Season Report

Prices:

Prices are falling on 27 quotations, rising on 22 and are stationary on 24 out of 73. They are falling in 9 districts, rising in 6 and stationary in 8. Prices are nowhere above the scarcity rates, except for Cholam in the Dekkan districts and for Cumbu in Anantapur and Kurnool. Prices both of rice and Ragi are just under the scarcity rate in Ganjam

Rainfall:

There has been no rainfall during the week, in the Presidency

Public Health:

Public Health is good everywhere. Cholera shows no signs of increasing, except perhaps in Malabar. The Dekkan districts and Nellore are practically free of it.

Works. No details as to the number on works will be found in Statement flagged G. The numbers on works are not reported in Kurnool and from Anantapur this week. In Bellary, there is a slight increase, also in Cuddapah but

but a slight decrease in Ganjam. The numbers on gratuitous relief in Ganjam have fallen very ~~im~~ materially and are now only 361. Weavers' relief shows no signs of expansion.

Prospects:

Prospects show little change from last week.

Drinking-water supply is, if anything, improved. The Collector of Vizagapatam says that gratuitous relief to destitute non-workers is advisable in large ~~circles~~ centres; he also proposes to open test-works in several localities. No report has been received from Badrachalam but since dictating the above a wire has been received which shows that the works have "failed".—
