Note. The Umajyar block was first notified under Section 4 under the order contained in G.O 613 of 15.6.92. It is now proposed to issue an amended boundary description notification as it found that the boundary line as demarcated differs from the boundary notified and includes a greater area. (This excess area is not shown on the map.).

The Conservator of Forests.

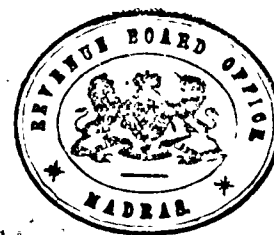

Sir,

I have the honour to submit a revised boundary description of the Umaiagar block for renotification under section 4 of the Forest Act. This is block No: 166, and was originally notified under section 4 in the Fort Saint George Gazette dated 21st June 1892, page 790.

2. The renotification was considered necessary by the Forest Settlement Officer, because the boundary line as demarcated differed from the notified boundary, and included a greater area.

This case is similar to the one reported to the Board in this office Ref: on Cur: No: 1019 dated the 14th September 1896.

A surveyor recently surveyed the block, and the boundary has been perambulated by the present Ranger and also by his predecessor. The map and boundary description are based on the Surveyor's map as checked by the Rangers: and I request that the revised boundary description may

Resolution

In the circumstances reported by
the Collector, the Board approves the proposal
to publish a revised notification in respect
of the Umaiya block.
2. The draft notification, ^{however} does not contain
the usual heading indicating that it super-
sedes that already issued under Sec. 4 in G.O.

the omission in the notification and submits
it, as thus amended, to Government for
approval and publication in the Fort Saint
