No. 2568 Miscellaneous

READ

the following letter from the collector of Kurnool, R.C. No. 124 of 1898 dated 17th March 1898:—

With reference to Board's Proceedings No. 1459 Miscellaneous dated 1st March 1898, I have the honor to report that Markapur yerragundapalim Road work has been selected as a central work to be opened and conducted on intermediate system when relief becomes necessary in the affected portion of Markapur Taluk. The road is 22 miles long and the cost of it has been estimated by the District Board Engineer at Rs 73,013. I have, however, called for a detailed estimate from the Executive Engineer and requested that officer to have the required number of tools &c to be stored up in a convenient place near the scene of the work and to have also the

ready to enter on its duties as soon as the work is opened. I presume that when the work is to be opened on intermediate system it should be supervised by the Public Works Department from the very outset.

2. As it is not likely that any necessity will arise for opening the work within the close of the current month, no funds will be required for this official year. I think that any funds required for the ensuing year may be met from the allotments sanctioned in Government order.

No. 29 Financial dated 14 January 1898 for 1898-99 without fresh application for the same.

Resolution

Submitted to Government, with reference to Para 3 of Board's Proceedings, 1459 dated 1st March 1898.

2. If the estimate for the work selected has not yet been sanctioned, steps should be taken to bring it under sanction at a very early date. It is desirable that the work should be started & supervised by the Public Works Department.

3. The collector should make a specific application for the allotments required, as the provision made in the budget estimates for 1898-99 accepted in Government Order 29 Financial dated 14 January 1898 is not sufficient authority for incurring expenditure.

L. V. Simwasi

To Secretary

Please see the P.W. Secretary's remark on the Current below which is to the effect that the estimate for the road work selected for a relief work in the marks per taluk should be prepared by the District Board Engineer and handed over to the P.W.D. for execution. Under G.O. 133 dated 28-2-97, local fund works which are to be utilized as 'relief works' should be provided for from Provincial resources though the cost may be afterwards recovered from the local funds. The procedure adopted by the collector in calling upon the Executive Engineer to prepare a detailed estimate for the work appears to be correct.

Please find the reference to the authority at A more definitely. The G.O. quoted is a File No. dealing with the

action of the provision of funds and does not refer to the procedure for framing estimates for work, as far as I can see.

Ullie
10.5.98

The G.C. refers only to the question of the provision of funds, but when a work ~~is~~ is paid for and entered by the P.W.D. I submit that the estimate for that work ~~should~~ be prepared by the same Dept. The work in question appears to have been thought of only in connection with famine relief & there is no suggestion that it would be undertaken by the P.W.D. Board in the ordinary course. There is no provision for the road in the Annual L. of Budget.

RS
18.5.98

2nd H. You are sure there are no rules on the subject?

Ullie
19.5.98

It has been ascertained from enquiry in the P.W.D. that there are no rules on the subject.

RS
21.5.98

Secy. The ~~estimate~~ P.W. Secy

Decides to submit to the right. The work is a road work. It seems right that the P.W. Secy should prepare the estimate. But will carry out the work.

if it is to be done as a famine work under ordinary rules but P.W. would do the work
I am, Sir,
Secretary
