Season Report for the week ending
 23-4-98

Rainfall — There was rain during the week in all the districts except Chingleput and Madras. The fall was heavy in Cuddapah and good on the West-Coast and the Nilgiris, and in Salem, Coimbatore and Madurai. There was a fall of 3.85 inches at Udumalpet and 0.27 inches at Podili; but Manjeri received only 7 cents. There was also rain throughout the affected portion of Marathas in Kurnool.

Public Health — is generally good though Cholera still continues general.

Prices — The only noticeable variations in the prices are that the price of ragi rose in Tanjore by 1.8 seers per rupee, while that of Cumin fell in Anantapur by 2.2 seers.

Prospects — are much the same everywhere as in the

the previous week. The rainfall during the week has been beneficial in parts to standing crops. In Bellare, it is reported that a few of the tanks have received small supplies and that harvesting has slightly improved matters.

Numbers on relief - The number of relief workers increased by 231 and that of persons on gratuitous relief by 21. The increase in the former occurred in Badazafiri and Podili and is reported to be due to the bulk of the ragi harvest having been over in parts of these two places.
