Document No. 1

Document No. 2

PROCEEDINGS OF THE BOARD OF REVENUE (LAND REVENUE).

READ—the following letter from H. S. MULLINS, Esq., Special Forest Settlement-officer, Malabar and South Canara, to the Collector of South Canara, dated Camp, Manantoddy, 27th August 1897, Dis. No. 162-F.S.:—

In submitting this, my report, upon the conclusion of the settlement of block No. 66, Kurseggude, in the Coondapoor taluk of your district, I have the honour to state that the notification, under section 4, proposing to constitute the said block a “reserved forest” appeared in the *Fort St. George Gazette*, dated 16th October 1894, and the proclamation under section 6 calling for claims, was issued by Mr. Slight and published in the District Gazette, dated 12th January 1895. Spare copies of the proclamation were sent to the Tahsildar on 29th January 1895 for publication in the adjoining villages and service upon the wargdars interested.

2. The settlement of the block was transferred to me in July 1896, and when I took charge of the records there were two claims filed, the block not having been perambulated. I did the perambulation of the greater portion of the block in March last and the rest in May. During the perambulation I noticed in two or three instances that the demarcation did not agree with the section 4 notification and therefore got the discrepancies rectified in communication with the District Forest-officer, South Canara.

3. In all, seven claims were preferred against the block, of which two, as I have mentioned above, were on the file before I took charge of the forest settlement operations. One of these being a proposal from the District Forest-officer to admit four public rights of way was disposed of by Mr. J. H. Robertson in February 1896 and the other was pending. I decided this in March last together with the five others put in this year at the time of my inspection of the block boundary. There was one claim for proprietary right over a certain piece of land which was alleged to be included within the reserve and this was admitted, the land claimed having been ordered to be excluded by an alteration of the reserve boundary. Except these two claims, all the rest were for kumakki or the 100 yards’ margin generally allowed to wargdars to provide aids to the cultivation of their lands, of which one was fully admitted and two were partly admitted. The remaining two comprised also claims to tanks. One was dismissed on the ground that the demarcation at the spot being inaccurate, the tank as well as the kumakki portion would fall outside after the alteration of the reserve boundary according to the section 4 notification. The other claim was dismissed so far as it related to kumakki, as 100 yards’ margin was already left but the use of the water of the pond which formed the second portion of it was granted the tank bund being outside the block.

4. The last claim was disposed of on the 5th of May last so that sufficient time for appeals has been allowed to claimants. No appeals have been preferred. The block is, therefore, free of all rights other than those mentioned in the draft notification.

5. After perambulation and the disposal of claims, I had the block re-surveyed in May and sent the plan of the block after re-survey to the District Forest-officer in July for the preparation of a fresh sketch to accompany my final report. This was supplied to me on the 20th instant and is forwarded herewith.

6. The following are submitted:—

- (1) Draft notification under section 16.
- (2) Signed copy of the B Register of claims.
- (3) Statement showing the number of claims filed and their disposal.
- (4) Sketch-map of the block.

7. The date from which reservation is to take effect is left blank in the draft notification to be filled in by Government.

2-A	District Forest-officer, South Canara.	16th Sept. 1896. (ii) Foot-path, four feet wide, for men and cattle, entering between cairns Nos. 48 and 49 and going out between cairns Nos. 66 and 67. Claims rights to lands enclosed by cairns Nos. 70-C to 71 as the same has been in his enjoyment as kumakki for leaves and grazing to his wargs Nos. 8 and 17 of Kallodu village and as it contains a tank, water from which is used for cultivation purposes of his above said wargs. Requests the removal of cairns Nos. 39 and 40, the line between which passes over claimant's land.			The rights of way proposed by the District Forest-officer are admitted. (Signed) J. H. ROBERTSON, Forest Sett.-officer. Cannoor, 18th February 1896.
1-A	Nagappa Holla, son of Venkataramana Holla, of Paduvuri village.	30th July 1895.				The demarcation between cairns Nos. 70 B and 71 being incorrect, the land and tank claimed would fall outside after the alteration of the boundary according to section 4 notification. Claim is therefore dismissed. (Signed) H. S. MULLINS, Special Forest Sett.-officer, Malabar and South Canara, 19th March 1897.
4-A	Manja, nephew of Dugga Gonda, of Indramane in Murr village, Kallodu Magane.	19th Mar. 1897.			The District Forest-officer has no objection. The land will be excluded by an alteration of the reserve boundary.	The claim is admitted and the land with 100 yards kumakki will be excluded from the reserve by an alteration of the reserve boundary. (Signed) H. S. MULLINS, Special Forest Sett.-officer, Malabar and South Canara, 20th March 1897.
5-A	Venkappa Shetti, son of Manjamma Shettathi, Kallodu village, Coondapoor taluk.	20th Mar. 1897.	Claims right to kumakki at cairns Nos. 8, 9, 10, 11 for the cultivation of his warg No. 20 of Kallodu.		The District Forest-officer has no objection to the claim so far as cairns Nos. 10 and 11 are concerned.	The claim is admitted with regard to cairns Nos. 10 and 11 and kumakki will be provided by an alteration of the reserve boundary. The rest of the claim is dismissed. (Signed) H. S. MULLINS, Special Forest Sett.-officer, Malabar and South Canara, 20th March 1897.

J (i) Enters the reserve about 440 yards south-south-east of cairn No. 73 and running in an east-north-easterly direction for about two and a half miles through the forest, quits it at cairn No. 29.
 (ii) Foot-path from Bolampalli to Alsadi enters the reserve about 20 yards north-west of cairn No. 49 and traversing it in a westerly direction for over a mile, quits it at cairn No. 66.
 (iii) Enters the reserve about 50 yards south of cairn No. 33 and passing in a westerly direction for three-fourths of a mile, joins the path from Murr to Kallodu.
 (iv) Enters the reserve at cairn No. 55 and going in a north-north-westerly direction for about two and a half miles quits it 100 yards north-east of cairn No. 9, crossing during its course paths Nos. (i) and (ii) and being joined by No. (iii) above.

RESOLUTION—Forest No. 23, dated 20th January 1898.

Submitted to Government with the following remarks for approval and publication of the draft final notification in the *Fort St. George Gazette*.

2. The details of the rights of way traversing the reserve have not been recorded in the claim register. The Board has now added the necessary description in the remarks column. The Forest Settlement-officer should see that, in future, the two documents correspond in all particulars.

3. The block covers an area of 3,260 acres, as finally settled, and may be declared "reserved" from 15th May 1898.

GOVERNMENT OF MADRAS.
REVENUE DEPARTMENT.

READ—the following Proceedings of the Board of Revenue (Land Revenue), Forest No. 23, dated 20th January 1898 :—

Read—the following letter from H. S. MULLINS, Esq., Special Forest Settlement-officer, Malabar and South Canara, to the Collector of South Canara, dated Camp, Manantoddy, 27th August 1897, Dis. No. 162-F.S. :—

In submitting this, my report, upon the conclusion of the settlement of block No. 66, Kursegudde, in the Coondapoor taluk of your district, I have the honour to state that the notification, under section 4, proposing to constitute the said block a "reserved forest" appeared in the *Fort St. George Gazette*, dated 16th October 1894, and the proclamation under section 6 calling for claims, was issued by Mr. Slight and published in the District Gazette, dated 12th January 1895. Spare copies of the proclamation were sent to the Tahsildar on 29th January 1895 for publication in the adjoining villages and service upon the wargdars interested.

2. The settlement of the block was transferred to me in July 1896, and when I took charge of the records there were two claims filed, the block not having been perambulated. I did the perambulation of the greater portion of the block in March last and the rest in May. During the perambulation I noticed in two or three instances that the demarcation did not agree with the section 4 notification and therefore got the discrepancies rectified in communication with the District Forest-officer, South Canara.

3. In all, seven claims were preferred against the block, of which two, as I have mentioned above, were on the file before I took charge of the forest settlement operations. One of these being a proposal from the District Forest-officer to admit four public rights of way was disposed of by Mr. J. H. Robertson in February 1896 and the other was pending. I decided this in March last together with the five others put in this year at the time of my inspection of the block boundary. There was one claim for proprietary right over a certain piece of land which was alleged to be included within the reserve and this was admitted, the land claimed having been ordered to be excluded by an alteration of the reserve boundary. Except these two claims, all the rest were for kumakki or the 100 yards' margin generally allowed to wargdars to provide aids to the cultivation of their lands, of which one was fully admitted and two were partly admitted. The remaining two comprised also claims to tanks. One was dismissed on the ground that the demarcation at the spot being inaccurate, the tank as well as the kumakki portion would fall outside after the alteration of the reserve boundary according to the section 4 notification. The other claim was dismissed so far as it related to kumakki, as 100 yards' margin was already left but the use of the water of the pond which formed the second portion of it was granted the tank bund being outside the block.

4. The last claim was disposed of on the 5th of May last so that sufficient time for appeals has been allowed to claimants. No appeals have been preferred. The block is, therefore, free of all rights other than those mentioned in the draft notification.

5. After perambulation and the disposal of claims, I had the block re-surveyed in May and sent the plan of the block after re-survey to the District Forest-officer in July for the preparation of a fresh sketch to accompany my final report. This was supplied to me on the 20th instant and is forwarded herewith.

6. The following are submitted :—

- (1) Draft notification under section 16.
- (2) Signed copy of the B. Register of claims.
- (3) Statement showing the number of claims filed and their disposal.
- (4) Sketch-map of the block.

7. The date from which reservation is to take effect is left blank in the draft notification to be filled in by Government.
