REVENUE BOARD OFFICE MADRAS

Proceedings of the Board of Revenue

(Revenue Settlement, Land Records and Agriculture.)

Dated 14th April 1898.

No. 2578 Miscellaneous

READ ..... the following letter from the Collector of Kurnool, R.C No 124/F of 1898 dated 17th March 1898:—

With reference to Board's Proceedings No 1459 Miscellaneous dated 1st March 1898, I have the honor to report that Markapur Yerragondapalem Road work has been selected as a central work to be opened and connected on intermediate system when relief becomes necessary in the affected portion of Markapur Taluk. The road is 22 miles long and the cost of it has been estimated by the District Board Engineer at Rs 73,018. I have, however, called for a detailed estimate from the Executive Engineer and requested that officer to have the required number of tools &c to be stored up in a convenient place near the scene of the work and to have also

the

ready to enter on the duties as soon
as the work is opened. I presume that
when the work is to be opened on
intermediate system, it should be
supervised by the Public works
department from the very outset.
2. As it is not likely that any
necessity will arise for opening the
work within the close of the current
month, no funds will be required for
this official year. I think that any
funds required for the ensuing year
may be met from the allotments
sanctioned in Government order
No. 29 Financial dated 14 January 1898 Rs. for 453
for 1898-99 without fresh application for
the same.

Resolution

Submitted to Government, with
reference to para 3 of Board's Proceedings, 459 dated
1st March 1898.
2. If the estimate for the work selected
has not yet been sanctioned, steps should
be taken to bring it under sanction at a
very early date. It is desirable that the
work should be started & supervised
by the Public works department.
3. The Collector should make a specific
application for the allotments required, as the
provision made in the Budget estimates for
1898-99 accepted in Government Order No. 29 Financial
dated 16 January 1898 is not sufficient authority
for incurring expenditure

(True Copy & Extract) K. V. Ramadasan

To Secretary

Please see the
P.W. Secretary's remark on
the Current Cadjan which is
to the effect that the esti-
mate for the road work selected
for as relief work in the Nanka
pura taluk should be prepared
by the Bd. Board Engineer and
handed over to the P.W.D for
execution. Under Go. 133 Fin.
dt 8-2-97, local fund works
which are to be utilized as
'relief works' should be pro-
vided for from Provincial re-
sources though the cost may
be afterwards recovered from
the Local Funds. The procedure
adopted by the Collector in
calling upon the Executive Engi-
neer to prepare a detailed esti-
mate for the work appears to
be correct.

Please join the
reference to the authority
at A more definitely.
The G.O. quoted is a Fin.
G.O. dealing with the

section 7 the provision of funds and does not refer to the procedure in framing estimates in works, as far as I can see.

Ellis
10-5-98

The q.ee refers only to the question of the provision of funds, but when a work is paid for and executed by the P.W.D. I submit that the estimate for that work would naturally take the same form as the estimate prepared by the Dept. The work in question appears to have been brought only in connection with famine relief & there is no suggestion that it would be undertaken by the P.W. Board in the ordinary course. There is no provision for the work in the Estimates & Budget

RS
18-5-98

2nd asst. You are sure there are no rules in the subject?

Ellis
19-5-98

It has been ascertained from enquiry in the P.W.D that there are no rules on the subject

RS

Secy

Sir,
I submit by right the work is a work of famine relief & should be undertaken by the P.W.D. Estimates should be prepared by the Board Engineer and sanctioned by Govt. The P.W.D. will then carry out the works on the intermediate by piecework relief should become necessary
