Additional Establishment for Cheruvu Village in the
Bapatla Taluk

Sanctioning the Board's proposals for the — of the Kistna district.

GOVERNMENT OF MADRAS.
REVENUE DEPARTMENT.

READ—the following Reference of the Board of Revenue (Land Revenue), No. 191, dated 23rd February 1898 :—

Read—the following letter from R. MORRIS, Esq., Acting Collector of Kistna, to the Secretary to the Commissioners of Land Revenue, dated Masulipatam, 19th January 1898, Dis. No. 594-Genl. :—

I have the honour to submit herewith, for the early sanction of the Board, a proposition statement for increasing the establishment of the Cheruvu village in the Bápatla taluk.

2. The village was till recently uninhabited and fetched a very small revenue. Its extent is acres 4,262.92. Up to survey and settlement it was part of Bápatla and formed the bed of a large irrigation tank since traversed by Kistna channels. Recently canal irrigation has been extended to it and large tracts of waste land (sold in auction, *vide* Board's Proceedings, Mis. No. 4166, Land Revenue, dated 10th September 1896) have now been brought under wet cultivation. The beriz has increased by leaps and bounds from Rs. 166 in fasli 1300 to Rs. 11,058 in fasli 1306, and the estimated revenue for the current year is Rs. 24,000. There is still a large extent of land available for assignment on patta and consequently under miscellaneous cultivation. The village is now a very important one and has a better future.

3. At the last revision of village establishments, the village was placed in the last class and has been allowed one munsif on Rs. 3, one karnam on Rs. 5 and one mohatad and one vetti on Rs. 3 each. This staff is, it will be seen from the above, quite insufficient to cope with the present requirements, and it is absolutely necessary to strengthen the establishment immediately.

4. It would be misleading to take the average revenue of this village for the last five years as the basis on which to fix the establishment, as the beriz has been steadily rising year after year in consequence of new facilities for irrigation. I would therefore take the average revenue at the minimum of Rs. 16,000. On the other hand, there is every prospect of its going beyond Rs. 24,000 expected this year. The establishment proposed in the enclosed statement is what a village with a beriz of Rs. 16,000 is entitled to under Board's Proceedings, Mis. No. 993, Land Revenue, dated 16th March 1897.

5. Though the beriz is over Rs. 8,000, the number of pattas is only 239; still I have proposed an assistant karnam. Much land having been taken up on patta at the end of last year and this year, the number of pattas must have doubled, but I am not in possession of the latest figure. There is no doubt that, by the end of this fasli, the number of pattas will far exceed 400.

6. The Board is aware that a scheme for the revision of village establishments in all the taluks of the district is pending in my office, but I beg to point out that the case of the Cheruvu village cannot be put off until all the proposals have been matured, and therefore venture to submit this special application in anticipation of the revision. I may add that, when sending my proposals for the whole district, it is not probable that I shall ask for a smaller establishment for this village than what I now propose.

7. In anticipation of Board's sanction, the proposed establishment has been entertained from 25th December 1897 as the collection season has begun.

Reference, No. 191, dated 23rd February 1898.

Submitted to Government with the Board's recommendation that the Collector's proposals, which involve an additional cost of Rs. 672 per annum, as shown below, may be approved and sanctioned :—
