To the Board (R. Y.) with 1 enel. returned herewith.

Note:

In para 2 of G.O. No 839 Rev. dated the 30th December 1895, the Board of Revenue was asked to report the nature of the unsurveyed tracts in the Kurnool District, of which it was stated, in the Nandyal Taluk alone there were 120,846 acres, and also to state

SUBJECT.

Calling for further information from the Collector of Kurnool regarding the cultivable area requiring Cadastral Survey in his district.

state the reasons which render their Survey necessary.

The Board is still under correspondence with the Collector on the subject and now sends up to Govt a copy of its Proceedings in which it has asked the Collector to submit among other things a Statement showing for each Taluk the approximate area of cultivable and unirrigated lands occupied and unoccupied, which require to be Cadastrally Surveyed.

REVENUE BOARD OFFICE MADRAS.

Proceedings of the Board of Revenue

(Revenue Settlement, Land Records and Agriculture.)

Dated 9th December 1896.

No. 6361 mis.

READ letter from the Collector of Kurnool, Disposal No 1213/Ver of 1896, dated 25th August 1896 reporting that Collector's recommendation regarding Survey applies to the Yerrumalais only and not to the Nallamalais.

Read also letter from the Superintendent of Madras Survey, No. 351/R, dated 17th September 1896 reporting that the Survey of India will not undertake the Cadastral Surveys required by the Collector of Kurnool and enclosing a Copy of Surveyor-General's programme for 1896-97 and 1897-98.

Resolution

The Collector is requested to state

(1) whether the only unsurveyed tracts in his district outside the Nallamalais and the Yerramalais are the 108,470 acres in the

the Nandyal taluk reported in his letter dated 22nd July 1896, No. 100/Ver.

(2) Whether, as presumed by the Board in para 2 of its Proceedings No 3963 dated 12th August 1896, the 10,105 acres lying in the seven villages mentioned in the margin of the Collector's letter quoted above consist of cultivable lands and require therefore to be surveyed, and, if so, for what purpose and by what agency.

2. With reference to para 2 of the Superintendent's letter read above, the Collector is requested to state whether the Cadastral Survey of the unsurveyed tracts may not be deferred until the completion of the resurvey of Kurnool Proper, which is now proceeding.

REVENUE BOARD OFFICE MADRAS.

Proceedings of the Board of Revenue

(Revenue Settlement, Land Records and Agriculture.)

Dated 28th March 1898.

No. 2148 Mis.

READ... the following letter from the Collector of Kurnool Dis. No. 1915 Genl of 1897 dated 4th July 1897:-

With reference to Board's Proceedings No 6361 Mis: dated 9th December 1896, I have the honour to state that there are outside the Nallamalais and the Yerramalais unsurveyed tracts in all the taluks of the district. A copy of the statement of unsurveyed tracts furnished by the Superintendent, Madras Survey, is herewith sent for information.

* Copy attached

2. Out of the 10,105 acres lying in the seven villages of the Nandyal taluk, only 158.10 acres are fit for cultivation.

of

of which 150.10 acres are already held on patta and cultivated every alternate year, the soil being sterile. As there is only a very small area still to be brought under the plough, there is no necessity for its survey being made by a Special Surveyor. As regards other unsurveyed tracts, I see no objection to their Cadastral Survey being deferred till the completion of the resurvey of Kurnool Proper.

Resolution

The statement of unsurveyed tracts forwarded by the Collector purports to show the "area of hills & topographically surveyed". It is presumed that what the Collector wants is not a survey of all these hill tracts but only a cadastral survey of all cultivable lands included in them. He is requested to state whether this is so. In the case of Nandyal taluk, the Collector states that only 158.10 acres are fit for cultivation, of which 150.10 acres are already held on patta and cultivated; and that as there is only a very small area still to be brought under the plough, there is no necessity for its survey being made by a Special Surveyor. He is requested to state whether the area "already held on patta" has been surveyed and if so, when and by whom. It is observed that the area, now reported, of unsurveyed cultivable lands in Nandyal differs very considerably from the extents reported in para 3 of the Collector's letter dated 18th March 1894, printed in G. O. No 839 Rev. dated 30th December 1895. It is observed also that the two villages, Gutupalli and Panyam, which were stated in that letter to contain much unsurveyed area do not find place in the present list. The Collector is requested to furnish a statement showing for each taluk the approximate

Reg E

approximate area of cultivable lands, occupied and unoccupied, which require to be cadastrally surveyed. The survey may, as remarked by the Collector, be deferred till the completion of the Survey of Kurnool Proper; but if the areas requiring Cadastral Survey in the taluks not included in Kurnool Proper are large, it will be matter for consideration whether the Survey of those areas should be separately arranged for. The Collector is requested to report on this point.
