RESOLUTION—Forest No. 47, dated 31st January 1898.

The western boundary description of the proposed block not being correct, the Board has amended the draft final notification in accordance with the sketch-map, and submits it, as thus amended, to Government for approval and publication in the *Fort St. George Gazette*.

2. The serial numbers adopted in the draft notification in respect of the admitted rights should have been given in the register and sketch-map in accordance with the instructions issued in Board's Proceedings, No. 578, dated 18th December 1896.

3. The foot-path admitted in claim No. 3 has not been recorded in the draft notification, probably because it has to be diverted along the boundary line as stated in the decision on that claim. As the path has not yet been diverted, it should be recorded as an admitted right in the draft notification. The Board has supplied the omission.

4. The block forms an extension to the main reserve and its retention has been approved by Government in its order, No. 283, dated 23rd June 1896. It covers an area of 90 acres as finally settled and may be declared reserved from the 31st May 1898.
