Irrigation Accounts of Fasli 1306 (1896-97)

Board's review of the —, with note thereon by the Chief Engineer for Irrigation, communicated to the officers concerned for information.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Irrigation.
Account.

READ—the following papers:—

Proceedings of the Board of Revenue, (Revenue Settlement, Land Records and Agriculture), No. 601, dated 6th September 1897.

Resolution—No. 604, dated 6th September 1897.

The Board resolves to forward to the Examiner of Public Works Accounts a statement showing the financial results of irrigation for fasli 1306 (1896–97) for all the works under Classes I and II. Irrigation under the Periyár project in the Madura, Mélúr and Periyakulam taluks of the Madura district was charged for the first time in the year under review.

2. The following statement compares the actuals of revenue both direct and indirect for 1896–97 due to Productive Public Works (Class I) with the revised estimates for the year and the actuals for 1895–96. The figures are exclusive of the usual 5 per cent. deduction made for collection charges:—

Names of works.	Actuals, 1895–96.	Revised estimate, 1896–97.	Actuals, 1896–97.
	RS.	RS.	RS.
Gódávari anikat	23,48,473	24,32,000	25,66,859
Kistna do.	20,59,705	25,08,000	20,22,771
Cauvery do.	9,04,066	9,10,000	9,02,401
Pennéru do.	1,59,511	1,60,000	1,46,479
Sangam do.	1,82,007	1,82,000	1,79,790
Srívaikuntam anikat	75,566	1,03,000	1,01,549
Barur tank project	8,599	9,000	9,059
Rushikulya do.	35,864	58,000	59,794
Periyár do.	..	35,000	33,773

3. The actuals of 1896–97 show, as compared with the previous year, an increase under the Gódávari and Srívaikuntam anikats and the Barur and Rushikulya projects. The increase under the Gódávari anikat was chiefly under "dry converted into wet", "inams irrigated and charged" and "second crop". The increase would have been greater but for the fact that floods in the Gódávari river caused damage to the crops in several villages in the Narsapur, Amalápuram and Rámachandrapuram taluks and in the Cocanada division, and in consequence large remissions had to be granted amounting to Rs. 2,65,000, against Rs. 1,49,500 in the previous year. The increase under the Srívaikuntam anikat was due to the favourable character of the season as compared with the previous year when large remissions were granted on account of floods. The remissions granted during the year amounted to only Rs. 13,000 against about Rs. 35,000 in the previous year. The increase under the Rushikulya project

was due to the extension of irrigation during the year under review to 109 villages in the Berhampur and 65 villages in the Goomsur taluk. The increase under the Barur tank project was small. The decrease under the Cauvery anikat was due chiefly to the grant of remissions both in the Trichinopoly and Tanjore districts on account of floods in the Cauvery. The decrease under the Pennéru anikat was also due to the grant of remissions, owing to the unfavourable character of the season, amounting to Rs. 13,000, against Rs 4,000 in the previous year. The decrease under Sangam anikat was small and calls for no remark. The decrease in Kistna occurs chiefly under receipts under zamindari and inams and appears to be due to remissions granted during the year which amounted to Rs. 24,106 and Rs. 25,695, respectively, against Rs. 8,626 and Rs. 10,772 in the previous year. The Collector has been requested in Board's Proceedings, No. 6098, dated 4th August 1897, to ascertain and report the reason for the large remissions granted during the year.

4. Compared with the revised estimate, the actuals of 1896–97 exhibit a large decrease under the Kistna and Pennéru anikats and a large increase under the Gódávari anikat. The variations are due to the causes explained in the preceding paragraph.

5. The following statement shows the actuals of indirect revenue for 1895–96 and 1896–97 in comparison with the revised estimate thereof for the latter year:—

Names of works.	Actuals, 1895–96.	Revised estimate, 1896–97.	Actuals, 1896–97.
	RS.	RS.	RS.
Gódávari anikat	1,48,620	1,54,000	1,46,549
Kistna do.	1,46,816	1,90,000	1,40,858
Cauvery do.	1,09,650	1,11,000	1,11,331
Pannéru do.	21,058	21,000	20,523
Sangam do.	22,899	16,000	16,448
Srívaikuntam anikat	1,805	2,000	1,780
Barur tank project	30	..	3
Rushikulya do.	32	150	143
Periyár do.	..	..	419

Memorandum of the Revenue Settlement, Land Records and Agriculture, dated 4th August 1897, Mis. No. 6098.

Compared with the figures for the previous fasli, the financial results of irrigation under the Kistna anikat for fasli 1306 show a decrease of Rs. 41,000 in round numbers. The decrease occurs chiefly under 'receipts,' under 'zemindari' and 'inams' and appears to be due to remissions granted during the year which amounted to Rs. 24,106 and Rs. 25,695, respectively, against Rs. 8,626 and Rs. 10,772 in the previous year. The Collector of Kistna is requested to ascertain and report, at a very early date, the reason for the large remissions granted during the year. The remissions granted in the Government villages amounted to only Rs. 92,873 against Rs. 1,39,507 granted during the previous year.

(Signed) R. V. SRINIVASIAR,
Secretary.

Proceedings of the Board of Revenue (Revenue Settlement, Land Records and Agriculture), Mis. No. 9331, dated 20th November 1897.

Read—the following letter from the Collector of Kistna, dated 10th November 1897, Dis. No. 1811/General:—

Adverting to Board's memorandum, dated the 4th August 1897, Mis. No. 6098, I have the honour to report that the decrease in the irrigation revenue is mainly attributed to the large remissions that had to be granted owing to the loss of crop on account of the unusually heavy Kistna floods of last year.

2. The taluks that suffered most are Tenali, Nuzwid, Bezwada and Bandur and the remissions granted in zemindaris and inams are consequently heavy.

3. The remissions granted in Government villages in these taluks were also heavy, but they are more than counterbalanced by the large remissions granted in the Gudivada taluk in fasli 1305 owing to Budameru floods.

Resolution.—Mis. No. 9331, dated 20th November 1897.

Communicated to the Examiner of Public Works Accounts with reference to the concluding sentence of paragraph 3 of Board's Proceedings, No. 604, dated 6th September 1897.

Secretary.

Read—the following Proceedings of the Board of Revenue (Revenue Settlement, Land Records and Agriculture), No. 133, dated 24th March 1898:—

READ—again the following Proceedings of the Board of Revenue (R.S., L.R. and Agri.), Mis. No. 7547, dated 13th September 1897:—

Read—the following letter from W. HUGHES, Esq., B.A., Chief Engineer for Irrigation, to the Secretary to the Board of Revenue (R.S., L.R. and Agri.), dated Madras, 3rd September 1897, No. 291-M.:—

I have the honour to request that you will be so good as to inform me, at your earliest convenience, when the statements marginally noted may be expected to reach this office, as they are required for the Administration Report of the P.W.D., Irrigation Branch, for 1896-97, now under preparation.

(1) Revenue accounts for 1896-97 of the irrigation works of this Presidency.
(2) Crop statement for 1896-97.
(3) Statement of water-rates in force.
(4) Statement of incidence of water-rates under classes I and II works for 1896-97.

2. If revenue information for classes I and II works are available, it may be furnished in advance.

Resolution—Mis. No. 7547, dated 13th September 1897.

The Chief Engineer for Irrigation will be informed that the irrigation accounts relating to the IV class works are still due from several taluks of the Anantapur, Kurnool and Cuddapah districts and from the Palkonda and Perambalur taluks of the Vizagapatam and Trichinopoly districts and reminders have been sent to the officers concerned. In these circumstances, the Board is unable to say when the consolidated accounts can be forwarded. If the receipt of the accounts from one or more districts is delayed beyond the 1st proximo, the accounts for the remaining districts will be tabulated and forwarded by that date, supplemental statements being sent later on for the districts for which the accounts may then be incomplete. The revenue information for classes I and II works will be forwarded to the Chief Engineer by the end of the next week.

(True Copy and Extract.)

(Signed) R. V. SRINIVASIAR,
Secretary.

To the Chief Engineer for Irrigation.

READ—again the following Proceedings of the Board of Revenue (R.S., L.R. and Agri.), Mis. No. 7882, dated 24th September 1897:—

Resolution—Mis. No. 7882, dated 24th September 1897.

Adverting to its Proceedings, No. 7547, dated 13th instant, the Board resolves to forward to the Chief Engineer for Irrigation the statements noted below, relating to irrigation accounts for fasli 1306:—

(1) Statement showing the total area occupied, the area actually irrigated or charged as irrigated and the revenue derived for fasli 1306 (1896-97) under I, II and III class works in comparison with the previous year.
(2) Abstract statement of the extent of irrigation and the revenue derived from irrigation works, classes I, II and III, for the fasli year 1306 (1896-97).
(3) Statement showing the incidence of water-rate under classes I and II works for fasli 1306 (1896-97).
(4) Statement showing the water-rates per acre which were in force under classes I and II works in the Madras Presidency during the year ending 30th June 1897.

The statistics relating to irrigation under the Kurnool-Cuddapah canal and IV class works have not been embodied in the statements (1) and (2) noted above as the accounts relating to several taluks of Kurnool, Cuddapah and Anantapur districts and the Palkonda taluk of the Vizagapatam district are still due. The statement showing total area actually irrigated by flow or lift under classes I and II works and the value of crops raised thereon during 1896-97 will be forwarded on receipt of further information called for from the Tahsildar of Madura regarding the value of "other crops" raised in the Periyar affected villages of the taluk. The statements relating to the Kurnool-Cuddapah canal (*vide* Appendices III, VII and VIII to B.P., No. 267, dated 8th October 1896) will be forwarded on their receipt from the Collectors concerned to whom reminders have been sent.

(True Copy and Extract.)

(Signed) R. V. SRINIVASIAR,
Secretary.

To the Chief Engineer for Irrigation, with four statements.

Read—letter from Collector of Cuddapah, dated 30th Sept. 1897, Dis. No. 5599-Rev.

Read—letter from Collector of Cuddapah, dated 8th Oct. 1897, Dis. No. 5726-Rev.

Read—letter from Collector of Cuddapah, dated 9th Oct. 1897, Dis. No. 5762-Rev.

Read—letter from Collector of Cuddapah, dated 11th Oct. 1897, Dis. No. 5771-Rev.

Read—the following letter from W. HUGHES, Esq., B.A., Chief Engineer for Irrigation, to the Secretary to the Board of Revenue (R.S., L.R. and Agri.), dated Madras, 10th November 1897, No. 383-M. :—

In acknowledging the receipt of Proceedings of the Board of Revenue, Mis. No. 8628, dated 22nd October 1897, I have the honour to inform you that the delay in the transmission of the statements referred to is seriously delaying the completion of the Administration Report of the Irrigation Branch, P.W.D., for 1896–97, which is due with the Government of India on the 30th instant. I request, therefore, that you will be so good as to arrange to furnish this office with the statements required at an early date.

Read—the following letter from W. HUGHES, Esq., B.A., Chief Engineer for Irrigation, to the Secretary to the Board of Revenue (R.S., L.R. and Agri.), dated Madras, 23rd November 1897, No. 398-M. :—

With reference to Proceedings, Board of Revenue, Mis. No. 8628, dated 22nd October 1897, I have the honour to request that you will be so good as to inform me when the statements referred to in my letter No. 335-M., dated 11th October 1897,

may be expected in this office. From Board's Proceedings, Mis. No. 8962, dated 6th November 1897, it is presumed that the statistics for the Kurnool-Cuddapah canal are now available in the Board's office.

2. This information is needed in view to the despatch of an advance copy of the Irrigation Administration Report which is urgently wanted by the compiler of the Presidency Administration Report.

Resolution—Mis. No. 9508, dated 25th November 1897.

The Board resolves to forward, in continuation of its Proceedings, No. 7882, dated 24th September 1897, the following statements relating to irrigation accounts for fasli 1306 :—

No. I.—Statement showing the total area occupied, the area actually irrigated or charged as irrigated and the revenue derived for fasli 1306 (for class IV works) corresponding to Appendix I of B.P., No. 267, dated 8th October 1896.

No. II.—Abstract statement of the extent of irrigation and revenue derived from irrigation works for fasli 1306 (for the Cuddapah portion of the Kurnool-Cuddapah canal and class IV works) corresponding to Appendix II of B.P., No. 267, dated 8th October 1896.

No. III.—Comparative statement of the area irrigated and the revenue derived under the Kurnool-Cuddapah canal in the Cuddapah district corresponding to Appendix III to B.P., No. 267, dated 8th October 1896.

No. IV.—Statement showing the total area actually irrigated by flow and lift under classes I and II works (except under the Kurnool-Cuddapah canal) and the value of crops raised thereon during 1896–97 corresponding to Appendix IV of B.P., No. 267, dated 8th October 1896.

No. V.—Statement showing the incidence of water-rate under the Cuddapah portion of the Kurnool-Cuddapah canal for fasli 1306 (Appendix V of B.P., No. 267, dated 8th October 1896).

No. VI.—Demand, collection and balance statement relating to the Cuddapah portion of the Kurnool-Cuddapah canal for fasli 1306 corresponding to Appendix VII to B.P., No. 267, dated 8th October 1896.

No. VII.—Statement showing particulars of cultivation, revenue, demand and remission in the Cuddapah district under the Kurnool-Cuddapah canal corresponding to Appendix VIII of B.P., No. 267, dated 8th October 1896.

Statements Nos. I and II are incomplete, in that they do not include statistics relating to the Anantapur district. The information furnished in the statements corresponding to Appendices III, VII and VIII of B.P., No. 267, dated 8th October 1896, relates only to the Cuddapah district, statements relating to the Kurnool district not having been yet received. The statistics furnished in the statement showing the total area actually irrigated by flow or lift under classes I and II works (statement marked No. IV above) are also incomplete, in that they do not include information for Kurnool-Cuddapah canal. Supplemental statements will be forwarded on receipt of complete information from the Collectors of Anantapur and Kurnool.

Read—statement from Acting Collector of Kurnool, dated 25th November 1897, Dis. No. 3565-Genl.

Read—statement from Acting Collector of Kurnool, dated 25th November 1897, Dis. No. 3566-Genl.

Read—statement from Acting Collector of Kurnool, dated 26th November 1897, Dis. No. 3599-Genl.

Read—statement from Acting Collector of Kurnool, dated 30th November 1897, Dis. No. 3619-Genl.

Resolution—Mis. No. 9710, dated 3rd December 1897.

The Board resolves to forward to the Chief Engineer for Irrigation, in continuation of B.P., Mis. No. 9508, dated 25th November 1897, the following statements relating to irrigation accounts for fasli 1306 :—

(1) Abstract statement showing the extent of irrigation and the revenue derived from the Kurnool-Cuddapah canal.

(2) Comparative statement of the area irrigated and the revenue derived in each taluk under the Kurnool-Cuddapah canal for fasli 1305 (1895–96) and fasli 1306 (1896–97).

(3) Statement showing the total area actually irrigated by flow or lift under the Kurnool-Cuddapah Canal and the quantity and the value of the crops raised thereon during 1896–97.

(4) Statement showing the incidence of water-rate under the Kurnool-Cuddapah canal for fasli 1306 (1896–97).

(5) Abstract statement showing the demand, collection and balance under the Kurnool-Cuddapah Canal for the official year 1896–97.

(6) Statement showing the particulars of cultivation, revenue, demand and remission under the Kurnool-Cuddapah canal in the district of Kurnool for fasli 1306.

2. The "demand" entered in the "statement showing the area irrigated, etc., under the Kurnool-Cuddapah canal in the Kurnool district" differs from that entered in the "statement showing the demand, collection and balance" as shown in the margin. The amount shown in the former statement includes Rs. 3,500, being the value of water supplied to the Kurnool municipality. Excluding this amount, there is a difference of Rupees 127–10–3 between the two figures, which the Collector is requested to explain.

	Rs.	A.	P.
As per statement showing area irrigated, etc. ...	1,16,114	3	10
As per demand, collection and balance statement ...	1,12,741	14	1
	3,372	5	9

	Rs.	A.	P.
Assessment on A and B class lands	258	5	8
Penalty	3,584	15	0
Canal water supplied to eight indigo vats	8	12	0
Canal water supplied to tanks.	4,551	15	8
Total ...	8,404	0	4

3. The Collector is also requested to furnish the Board with details for each taluk for the marginally-noted items included in the demand of Rupees 1,16,114–3–10 for the fasli year 1306.

„ the Collector of Kurnool.

READ—again the following Proceedings of the Board of Revenue (R.S., L.R. and Agri.), Mis. No. 10050, dated 18th December 1897 :—

Read—the following letter from E. A. ELWIN, Esq., Acting Collector of Kurnool, to the Secretary to the Commissioner of Revenue Settlement, Land Records and Agriculture, dated 9th December 1897, Dis. No. 3739-Genl. :—

In continuation of this office Disposal No. 3565, dated 25th November 1897, I have the honour to request that Rs. 366–4–11, being the amount of tank storage in Sirvel taluk, be added to the amount of Rs. 1,16,114–3–10 both in A and E returns as that amount is now reported to have not been included.

Read—the following letter from E. A. ELWIN, Esq., Acting Collector of Kurnool, to the Secretary to the Commissioner of Revenue Settlement, Land Records and Agriculture, dated 11th December 1897, Dis. No. 3772-Genl. :—

Adverting to paragraph 2* of B.P., Mis. No. 9710, dated 3rd December 1897, I have the honour to state that the difference of Rs. 127–10–3 is due to the amount of dry remissions granted on A and B class lands in Nandikotkur taluk having been by mistake included in the demand. A revised statement is herewith submitted.

2. The talukwar details called for in paragraph 3 is given below :—

Taluks.	Assessment on A and B class lands.	Penalty.	Canal water supplied to indigo vats.	Canal water supplied to tanks.

* *Vide* this office Dis. No. 3739-Genl., dated 9th December 1897.

Resolution—Mis. No. 10050, dated 18th December 1897.

In consequence of revised figures and additional information furnished by the Collector of Kurnool in his letters read above with reference to paragraphs 2 and 3 of B.P., No. 9710, dated 3rd December 1897, the Board resolves to forward to the Chief Engineer for irrigation the revised statements noted below relating to irrigation accounts for fasli 1306 :—

(1) Abstract statement showing the extent of irrigation and the revenue derived from the Kurnool-Cuddapah canal.

(2) Comparative statement of area irrigated and the revenue derived in each taluk under the Kurnool-Cuddapah canal for fasli 1305 (1895–96) and 1306 (1896–97).

(3) Abstract statement showing the demand, collection and balance under the Kurnool-Cuddapah canal for the official year 1896–97.
(4) Statement showing the particulars of cultivation, revenue, demand and remission under the Kurnool-Cuddapah canal in the district of Kurnool for fasli 1306.

(True Copy and Extract.)

(Signed) R. V. SRINIVASIAR,
Secretary.

To the Chief Engineer for Irrigation, with four statements.

Resolution—No. 133, dated 24th March 1898.

The Board resolves to submit to Government its review of the results of irrigation under the different classes of works I to IV during fasli 1306 (1896–97), with the usual statements. The delay is due to the very late dates at which the returns were received from the Anantapur district. Information in a complete form was received from this district only on the 16th instant. The statements compiled from the returns received from the other districts were forwarded to the Chief Engineer for Irrigation from time to time with the Proceedings read above.

2. The following comparative statement shows the area occupied for irrigation, the area actually irrigated or charged as irrigated and the revenue derived under all classes of works during 1895–96 and 1896–97:—

Items.	Area occupied.		Area actually irrigated or charged as such.		Total land and irrigation revenue.	Share due to irrigation.	Deduct remissions.	Net revenue due to irrigation.

Total.								
1895–96	5,226,546	1,213,311	5,099,846	1,199,733	2,74,82,607	2,12,05,717	7,51,460	2,04,54,257
1896–97	5,259,614	1,139,122	4,899,018	1,096,001	2,76,59,827	2,13,06,146	19,17,320	1,93,88,826
Difference ..	+ 33,068	— 74,189	— 200,828	— 103,732	+ 1,77,220	+ 1,00,429	+ 11,65,860	— 10,65,431

3. Taking all classes of works together, there was an increase compared with 1895–96 of 33,068 acres in the area occupied under first crop, being the net result of an increase of 127,410 acres under classes I and II works and a decrease of 94,342 acres under other classes. Under second crop, there was a decrease of 74,189 acres, being the net result of an increase of 31,335 acres under class I works and a decrease of 105,524 acres under classes II to IV. The area charged as irrigated under first and second crops was less than in the previous year by acres 200,828 and 103,732

respectively. The decrease under both these heads would have been much greater but for an increase of 115,107 acres of first crop and 30,915 acres of second crop under class I works due chiefly to the charge made for the first time during the year for irrigation under the Periyar Project and to an extension of irrigation under the Rushikulya Project to 109 villages in the Berhampur and 65 villages in the Goomsur taluk. The total revenue on irrigated lands amounted to Rs. 276·59 lakhs, of which the share due to irrigation was Rs. 213·06 lakhs or 77 per cent. Deducting 19·17 lakhs remitted during the year against 7·51 lakhs in 1895–96, the net revenue to be credited to the works amounted to Rs. 193·89 against 204·54 lakhs in the previous year.

4. As compared with the previous year (1895–96), there was an increase of Rs. 5,17,067 under class I works, which is the net result of a gross increase of Rs. 5,75,007 * in the revenue due to irrigation under the systems noted in the margin, and a gross decrease of Rs. 57,940 under the Kistna, Cauvery and Pennér anikats. The variations have been explained in paragraph 3 of B.P., No. 604, dated 6th September 1897, except in the case of the Sangam anikat in which the increase was due to the unfavourable character of the season. Under class II works, there was a net decrease of Rs. 30,221 in the revenue due to irrigation which is the net result of a gross decrease of Rs. 53,078† under the marginally-noted systems, and of a gross increase of Rs. 22,857 ‡ under the other works. The bulk of the decrease (Rs. 28,397) occurred under the Palar anikat. Under class III works, there was a decrease of Rs. 47,880, being the net result of an increase of Rs. 2,388 in the Chingleput, South Arcot and Tinnevelly districts and a decrease of Rs. 50,268 in the other districts. The bulk of the decrease (Rs. 47,404) occurred in Vizagapatam, an affected district where remissions amounting to Rs. 45,687 were granted during the year under report against only Rs. 392 in the previous year. Under class IV works, there was a decrease in all the districts except Nellore, Tanjore and Tinnevelly as shown in the margin §. The increase in these three districts amounted to Rs. 96,621. The decrease in the other districts was due to unfavourable season which in Ganjam, Vizagapatam, Cuddapah, Bellary, Anantapur and Kurnool developed into famine.

5. The growth of irrigation revenue under different classes of works during the last six years is exhibited in the subjoined statement. As observed in the reviews for the preceding years, the improvement in the revenue under class I works comprising

the anikat systems is steady and satisfactory. About one-half of the increase as compared with the previous year was under the old systems and the other half was contributed by the Periyar Project :—

Fasli.	Class I.			Class II.			Class III.

No. 164 I.

Note by the Chief Engineer for Irrigation.

The statements showing the irrigation revenue derived from all irrigation works during the fasli year 1306 (1896–97), forwarded by the Board of Revenue), Revenue Settlement, Land Records and Agriculture), and the Board's * review thereon, are submitted to Government.

* Received on the 6th May 1898.

2. In the accompanying statement compiled in this office, the areas irrigated under, the revenue derived from, and the working expenses incurred on, all irrigation works in the Presidency are contrasted with the corresponding figures of the previous year. The total area irrigated was 6·08 millions of acres, the irrigation revenue was Rs. 195·22 lakhs and the working expenses amounted to Rs. 42·38 lakhs, against 6·33 millions of acres, Rs. 205·57 and Rs. 37·91 lakhs, respectively, in the previous year. Compared with the previous year, there was an increase in the area irrigated under, revenue derived from, and working expenses incurred on, Class I works. The areas irrigated under, and the revenue derived from, works under the other classes were less, while the working expenses were more, than in the previous year.

CLASS I—MAJOR (PRODUCTIVE) WORKS.

Systems.

3. *Gódávari Delta System.*—The areas irrigated both under first and second crops in all the three sections of the delta were more than in the previous year, though under first crop there was a decrease under the Cocanada and Samalkot canals in the Eastern section, the Gunnavaram canal in the Central section and the Bank and Narsapur canals in the Western section, while under second crop, there was a decrease under the Main, Gunnavaram and Amalápuram canals in the Central section, and the Gostanadi and Velpur, Ellore, Attili, Venkayya and Wyair and junction canals in the Western section. The increase in the area irrigated, of 56,723 acres and in the revenue derived of Rs. 2,31,951 during the year occurred chiefly under "Dry converted into wet", "Inams irrigated and charged" and "Second crop." The increase would have been greater but for the fact that floods in the Gódávari river caused damage to the crops in several villages in Narsapur, Amalápuram and Ramachendrapuram taluks and in the Cocanada division, and in consequence large remissions had to be granted amounting to Rs. 2,65,120 against Rs. 1,49,523 in the previous year.

4. *Kistna Delta System.*—Except under the Masulipatam and Bantumilli canals in the Eastern section and the Nizampatam, Bank and Commamur canals in the Western section, the areas irrigated under all the canals of this system under first crop were more than in the previous year. Though there was an increase of 1,258 acres in the total area irrigated the revenue derived was Rs. 32,920 less than in the previous year. The decrease occurred chiefly under receipts under zemindari and inams owing to remissions granted during the year, which amounted to Rs. 24,106 and Rs. 25,695, respectively, against Rs. 8,626 and Rs. 10,772 in the previous year. The working expenses exceeded those of the previous year by Rs. 1,27,624, the increase being chiefly due to extensive repairs carried out during the year in restoring damages to works caused by the abnormal floods in the river during August 1896.

5. *Pennér Anicut System.*—Compared with the previous year, there was a decrease of 1,975 acres in the area irrigated under, and of Rs. 13,183 in the revenue derived from, this system, the falling off being due to the unfavourable character of the season. The remissions granted amounted to Rs. 12,653 against Rs. 3,568 in the previous year.

6. *Sangam Anicut System.*—Under this system, there was an improvement in the area irrigated of 2,439 acres and in the revenue derived of Rs. 4,118 during the year.

7. *Kurnool-Cuddapah Canal.*—The area irrigated under this canal was 87,226 acres, or 54,323 acres more than in the previous year, and the revenue derived exceeded that of the preceding year by Rs. 30,810, the increase being the result of a more extensive use of water owing to scanty rainfall. The total net demand of the year, viz., Rs. 1,74,741, exceeded the revenue realised in any previous year except the great famine year. The uncollected balance of the demand at the beginning of the year was Rs. 28,831; at the close of the year, it stood at Rs. 78,652.

8. *Barur Tank System.*—The areas irrigated under both first and second crops amounted to 4,440 acres against 4,229 acres in the previous year. The revenue derived was Rs. 511 more than that obtained in the preceding year.

9. *Cauvery Delta System.*—The areas irrigated under first and second crops were 3,794 and 6,186 acres, respectively, less than in the previous year, and the revenue derived was Rs. 41,77,693 against Rs. 41,89,530 in 1895–96. The decrease of Rs. 11,837 in revenue was partly due to the grant of remissions both in the Tanjore and Trichinopoly districts on account of floods in the Cauvery. The increase in remissions during the year amounted to Rs. 3,332.

10. *Srivaikuntam Anicut System.*—Owing to the favourable character of the season, there was an increase in the area irrigated of 6,185 acres, and in the revenue derived therefrom of Rs. 27,376. The increase of Rs. 47,283 under working expenses during the year was chiefly owing to a heavy expenditure having been incurred in restoring works of the system which were damaged by floods during the year.

11. *Periyár Project.*—This project was brought into operation during the year. The areas irrigated under both first and second crops amounted to 51,323 and 12,428 acres, respectively, while the revenue derived and the working expenses incurred were Rs. 2,66,480 and Rs. 58,227, respectively.

MAJOR (PROTECTIVE) WORK.

12. *Rushikulya Project.*—The area irrigated under this project was extended from 35,917 acres in 1895–96 to 63,327 acres in 1896–97, the increase in revenue resulting from the extension being Rs. 44,571. The failure of the north-east monsoon created an unusual demand for water, and [illegible] the Russellkonda reservoir was the only source available to s[illegible] and Berhampur taluks.

CLASS II WORKS—MINOR WORKS SYSTEM FOR [illegible] ACCOUNTS ARE KEPT.

13. As compared with the previous year, there was [illegible] 10,803 acres in the total ar[illegible] under these systems, and of [illegible],221 in the revenue derived therefrom. There was a decrease in the revenue derived from all the systems, excepting those marginally noted. The bulk of the decrease occurred under the Pálár anicut system under which remissions, amounting to Rs. 22,250, were granted during the year, owing to the unfavourable character of the season, against Rs. 4,174 in the previous year.

Pelandorai anicut system.
Chembrambakam tank system.
Madras Water-supply and Irrigation extension.
Thadapalli channel system.
Arkenkottai channel system.
Cheyaru anicut system.
Shatiatope anicut system.
Vriddhachalam anicut system.
Mehmattur anicut system.
Maradur anicut system.
Nandyar channel.

CLASS III WORKS—MINOR WORKS SYSTEMS FOR WHICH A CONTINUOUS RECORD OF EXPENDITURE IS KEPT.

14. Under this class, there was a falling off in the total area irrigated of 12,890 acres, and in the revenue derived of Rs. 47,880. The largest decrease in the revenue derived occurred in Vizagapatam, an affected district, where Rs. 45,687 were remitted during the year against only Rs. 392 in the previous year.

CLASS IV WORKS—MINOR WORKS PUBLIC WORKS AND REVENUE DEPARTMENTS.

—	Decrease.	
	Area irrigated.	Revenue.
	ACS.	RS.
Ganjám	64,229	1,68,907
Vizagapatam	46,720	1,31,148
Gódávari	46,777	1,44,398
Kistna	13,997	72,189
Cuddapah	58,671	2,83,766
Anantapur	51,336	2,17,813
Bellary	11,932	59,301
Kurnool	17,042	94,102
Chingleput	11,434	27,042
North Arcot	19,817	85,470
South Arcot	18,357	50,263
Trichinopoly	8,362	14,686
Madura	70,867	2,07,914
Coimbatore	758	1,059
Salem	12,989	39,960

15. Under this class, there was a decrease of 426,889 acres in the total area irrigated and of Rs. 15,04,397 in the revenue derived. There was a decrease both in areas irrigated and in the revenue derived in all the districts, except Nellore, Tanjore and Tinnevelly as shown in the margin. The increase in the revenue derived in these three districts amounted to Rs. 96,621. The decrease in the other districts was due to the adverse character of the season which, in the Ganjám, Vizagapatam, Cuddapah, Bellary, Anantapur and Kurnool districts, developed into famine. The remissions granted under this class during the year amounted to Rs. 1,327,530 against Rs. 3,49,885 in the previous year.

(Signed) W. HUGHES,
Chief Engineer for Irrigation.

23rd May 1898.

STATEMENT comparing the areas irrigated under, the revenue derived from, and the working expenses incurred on irrigation works during 1896-97, with those of the previous year.
