READ—the following papers:—

Proceedings of the Board of Revenue (Land Revenue), Mis. No. 809, dated 19th March 1898.

Read—the following letter from MAHOMED RAZAKHAN, Esq., Acting Collector of Kurnool, to the Secretary to Government, Public Works Department (through the Secretary to the Commissioners of Land Revenue, Madras), dated 27th February 1898, R.C. No. 536/Genl.:—

I have the honour to forward herewith, duly countersigned, the estimates for Rs. 33,500 for the construction of a first-class taluk cutcherry at Nandikotkur, received from the Superintending Engineer, III Circle, and to request that the same may be sanctioned at an early date.

The Superintending Engineer's letter, No. 6169, dated 23rd February 1898, together with its enclosures, is also submitted for reference. I request also that the draft declaration for the acquisition of 5 acres 83 cents of land in Nandikotkur village for this purpose, submitted along with this office R.C. No. 772/Eng., dated 12th June 1896, may be approved and published in the Fort St. George Gazette.

Resolution—Mis. No. 809, dated 19th March 1898.

The estimate, amounting to Rs. 33,500, for the construction of a first-class taluk cutcherry at Nandikotkur, is submitted for the sanction of Government with reference to G.O., No. 2359, Revenue, dated 16th June 1896.

2. With reference to clause (f), paragraph 4 of Board's Proceedings, No. 232, dated 26th June 1896, the Collector should have submitted the estimate direct to Government in the Public Works Department.

(True Extract.)

(Signed) R. C. C. CARR,
Secretary.

From Lieut.-Col. W. L. C. BADDELEY, R.E., Superintending Engineer, III Circle, to the Chief Engineer, Public Works Department, dated Bellary, 16th July 1898, No. 1353 W.

In reference to your No. 2502 C. of 13th May 1898, I have the honour to re-submit the estimate for a taluk office at Nandikotkur with four estimates for walls. Personally I think wire fencing preferable, but if a wall is to be built, I recommend stone in mud with tiled coping.

I enclose copy of letter, No. 1437, dated 11th July 1898, from the Executive Engineer, Kurnool, and beg to support the proposals made in paragraphs 4 and 5. As regards the suggested method of laying Mangalore tiles, which is new to me, I think it is well worth a trial, for the great objection to this class of roofing is the difficulty of securing the tiles from being blown off.

Note by the Chief Engineer, Public Works Department.

The estimate is recommended for the sanction of Government with the alterations and additions noted below, which raise the total of the estimate from Rs. 33,500 to Rs. 36,606.

2. Stone slab flooring to be substituted where asphalt has been allowed.
3. A stone in mud compound wall, with tiled coping, to be built in place of a wire fence.
4. A well to be provided, and rolled steel beams 13" x 5", weighing 44 lb. per foot run, to be used instead of teak beams.

(Signed) W. B. DEWINTON,
Chief Engineer.

9th August 1898.

ORDER—No. 2415 W., dated 19th September 1898.

The estimate, amounting to Rs. 36,606, as altered by the Chief Engineer, Public Works Department, for constructing a first-class taluk office at Nandikotkur in the Kurnool district, is sanctioned.

2. Attention is drawn to the Chief Engineer's note read above.
3. The Superintending Engineer will report the amount that can be spent on the work during the current official year.
4. The sanction accorded in paragraph 1 has been registered as Provincial No. 64 W. of 1898-99, and classified as Civil Buildings—Original Works.
