Proceedings, Forest No. 58, 8th February 1898.

FEBRUARY.

Submitting with remarks to Government, for approval and publication in the *Fort St. George Gazette*, draft notification under section 4 of the Forest Act for the constitution of Kandlagunta extension I block, Palnad taluk, Kistna district, as a reserved forest.

PROCEEDINGS OF THE BOARD OF REVENUE
(LAND REVENUE).

READ—the following letter from R. MORRIS, Esq., Collector of Kistna, to the Secretary to the Commissioners of Land Revenue (through the Conservator of Forests, Northern Circle), dated Masulipatam, 12th December 1897, Dis. No. 1306-For. :—

I have the honour to forward, herewith, a draft notification under section 4 of the Forest Act for the reservation of Kandlagunta extension I block which has an area of 16,055 acres.

2. It was originally selected by Ranger Ananda Row, with a large piece attached to it on the southern side, with a short line of attachment. The District Forest-officer, Mr. Lushington, on inspection in February 1896, considered that they should form separate reserves, and the southern portion will be notified under the name of Mandadi reserve. The estimate for demarcation of the Mandadi reserve is now under preparation.

3. The demarcation was carried out by Deputy Ranger K. V. Subba Row and the District Forest-officer inspected the demarcation during the month of March 1897 and found it well done.

4. As the ayacut abstract (called for in Board's Proceedings, Forest No. 459, dated 2nd October 1896, and herewith forwarded) shows, no land in the surveyed portion of any village has been taken up except in Kottapalli and Ratsamallipad. The portion in Kottapalli is unassessed hill poramboke which is a continuation of the unsurveyed hill, and the portion in Ratsamallipad it is proposed to keep as an enclosure at settlement.

5. The forest growth is somewhat various; on the hill there is a certain amount of *hardwickia binata* towards the west, mixed with a fair amount of *chloroxylon* and *anogeissus*; on the lower slopes *accacia sundra* is found; but towards the eastern portion the forest is poor, having been much overgrazed by the numerous cattle of Macherla, another neighbouring village. It will form, together with Mandadi reserve, one working circle.

6. The statement of area and condition and the demarcation certificate are herewith submitted.

Certificate.

Certified that Kandlagunta extension I block, in Palnad taluk, in Kistna district, was selected after a personal inspection by P. Ananda Row, and modified in February 1896 and boundaries perambulated by Mr. A. W. Lushington, District Forest-officer, and preliminarily demarcated by Deputy Ranger K. V. Subba Row and that the block was inspected by the District Forest-officer and the demarcation checked by him in March 1897.

ENCLOSURE No. 4.—Villagewar statement.

ENCLOSURE No. 5.—Sketch-map.

Endorsement by A. W. PEET, Esq., Conservator of Forests, Northern Circle, dated Bangalore, 22nd December 1897, Ref. on Cur. No. 1036.

Forwarded.

RESOLUTION—Forest No. 58, dated 8th February 1898.

Submitted to Government with the request that the draft notification as slightly amended by the Board may be approved and ordered to be published in the *Fort St. George Gazette*.

2. The irregular boundaries in the northern part of the proposed reserve are very objectionable and the reserve is evidently very close to cultivated or cultivable lands. It does not seem advisable or necessary to reserve the long narrow strip to the north-east and it will probably be better to bring the boundary from field No. 153 of Alagarajupalli, part I, to field No. 222, part III. This should, if possible, be arranged at settlement.

3. The proposed Kandlagunta extension I is composed of 14,945 acres unsurveyed and 1,110 acres in the surveyed portion of Kottapalli and Ratsamallipad villages. It is proposed to treat this area in the same working circle as Mandadi reserve, which has not yet been proposed for reservation.

4. It is noted that the portion in Ratsamallipad village comprised within the reserve will be treated as an enclosure at settlement.

Reserved Forest.

The draft notification under section 4 of the Madras Forest Act for the proposed constitution of the Kandlagunta extension I block, in the Palnad taluk, as a —, ordered to be published in the Fort St. George and the Kistna District Gazettes.

GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

READ—the following Proceedings of the Board of Revenue (Land Revenue), Forest No. 58, dated 8th February 1898:—

Read—the following letter from R. MORRIS, Esq., Collector of Kistna, to the Secretary to the Commissioners of Land Revenue (through the Conservator of Forests, Northern Circle), dated Masulipatam, 12th December 1897, Dis. No. 1306-For.:—

I have the honour to forward, herewith, a draft notification under section 4 of the Forest Act for the reservation of Kandlagunta extension I block which has an area of 16,055 acres.

2. It was originally selected by Ranger Ananda Row, with a large piece attached to it on the southern side, with a short line of attachment. The District Forest-officer, Mr. Lushington, on inspection in February 1896, considered that they should form separate reserves, and the southern portion will be notified under the name of Mandadi reserve. The estimate for demarcation of the Mandadi reserve is now under preparation.

3. The demarcation was carried out by Deputy Ranger K. V. Subba Row and the District Forest-officer inspected the demarcation during the month of March 1897 and found it well done.

4. As the ayacut abstract (called for in Board's Proceedings, Forest No. 459, dated 2nd October 1896, and herewith forwarded) shows, no land in the surveyed portion of any village has been taken up except in Kottapalli and Ratsamallipad. The portion in Kottapalli is unassessed hill poramboke which is a continuation of the unsurveyed hill, and the portion in Ratsamallipad it is proposed to keep as an enclosure at settlement.

5. The forest growth is somewhat various; on the hill there is a certain amount of *hardwickia binata* towards the west, mixed with a fair amount of *chloroxylon* and *anogeissus*; on the lower slopes *accacia sundra* is found; but towards the eastern portion the forest is poor, having been much overgrazed by the numerous cattle of Macherla, another neighbouring village. It will form, together with Mandadi reserve, one working circle.

6. The statement of area and condition and the demarcation certificate are herewith submitted.

Certificate.

Certified that Kandlagunta extension I block, in Palnad taluk, in Kistna district, was selected after a personal inspection by P. Ananda Row, and modified in February 1896 and boundaries perambulated by Mr. A. W. Lushington, District Forest-officer, and preliminarily demarcated by Deputy Ranger K. V. Subba Row and that the block was inspected by the District Forest-officer and the demarcation checked by him in March 1897.

ENCLOSURE No. 5.—Sketch-map.

Endorsement by A. W. PEET, Esq., Conservator of Forests, Northern Circle, dated Bangalore, 22nd December 1897, Ref. on Cur. No. 1036.

Forwarded.

Resolution—Forest No. 58, dated 8th February 1898.

Submitted to Government with the request that the draft notification as slightly amended by the Board may be approved and ordered to be published in the *Fort St. George Gazette*.

2. The irregular boundaries in the northern part of the proposed reserve are very objectionable and the reserve is evidently very close to cultivated or cultivable lands. It does not seem advisable or necessary to reserve the long narrow strip to the north-east and it will probably be better to bring the boundary from field No. 153 of Alagarajupalli, part I, to field No. 222, part III. This should, if possible, be arranged at settlement.

3. The proposed Kandlagunta extension I is composed of 14,945 acres unsurveyed and 1,110 acres in the surveyed portion of Kottapalli and Ratsamallipad villages. It is proposed to treat this area in the same working circle as Mandadi reserve, which has not yet been proposed for reservation.

4. It is noted that the portion in Ratsamallipad village comprised within the reserve will be treated as an enclosure at settlement.
