APRIL.

Submitting to Government, for approval and publication in the *Fort St. George Gazette*, draft notification under section 4 of the Forest Act for the constitution of the Kulluru east block in the Rayadrug taluk, Bellary district, as a reserved forest.

PROCEEDINGS OF THE BOARD OF REVENUE

(LAND REVENUE).

READ—the following letter from E. A. ELWIN, Esq., Acting Collector of Bellary, to the Secretary to the Commissioners of Land Revenue (through the Conservator of Forests, Northern Circle, Vizagapatam), dated 28th January 1898, G. & B. No. 218 :—

I have the honour to submit herewith a draft notification under section 4 of the Madras Forest Act with a sketch-map for the reservation of the Kulluru east block in the Rayadrug taluk. Though the block is a little less than 1 square mile in extent, it is virtually an extension of the Kulluru west block, the Chinna Hagari river alone separating the two blocks.

2. The usual statement of area and condition and the required certificate from the District Forest-officer are forwarded herewith.

Endorsement by A. W. PEET, Esq., Conservator of Forests, Northern Circle, dated Camp Adóni, 11th February 1898, R.C. No. 1262.

Forwarded. The proposed reserve is only an extension, as the river is generally dry with a few pools. It is often advisable to command both banks.

Reference on the above, dated 18th March 1898, No. 115.

From the ayakat abstract furnished by the Collector, it would appear that the block is composed of 163 acres of Elangi and 497 acres of Kulluru villages, aggregating an area of 660 acres, which is over 1 square mile; whereas the extent of the reserve, as given in the area statement, is only 560 acres. From the Collector's assertion in the body of his letter that the proposed block is less than 1 square mile, it may be presumed that the entry in the area statement is correct. As, however, the total area of the villages concerned is correct only by taking the figures as they are under column 6 of the ayakat abstract, the matter is doubtful. The Collector is requested to explain the discrepancy at an early date.

Secretary.

READ—again the following letter from E. A. ELWIN, Esq., Acting Collector of Bellary, to the Secretary to the Commissioners of Land Revenue, dated 28th March 1898, Ref. G. & B. No. 218-For. :—

In reply to your Reference on Forest R. No. 428 of 1898, I have the honour to state that the figures furnished in column 6 of the ayakat abstract are incorrect, as they include the full area of survey Nos. 127, 208, 213, 214, 215 and 217 of Kulluru and of survey No. 134 of Elangi instead of portions only of these fields which are embraced by the block. In addition to this it appears that the area of survey No. 126 of Kulluru of about 25 acres in extent, which is entirely out of the block, has also been included in the ayakat abstract. The area thus erroneously included amounts to acres 100 as will be seen from the statement herewith annexed. Deducting this the area of the proposed block, viz., 560 acres, is correct.

2. As all the survey numbers pointed out above are assessed waste lands, the area erroneously shown in column 6 of the original ayakat abstract is now transferred to the column of "assessed wastes" under "balance of wastes" in the revised ayakat abstract also enclosed.
