To

THE Revenue Department.

Your Office Note No. 39, dated 28th March 1898. Estimates are under preparation by the South Indian Railway authorities for doubling the line from Pallavaram to the Beach Station but they have not yet been submitted to the Consulting Engineer or to the Board of Directors. It is not probable that the project will be sanctioned in time to assist in the relief of distress in Chingleput District. If however the Madras Government intend to spend money on earthwork for famine relief purposes, and would not mind taking their chance of recovering the ordinary Railway price of it hereafter, I think it quite possible that it might if necessary be arranged by telegraph that the Public Works Department should throw up the necessary earth for doubling the South Indian Railway Company's bank.

It being understood that the South Indian Railway Company intends to double its line from Madras to Chingleput, the undersigned has the honour to enquire at what stage the proposal at present is and whether the same can be pushed through so as to make the required earth-work available for the relief of distress, in ~~the event of its becoming necessary to open State relief in~~ the Chingleput District.
