G.O. No. Department.

No. 2596 C.

FROM

LIEUT.-COLONEL DONALD ROBERTSON, I. S. C.,
RESIDENT IN MYSORE.

To

The Secretary to the Government of Madras,
Revenue Department.

Dated Bangalore, 25th May 1898.

SIR,

I have now the honor to reply to your letter No.6057 dated the 23rd November 1897, in which the following proposals were made for the acceptance of the Mysore Government with regard to the lands in British territory that will be submerged by the proposed restoration by the Mysore Government of the Begadur tank:-

(1) that the Pattadars be allowed to hold the lands that will be submerged, and to cultivate them when not under water.

(2) that should any remission be granted to the Pattadars on account of any of these lands which may be occasionally submerged, the Madras Government should be compensated for the loss of assessment resulting from the grant of such remission.

(3) that if any of the lands be permanently relinquished owing to damage caused by submersion, compensation be paid to the Pattadars for loss of

of property, and to the Government for loss of assessment at 30 years' purchase.

2. The Durbar consider it very desirable, for many reasons, to acquire all the lands lying within the waterspread of the tank at weir level 54.00, but no compensation need in their opinion be paid for lands that will be submerged for a very short time only, that is whenever the weir discharges.

3. As to the lands that will be submerged at ..L.54.00 and ..L.56.00, I enclose a statement and a Survey plan of such lands, as actually ascertained by a survey, which was carried out in the presence and with the assistance of the Revenue Inspector of Godrom, Venkonda Tolnk, who has, in token of their correctness, countersigned both the statement and plan.

4. From these enclosures it will be seen that the actual areas to be submerged at ..L.54.00 is 6.66 acres, and 10.10 acres at ..L.56.00. The difference between the areas now given and those given in the previous correspondence is reported to be owing to the small scale on which the Revenue village maps are drawn.

5. Under the proposals now put forward by the Durbar the area to be acquired at ..L.54.00 is 6.66 acres, of which only 3.04 are occupied. In addition to this it is said that 3 acres will be required for the weir and weir channel.

I have the honor to be

Sir,

Your most obedient servant

K. S. Erskine

Resident.

Read letter from the Resident in Mysore No 2596 dt 25.5.98 (encs 39367-98).

Note.

The current read above is the reply to letter no 6057 dt 23.11.97 addressed to the Resident in Mysore in which certain proposals were made by this Government with regard to certain lands in Penukonda taluk, Anantapur district, liable to be submerged by the proposed restorations by the Mysore Government of the Bagadur tank in the Pavagada taluk of that state. In the letter quoted, the Resident was informed that the extents of land liable to submersion (1) at weir level and (2) when weir is discharging 2 feet depth of water over it were acres 7.60 and 11.67 respectively not acres 6.75 and 8.6 as reported in the letter from the Mysore Govt dt 11 March 97 No 176/1110.

2. In regard to the question of compensation payable by the Durbar the proposals made by this Govt were:—

(1) that the Durbar should pay for the present the capitalized value of the assessment on Government waste

in Gp. 1743/31-3-97 B

A

lands (3·93 acres) liable to sub-
mersion in any case;
and(2) that as regards the occupied lands

(a) the pattadars had no objection
to the submersion of the lands and
claimed no compensation provided
they were allowed to hold on and
cultivate them when not under
water;

(b) that should any remission
be granted to the pattadars on account
of any of these lands which might
occasionally be submerged, this
Government should be compensated
for the loss of assessment resulting
from the grant of such remission;

and(c) that if any of the lands
be permanently relinquished owing
to damage caused by submersion
compensation should be paid to the
pattadars for loss of property and
to the Govt for loss of assessment
at 30 years' purchase.

3. With the current read above,
the President encloses a statement
and a survey plan of lands that will
be submerged as annually ascertained
by a survey which is stated to have
been

been carried out in the presence and
with the assistance of a Revenue —
Inspector of Pennkonda taluk. The
area shown in the statement as liable
to submersion at R.L. 54·00 is
6·66 acres and at R.L. 56.00 is 10·10
acres. The difference between the
areas now given and those given in
the previous correspondence is —
reported to be due to the small
scale on which the Revenue village
maps are drawn. The Collector may
be asked to verify whether the figures
now furnished are correct.

4. The President states that the
Durbar consider it very desirable
for many reasons to acquire all
the lands lying within the waterspread
of the tank at weir level 54·00 but
that no compensation need in the
opinion be paid for lands that will
be submerged for a very short time
only (that is whenever the weir —
discharges). It seems that the Durbar
desire to acquire not only the —
Government waste fields nos 55 &
58 as proposed by this Government
but also the occupied lands liable
to submersion at R.L. 54.00. See

This Govt never proposed any acquisition.

7

In addition to this it is said that 3
acres will be required for the weir
and weir channel. Information
has to be called for as to the ~~amount~~
amount of compensation to be paid to the
occupants of these lands and the
capitalized value of the assessment
lost to Government.

As regard to lands that will
be temporarily ~~drowned~~ submerged, it may be
~~pointed out~~ intimated to the Resident when replying
to the present letter that no com-
pensation need be paid by the Durbar
for the present but that they should
agree to pay, should any of the
contingencies mentioned in para 2
of letter 7/23-4-97 No 6057 happen.

5. The appended draft is submitted
for approval.

Sec

17/6/98

Lord entrust that
the Imperial State cannot be
allowed to acquire any
land in British India
but they may be allowed
to submerge the land
required on
payment of compensation
as set forth in our letter

17.6.98

A

No 6057 d 23-11-97

We may first verify
the ~~information~~ figures
sent us by the Resident
It does not appear that
the British Rev. Inspectn
had any authority to
represent British
interests at the Survey.

In replying to
the Resident the
answer at x above
may be given. With
regard to temporarily
submerged lands
