Revenue Dept.

odas an enu

Respected Sir,

I beg most respectfully
to inform you that I have finished
the work you have so kindly
given me. I did some extra work
besides what I have ~~made~~^{made} in my
bill namely I have fitted 2 shelves
on the northern & southern sides
which cost me something
extra. Besides this I have
stayed three ^{whole} days when you
were sick, because you have
not come & inspected the books.
I most respectfully request
you will be good enough to frank

NOTE FOR THE UNDER SECRETARY.
Public Works Dept.

A contractor who has undertaken to make record-racks for this Office has come up with the materials from Madras. Some of the racks he has already put up; but as the work done appears to be rather unsatisfactory it is desirable that before the rest are set up, the whole should be inspected, measured and valued by an officer of the Public Works Dept. Delay in putting up the racks would besides necessitate the detention of the Contractor and his men also cause considerable inconvenience to the Office. The undersigned has therefore the honour to request that if possible arrangements may be made for the inspection of the racks by the Sub-Divisional Officer Dodaconni.

today or tomorrow

As Under Secy to Govt
Revenue Dept.

Notarized
27 April 1883

Forwarded to the P.W.
Sub. Div. Office, Boston
Cambridge, for immediate
inspection & disposal.

As Russell
Under Secy to Govt.
P.W.D.
27.4.98.

(Who returned)

Inspected and checked
the record racks referred
to above.

The workmanship
& materials are good,
but the racks have not
been made exactly as per
plan and estimate.

Each rack should have
4 corner uprights - 3x3
instead of which 6 uprights
have been used 2 of them
"3" ~~the other 4~~ the center

anything has increased
the strength of the racks
slightly, but was not
absolutely necessary.

The amount of plank-
wood used for the racks
has been measured
as actually done to
amount to 119.29 cft.

The value of the work
at P.W.D. rates at
only is shown in the
abstract at the back
foot of the detailed
measurement sheet
sent herewith and
amounts to \$5967.2.

Abstract

119.29 cft of oak wood wrought }
put up at Rs: 5/4 per cft. } 596-7-2

Note. The above is the value at which the work would have been done complete by the P.W.D. at Botucanum.

[Signature]
Sub Engineer

Submitted to the Under Secy.

The P.W. Officer not noticed the following minor points:-

(1) That in the original estimate, the Contractor while making provision for 13 racks had, apparently through ignorance or oversight, omitted to make mention of the two half-racks and two full corner racks at the corners over and by the side of the two cupboards on the north and South walls (wide plan).

(2) That the racks are not all of the same size nor are the number of partitions in them the same as originally estimated.

(3) That all racks have not side planks put up.

(4) That while the quantity of the wood required was originally estimated at 13 x 10 $\frac{49}{64}$ or 140 Cub ft, that now put up amounts to only

119.29 cubft

In the matter of wood, the Contractor has gained about 21 cubft or Rs 63, while for on account of the ^{make up of the} half and miniature racks referred to in item (1) above he must have lost about Rs 31. The deviations (2) and (3) result in no harm, and (3) was specially necessitated by a wrong measurement of the walls.

The original amount agreed to be paid was Rs 682 -3-7 and if the Under Secy deems it necessary it can be reduced by Rs 32 and fixed at Rs 650. If the Under Secy examines it is probable that further

The man complains that he has to remain ^{here} with those who came up with him and spend money unnecessarily unless ~~and requests~~ early orders are passed.

He complains that the work is all right but he has to remain here with those who came up with him and spend money unnecessarily unless early orders are passed.

100-7-3-06

NOTE FOR THE UNDER SECRETARY.

The formal bill received from the Contractor who set up the racks here is submitted for orders.

He says that he has put up two racks in addition to those originally mentioned in his estimate and also had ~~staid~~ ^{staid} here for five days after the work was finished at a cost of Rs 6 1/4 per day so that the Under Secy might come and inspect the ~~work~~ racks. He requests that this amount may be paid to him as also something for the extra racks.

I do not ask him for this.

Disallow it

^{latter} These requests are apparently not made in earnest and are merely intended to serve as a blind in order that no fault should be found with him for his not working strictly in accordance with the estimate.

Sh

the so-called extra marks it will be seen were included in the plan prepared and it was in accordance with that plan that he submitted his estimate. ~~His present estimate~~

attention is now solicited to the notes dated 5th May 1898 with the request that orders may be passed as to the reduction which should be made in the bill submitted.

3. It has been ascertained from the Public Dept. that the whole cost involved is to be ^{incurred as} debited to the "Contingent" charges of the Revenue Secretariat and is not to be debited to the four accounts.

26/5/98 Pay him Rs 650.
 is the amount agreed upon for the difference between the shortage in work & the excess in work.

Reg. Certain Furniture
required for Noty office

Note for the Under Secretary

When the Under Secretary inspected the office last week it was represented to him that the Poly office is badly in want of furniture. Two of the referees work on a common table and they complain that papers get mixed and are often missing. Register files of papers & Pro. Vol. are to be laid down on the floor for want of small racks for the use of the referees & they become spoiled. The attenders working on the record boxes which are also used as their seats. The type writers have not got raised wooden chairs & therefore feel much difficulty in working on tables with low seats. The table used by one of the copyists & the circulation clerk are mutilated & beyond repair. These are not only useless but also make the appearance of the office untidy.

2. I beg to submit that in the above circumstances the following furniture may be ordered for:

ordered to be supplied for the use of the Doly office:-

(1) Four tables (height 30 in, breadth 30 in & length 45 in) for the use of two referencers, one of the copyists & the circulation clerk.

(2) Four small racks for the referencers for keeping books, files &c.

(3) Two raised wooden chairs (height 22 in.) for the typewriters.

[The table now used by the Referencers in common may be utilized for the attenders].

If the above proposal is approved estimates will be called for from the Contractor at Madras who usually supplies furniture & racks to the Secretariat Offices and submitted to the Under Secretary for sanction. It appears that the Public Works Dept. here cannot undertake to do the work so well & so cheaply as the private contractor at Madras. There is a provision of Rs 500 in the budget under the heading 'furniture' (vide No. 8 of 11 October '95 No 4077 M) & this amount may be best utilized

I think this is

reasonable

8

16-5-96

4/5

18.5

It is not necessary, but it is desirable

U.S.

~~It is not~~

Show me some

day 18.5-96

Record racks need less at present 17.5-96

for this purpose.

3. In this connexion it is submitted that the records of the Doly office are increasing year by year & that sufficient accommodation should be provided for their proper arrangement. The present record racks shut out much light & air. Some of the records are arranged in big almirahs in the passage leading to the Council Chamber and the attenders experience much difficulty in taking out papers & volumes for want of light. Last year the Public Dept. specially sent for a private contractor from Madras at joint expense and provided racks for the record room & the library at a cost of Rs 1944-5-9. An inspection of these racks will convince the Under Secretary that similar racks are necessary for the Revenue Dept. also. There is not sufficient provision in the budget for providing racks (the cost will probably be about Rs 1000) but I understand that there will be no difficulty in obtaining the sanction of the Financial Dept.

the Under Secretary approves of the proposal to rack the record room the Contractor that did the work in the Public Deptt will be sent for from Madras & directed to prepare plans & estimates as was done in the Public Department.

The might be done if the Secy approves; if so, the same man should do the tables &c

B.D.
13/5/96.

It must be made by
B.D.

To

Contractor Anandayya Pillai

The Under Secretary has made the following remarks on your Estimate for racks and tables.

(1) Is not a Carpenter's Cooly, about 12 annas a day. If so, Rs. 2.00 is ridiculous for one rack. It ought not to take 3 or 4 days.

Please explain.

If each rack is to be done singly, each will occupy a carpenter not less than 14 days. But as four racks are wanted, there has been a decrease on the whole. The work for a single rack is detailed below:—

1st Day's work:— Planing 12 support piece of wood and four legs, and fixing the measurements of the pieces.

2nd Day's work:— Making holes and cutting the ends of pieces so as to fit into the holes.

3rd Day's work:— Fitting the pieces into one another and planing the 3 planes.

4th Day's work:— Screwing to the frame work of the piece, the three planes and planing the rack as a whole.

2. Why have any baize?

The estimate says that if there is to be a baize, the amount of baize is 350000. It is not clear what the estimate means by this.

3. The charge for Varnishing is excessive

2. If the table is not to have a baize, it needs have a table cloth. If it has one, it needs no table cloth.

3. The charge, I submit, is not excessive. It includes the following: viz 1 Cost of wax 21 Cooly, for varnishing 31 Cost of the ingredients composing the varnish.

I (Anandayya Pillai)

(Anandayya Pillai)
Contractor

If the Under Secretary approves of the proposal to rack the record room the Contractor that did the work in the Public Deptt will be sent for from Madras & directed to prepare plans & estimates as was done in the Public Department.

10-5

To

Contractor Anandaroaya Pillai

The Under Secretary has made the following remarks on your Estimate for racks and tables.

(1) Is not a Carpenter's cooly about 12 annas a day. If so, Rs. 2.8 is ridiculous for one rack. It ought not to take 3 or 4 days.

Please explain.

If each rack is to be done singly, each will occupy a carpenter not less than 15 days. But as four racks are wanted, there has been a decrease on the whole. The work for a single rack is detailed below:—

- 1st Day's work:— Planing 12 support pieces of wood and four legs, and fixing the measurements of the pieces.
- 2nd Day's work:— Making holes and cutting the ends of pieces so as to fit into the holes.
- 3rd Day's work:— Fitting the pieces into one another and planing the 3 planes.
- 4th Day's work:— Screwing to the frame work of the piece, the three planes and planing the rack as a whole.

2. Why have any bars?

The contractor says that if there is no bar, the amount of work will be increased.

3. The charge for Varnishing is excessive.

2. If the table is not to have a bar, it needs have a table cloth. If it has one, it needs no table cloth.

3. The charge, I submit, is not excessive. It includes the following: viz (1) Cost of wax (2) Cost for Varnishing (3) Cost of the ingredients composing the Varnish.

J. Anandaroaya Pillai
(Contractor)

Note for the Under Secretary

The estimates prepared by the Contractor at Madras for the tables & small racks required for the duty office are submitted for orders. They may be passed for Rs 17 & Rs 12 respectively. The cost of the ~~wooden~~ wooden chairs required for the typewriters is Rs 3-8-0 each. The total cost excluding railway fare & cartage will amount to Rs 123 as detailed below:-

4 tables at Rs 17 each.	Rs 68.
4 small racks at Rs 12 each.	48.
2 wooden chairs at Rs 3½ each.	7
	<u>123</u>

The charge can be met from the provision of Rs 500 in the budget under the heading "furniture". (Vide f.p. dated 11 October '95 No. 4077 Misc).

The estimate is submitted for the duty office. It is not a carpenter's work, about a dozen or so, if on a small scale, it might not take for a day. The charge for the duty office is Rs 123.

Please see the contractor's explanation submitted separately. L. S. S.

The estimates prepared by the Contractor at Madras for the tables & small racks required for the duty office are submitted for orders. They may be passed for Rs 17 & Rs 12 respectively. The cost of the ~~wooden~~ wooden chairs required for the typewriters is Rs 3-8- each. The total cost excluding railway fare & cartage will amount to Rs 123 as detailed below:-

4 tables at Rs 17 each.	Rs 68.
4 small racks at Rs. 12 each.	48.
2 wooden chairs at Rs. $3\frac{1}{2}$ each.	7
	<hr/> 123

The charge can be met from the provision of Rs 500 in the budget under the heading "furniture". (Vide f.p. dated 11 October '95 No. 4077 Sinec).

Re: estimates for the furniture
required for the city office

Note for the Registrar

last year I raised the question
of providing record racks to
our office here but the County
Ordered that we should get
on with the existing racks.
owing to the introduction of
the flat file system our record
racks here are much cramped
& there is no space to keep
spare copies. The papers of
last year must be with the
Cock keeper. Will you please
direct him to send them up
& also provide for funds
in the next budget.

Clerk of

Note for the Head Clerk

Some of the records of 1897—
Miscellaneous C. D.'s and spare copies of
C. D.'s— are kept here ^{on} the floor for
want of space in the racks and
almirahs. There are, at present, in
the Poly office six big almirahs in
the passage leading to the Council
chamber and 3 big racks, 2 small
racks and 2 small almirahs in the
Reference room. They are already almost
filled up with the following records:

Big a lunatics in the passage

1. Spare copies of C. O. of 1871 & 1882.
2. " " " " 1883 & 1892.
3. " " " " 1893 & 1898.
- 4 } Board's Proceedings volumes 1871 & 1887
- 5 } Land Rev Pro volumes 1887 & 1892
6. Sep. Rev & Sub. Repts Pro. do 1887 & 1892

Miniraks and racks in the Reference room

1. Beg rack. Miscellaneous L. Co. g 1895
2. do do do do 1896
3. do do Originals of Press L. Co. g 1890-18
and some miscellaneous L. Co. g cal
4. Small rack. Routine L. Co. g 1895 & 1896
5. do do Pen Indexes, Pable & Const.
6. Small almirah. Rev. L. Co. g 1897. a Subt sep
of the papers g 1897
7. do do Subst. & O. D. M. & hand
spare copies of R. P. (A.A. & Sep Rev) &
L. Co. g other departments.

The records of the Post office
are increasing year after year as

...that the Record room should be supplied with large racks of uniform size.

Mr.
5.8.97

Submitted for order.
Last year I suggested that racks similar to those provided for the Public Dept should be supplied but the Secretary decided that new record racks were needless then. Owing to the introduction of the flat file system since then, more space is taken up by records & the present racks are unsuited for the arrangement of the record uniformly. If it is still thought that racks on the improved model are not required I submit that at least two or three racks similar to those now used may be made at once. For want of space some of the record binders are now left on the floor & are likely to be damaged as the room is not a from leakage.

I think three racks of improved pattern provided without delay & provision made if the number

16/8/97

Note for the Registrar

The Secretary has sanctioned the construction of new record racks on the improved pattern for the only office. I send herewith a plan of the racks required. Five racks have to be made. The big rack (23 ft long) may be split into two if necessary. Will you please direct the Contractor to prepare an estimate & send it up as soon as possible. I think the total cost would come to about Rs 1000. I send also the papers connected with the racks made for the Public Dept. The Contractor should be told that his tender should be as low as possible and that he might come up & verify the dimensions if his tender is accepted. I am inviting tenders from local men here to check the rates but allowances of course be made for materials.

Cash keeper

Show the plan to the Contractor & ask him to furnish estimates.

Note for the Under Secretary

Two estimates for the record racks required for the Poly office — one prepared locally & the other prepared by the contractor at Madras are submitted for orders.

2. The estimate prepared by the locally amounts to Rs 992-9-0. It is rather excessive and need not be considered. The rates here are stated to be about 60 percent higher than at Madras and the workmanship also will not be so good.

3. The estimate prepared by the ~~local~~ contractor at Madras who made the racks for the Chief Secretariat in 1895 may be accepted subject to the following modifications: (a) The cost of teak wood is entered as Rs 3-4-0 per cubic foot. It is not known at what rate teak wood is being sold now at Madras. In 1892 the Contractor wanted Rs 3-4-0 but the Chief Secretariat reduced it to Rs 3-2-0. I submit that the rate allowed by the Chief Secretariat may be adopted.

Findings
and
Remarks
4/11

Flag C

Value reduced
to Rs 3 per
cubic foot

is given as Rs 10-4-0. It may be reduced to Rs 8-4-0, the amount allowed for similar racks by the Chief Secretariat in 1895.

(c) The charge for the conveyance of each rack to the Railway station is entered as Rs 1-8-0. The Contractor ~~at~~ wanted Rs 10-12-0 in 1895 but the Chief Secretariat allowed only Rs 0-10-0. The rate sanctioned by the Chief Secretariat may be adopted in this case also.

4. The modifications suggested above would reduce the estimate to Rs 699-13-3. To this should be added the railcharge from Madras to Mettupalaiyam and the cart hire from Mettupalaiyam to Votacamund. These may be roughly estimated at Rs 80 on the basis of the charges incurred by the Chief Secretariat in 1895 for 32 racks. The total ~~it~~ would thus amount to Rs 779-13-3 approximately.

ascertain current price of teakwood

Reduce accordingly with the estimate accepted by the Revenue Committee

I understand that the current price of teak wood is about Rs 3 per cubic foot
R.P.
2/12/22

Rate

Re - Estimates for record racks required for the Cooky office.

The Contractor (Madras) agrees to the rate proposed in para 3(c) of the Head Clerk's note, viz, 10 annas for the conveyance of each rack to the Railway station.

2. As to the Cost of teakwood he says that he has to put in 9 planks (18" in breadth and 3/4" in thickness) in each rack and that teakwood of these dimensions costs Rs 3-4-0, a cubic foot and begs that he may be allowed the rate charged in his estimate or at least the rate passed by the Chief Secretary. 3. Regarding the carpenters Cooly proposed in para 3(b) of the Head Clerk's note, he states that the racks intended for the Rev. Dept. are bigger than those made for the Public Dept., the former being 12 1/2 ft high & 4 ft 6 in wide.

This is settled.
(P)

at Rs 3-2-0 - a cubic foot, the cost of lumber for each rack is Rs 33-10-3 -
at Rs 3-4-0, a cubic foot it is Rs 34-15-10 -
at Rs 3/- it is Rs 32-4-9 -
I think that the estimate of Rs 34-15-10 - may be reduced to Rs 33/- i.e. by Rs 2 - which will be at Rs 3-10-0 - a cubic foot. The Contractor will agree to this.
(P)
23/9/97

23/9/97

increases the latter is only
 11 1/2 ft high & 3 3/4 ft broad. He
 requests that the rate given
 to him in the Public Dept.
 viz Rs 4-0 for each rack, may
 be proportionately increased,
 considering the size of the present
 racks. This brings up the
 rate to Rs 9-0 for one rack.
 His request seems fair.
 At the rates suggested
 above the cost of each
 rack would be Rs 19 3/4.

(S)
 23 Sep 97

$$\frac{6}{25} \times 4 \times \frac{2}{23} \times \frac{1}{3} \times \frac{33}{2} = \text{Rs } 69 \frac{660}{621} (9-9)$$

$$69 \frac{624}{621} (9)$$

$$49 \frac{3}{4} \times 13 = 650 - 52 = 646 \frac{3}{4} \text{ Rs}$$

I see provision is made for men
 to come up here & from there the
 Government has done a local work
 of the travelling allowance saved?

No. The Contractor's men will fit
 the racks & varnish them. If we
 employ local men we shall have
 to pay them cooly at Rs 1 per man
 per day & they may not do the work
 so well. The Public Dept. also paid
 travelling allowance to the men in 1895

P.J.O.

On coming up to Oolacameed
11 1/2 ft Taking measurements in person
regue the Carpenter complained that
to him there was some difference between
his & the measurements given in the
be a plan & those taken by him.
Cous He was directed to submit a
vce Supplemental estimate which
was he now present. It seems
to me that on the completion
of the racks a measurement
should be taken & that the
Carpenter should be paid what
is due to him at the rates agreed
upon. In the meantime he
may proceed to make racks
according to the correct dimensions

20/1/98

Yes. Please have an agreement
also prepared as
originally contemplated.

Agreement

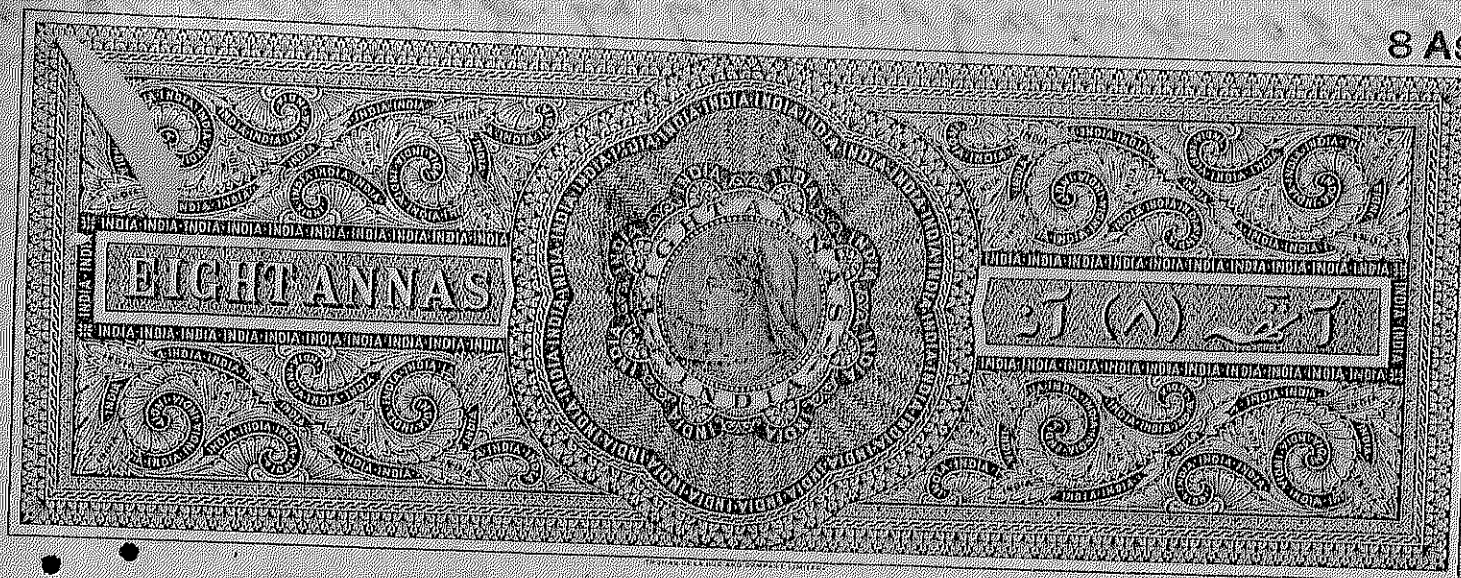

I agree to make for the Rev. Secretariat Office at
Oolacameed, as per my estimates of 4th Sept 97 Rs
reduced by the Under Secy to Govt, 15 racks, of seasoned
and seasoned teak wood, and to finish and fit
them up to the satisfaction of the ^{Under} Secretary to Govt.
or other officer empowered by him in this behalf, by
the ^{30th April 1898} ~~20th April 1898~~, holding myself liable to a forfeiture
of Rs 5 (five) for every day I may delay the completion
of this work beyond the aforesaid date.

I also agree that in the event of any of the racks
supplied by me being of unseasoned or unseasoned wood
or the workmanship thereof ^{being} unsatisfactory, the Under
Secretary to Govt or such officer as may be empowered by him
in this behalf, may either summarily reject all or any
of such racks or make such deduction from my estimate
as the ~~Under~~ Secy to Govt or such officer as may be empowered
by him may consider proper.

I further agree and bind myself to remedy without
any further charge any warping in the wood or other
defect that may be discovered within ten months from
the date of fitting up the racks.

For St George
