tracts, in seers of 80 tolas per rupee, for the period ending 31st October 1897.
