REVENUE BOARD OFFICE. MADRAS.

Proceedings of the Board of Revenue

(Revenue Settlement, Land Records and Agriculture),

Dated 2nd June 1898.

No. 341 Mis.

READ Government Order, Revenue, Mis No: 1381, dated 18th March 98.

Resolution.

The variations for which explanation is required by Government are shown in the annexed statement.

2. The expenditure shown in the accounts for February 1898 under Salaries and Establishments, which had not been provided for, in the estimates for that month, mainly represents payments of arrear claims. Moreover, such payments were made in many cases in districts other than those in which the payees were employed on Famine duty. It was therefore not possible to frame any estimate of the amount

required on this account in each district. It will also be observed that the estimates for February submitted by the Board were confined to the affected districts.

3. Under relief works in charge of Public Works Department large amounts are shown in the accounts for February for which no provision had been made in the Board's estimates. These amounts represent, it is understood, mere adjustments made in the books of the Examiner, of Public Works Department, in respect of past expenditure of which the final audit had been delayed owing to mistakes in classification, or other error

4. The actual outlay up to February under "33 b. weavers' relief" was less than the estimates because the sale proceeds of cloths have been taken in abatement of charges under this head. The variations under other heads in all districts, except Nellore, was due mainly to adjustments made to rectify errors in the original classification of expenditure in the accounts. In Nellore a larger provision was made under all heads than was actually found necessary afterwards.
