2. The block originally formed part of Bollapalli extension No. 7, selected and demarcated by the Ranger Ananda Rau, but was excluded on the District Forest-officer's inspection, when it was found to be a distinct extension of Koppukonda and not of Bollapalli reserve; the demarcation was checked by the District Forest-officer Mr. Lushington.

Reference on the above, dated 8th December 1897.

On an examination of the settlement register of Perurupadu village comprised within the limits of the proposed reserve, it is found that survey No. 135, consisting of 463.93 acres of unclassified waste and 164.74 acres of patta lands, have been taken up for the reserve. It cannot be gathered from the papers whether the fields held on patta at the time of revenue settlement have since been relinquished; and, if so, whether they are not now required for cultivation. The Collector is requested to furnish the necessary information at an early date.

READ—the following letter from R. MORRIS, Esq., Acting Collector of Kistna, to the Secretary to the Commissioners of Land Revenue, dated Masulipatam, 30th January 1898, R.C. No. 708-For. :—

With reference to Board's Reference on Forest No. 3456 of 1897, I have the honour to state that, owing to the poverty of soil and distance from the village, the lands in question are being gradually relinquished.

2. Out of 164.74 acres of patta land therein referred to, 129.59 acres have already been given up, and there are only 35.15 acres of lands bearing sub-division Nos. 135-2A, 135-10, 135-12, 135-15, 136-16, and 135-17 now on patta, besides 2.72 acres cultivated last year in survey No. 135.14—sivaijama cultivation.

3. The lands still held on patta are scattered about the block; they are not much in requisition and their exclusion will disfigure the proposed reserve. There is no demand for lands for extension of cultivation. However, the matter will receive further consideration at the time of settlement and, if found necessary, an area will be cut out.

RESOLUTION—Forest No. 66, dated 14th February 1898.

In reply to the Board's reference read above, the Collector now reports that out of 164.74 acres of patta lands in survey No. 135 of Perurupadu village proposed for the reserve, 129.59 acres have been relinquished, leaving a balance of only 35.15 acres of patta lands under cultivation, besides 2.72 acres of sivaijama land cultivated last year. He also states that these lands are scattered over the block and are not much in demand for extension of cultivation, and that their exclusion will only disfigure the block and adds that, if found necessary, a portion may be cut out at settlement.

2. In these circumstances, the Board has no objection to the proposal, and accordingly submits the draft notification to Government for approval and publication in the Fort St. George Gazette.

3. The proposed block originally formed part of the proposed Bollapalli extension No. 7, but as it was latterly found to form a distinct extension of Koppukonda block, it has been constituted a separate extension.
