Office Note from the Chief Engineer for Irrigation, No. 1817, dated 25th May 1918:-

dated 25th May -8:-

G.O.No.2473 W, dated 24th September

1817 stated the officer selected for special duty on investigations in Nellore District under my orders. It was not contemplated that this should be a permanent arrangement if it were decided that a project in any circle was worth investigation and being estimated for. As it is now certain that a scheme for irrigation from the Manneru will be sanctioned I request that orders may be issued placing Mr. Ussher under the Superintending Engineer, II Circle. Some correspondence has already taken place between my office and the Superintending Engineer on the subject of the Anakapalle project, and as soon as Mr. Ussher is placed under orders of the Superintending Engineer the latter will be furnished with copies of the correspondence that has taken place with Mr. Ussher regarding the Manneru projects generally.

Order thereon: No 1464 W 13-6-18.

In his office note read above, the Chief Engineer for Irrigation reports that the preliminary investigation ordered in G.O.No.2473 W, dated 24th September 1917, of irrigation projects in the Nellore District, has made it clear that a scheme for irrigation from the Manneru can be sanctioned, and for this purpose, he recommends that the officer deputed to conduct the investigation may be placed under

while the orders of the Superintending Engineer, II Circle.

The Government approves this recommendation, and accordingly directs Mr. S.C. Usmani, the officer in charge of the Special Investigations in Nellore, to work directly under the Superintending Engineer, II Circle.

(True Extract)

Under Secretary to Government.
