REVENUE BOARD OFFICE MADRAS

Proceedings of the Board of Revenue

(Separate Revenue),

Dated 16th April 189[illegible].

His No. 1430.

Read the following Board's Proceedings His No.1367 dated 6th December 1897:--

RESOLUTION:-

The Inspector Cuddapah Circle supported by the Assistant Commissioner and the Deputy Commissioner, reports that the present length of the peons' lathies renders them practically unserviceable on occasions of assault and makes it difficult for preventive parties to conceal their movements; and suggests that in lieu thereof batons similar to those of police constables may be supplied to them.

2. The Board is inclined to agree generally with the above remarks, but before making any change in the regulations at present in force considers it would be advisable to test the advantages of the two classes of weapons practically. It resolves therefore to supply a certain number of batons to the peons employed on preventive duty in dangerous localities the Inspectors concerned directing their men to use whichever weapon seems proper to particular occasions or services.

3 Assistant Commissioners are requested to submit at an early date through the Deputy Commissioners, statements showing the number of batons they may require with full explanation of the reasons for recommending the supply. A full report on the subject of the relative advantages of the one and the other weapon should be submitted by the Deputy Commissioners at the end of the next calendar year, showing how far the concession has been availed of and whether the use of lathies may not

not be generally discontinued throughout the Force.
