Papers to be read in Proceedings:—

Again G.O., dated 189 , No.

Current No. 3088 of 1897, dated 4 Nov 1897 from the Revenue Departt.
Current No. of 189 , dated from the

Order.

As regards communal lands in proprietary estates outside municipal areas, the Government considers that a clause should be added to section 49 of the Madras Local Boards Act V of 1884, vesting such lands in the District Board. As the wording of this section is already proposed to be altered by section 36 of the draft Bill to amend the said Act, section 49 of the Act will, with the addition now made, read as follows:—

" 49 (1) All public roads in any district and the pavements, stones and other materials thereof and also all erections, materials, implements and other things provided for such roads and all communal lands, that is, lands which are set apart for the convenience or common use of the community, such as pathways, village sites, cattle stands, &c. in proprietary estates shall vest in and belong to the district Board.

(2) But it shall be competent to the Governor in Council by notification to exclude any road or communal land from the

operation

I think that before bringing in "and the like" we should, if possible, go into more detail, that is, specify by name more kinds of communal lands, such as market places, burial & burning grounds - and then magistrates - farmer's plots will probably give a number of names.

Ought we not also in specifying such lands, to say that they are only unenclosed lands as included in S. 4 of Reg XXV of 1802 called Chikking? The proprietors of estates must have a clear conscience that no interference is intended with any lands which were taken into account in fixing their dues. It will be easy in many of the Southern Zemindaries to say which particular lands were, which were not, taken into account. But how about the village sites &c. in the Northern Zemindaries? Ought there not to be some procedure prescribed for ascertaining which lands were, which were not, taken into account? I should say there

operation of this act and to modify or cancel such notification."

2. Section 36 of the draft Bill to amend Act V of 1884 will be altered accordingly, and in sections 98-A, 98-B and 98-D, which it is proposed to insert in the Act by section 71 of the draft Bill, the words "communal land: vested in and belonging to the District Board" and "communal lands vested in and belonging to the District Board" will be inserted after the words "road." and "roads" respectively.

3. As to communal lands in proprietary estates within municipal areas, the necessary provision vesting them in municipal Councils will be inserted in Madras Act IV of 1884 as amended by Act III of 1897, when it is next amended.

Would be. We should have power to require all Proprietors to put in lists of all communal lands together with the estate accounts & arrangements for summary inquiry (on the same line as under the Act III of 1896 or as under the Act IV of 1897) - But we can't be dealt with in-
tentive & complicated matters such as these by a mere verbal amendment of the L. R. Act. I think we must have separate Act but it is a question whether the Adv. Genl. should not draw it.

I agree with you to have Sir Henry Blie. The subject will have been decided at once length, & if it were introduced into the Bill for amending Act V of 1884, it would add considerable matter to the debates, & delay the passing of the Bill. I think it should be dealt with in a separate Bill, & we can deal with Commune in Municipalities at the same time.

It will be best to ask the Adv. Genl. to draw up the Bill. It is of limited scope & won't be a long Bill but the words used in it will be of great importance. I will illustrate this by referring to the Section now proposed. I doubt if the word "Communal" should be used. It properly means 'pertaining to a Commune', & that is a French institution. It is generally used in ordinary talk & writing with the meaning attached to it in the section, but not always. In the Note to Sec 116 in the Survey Act of 1884 & in the Finance Act of 1884 it means all the land in an estate except the proportion private land. The description of "Communal lands" is insufficient. Most of them have not been for

It is necessary to settle some way of determining whether any particular piece of ground is a temple or not. I think this could best be done by modifying Sec. 118 of the Bengal Tenancy Act, so that it may apply to land alleged to be Perambolke, instead of to "land alleged to be a Pro-prietary private land".

There is no objection to the draft order proposed to be issued so far as the Dept is concerned.
