Forest Branch,

4th March 1898.

From

J. G. D. Partridge Esquire,

Acting collector of Madura.

To

The Secretary to the Commissioners of Land Revenue

thru: the Conservator of Forests, S. Circle.

Sir,

I have the honour to submit^a revised boundary description of the Kadavamalalai block for renotification under Section 4 of the Forest Act. This is block No. 66 and was originally notified under section 4 in the Fort Saint George Gazette dated 21st June 1892 page 790.

2. The renotification was considered necessary by the Forest Settlement Officer because the boundary line as demarcated, differed from the notified boundary, and included a greater area. Vide Board's Proceedings Forest 1566 Mis, dated 19th October 1895.

3. A Surveyor recently surveyed the block and the boundary has been perambulated by the present Ranger, and also by his predecessor. The map and boundary description are based on the Surveyor's map, as checked by the Rangers; and I request that the revised boundary description^{only} be published in the Fort Saint George^{Gazette}. The Ranger's perambulation certificates are enclosed.

I have the honour to be,

Sir,

Your most obedient servant,

Endorsement of the Collector of Madras, dated 5th October 1895, Ref. m. C. No. 3948, submitting to the Board letter from the Forest Settlement Officer, Trichinopoly &c District, Ref. m. C. No. 1153, 9th September 95.

Resolution

The Board resolves that the Collector agrees with the Forest Settlement Officer. He should have instructed his District Forest Officer accordingly.

2. Whenever there is any room for doubt as to a discrepancy being an obvious mistake, it is safer to issue a revised notification. In practice however, it is usually the demarcated line and not the written description which is known to the ryots.
