## Proceedings of the Board of Revenue

(Revenue Settlement, Land Records and Agriculture),

Dated 27<sup>th</sup> September 1898.  
No. 5797 Misc.

READ the following letter from A.W.B. Higgins Esquire, Collector of Tinnevely, Ref. on Cur. No: 627/Gen. Rev. dated 29<sup>th</sup> August 1898:

Survey No: 945 of Naranapuram village in Sankaranainarkoil taluk is a large block of land containing 92 subdivisions measuring 590 acres 34 Cents in all. Out of these 92 subdivisions, 54 measuring 51 acres 56 Cents are held on patta, and the remainder are assessed waste, and poramboke, partly traversed by Odais. The field adjoins a reserved forest and contains a dense growth of teak and other valuable trees. It is therefore proposed to constitute the unoccupied portion of the survey field as a reserved forest and for that purpose it is necessary to localise and demarcate the sub-divisions which are held on patta. The position of some of these subdivisions according to enjoyment varies from the direction given in the Settlement Register. There are no records of subdivisions made at Settlement, and it is difficult to identify the occupied patta lands and Government assessed waste and poramboke.

2. The Tahsildar of Sankaranainarkoil has been appointed Survey Officer under Section 25 of Madras Act IV of 1857

to

to settle the dispute, and I have also arranged for the Revenue Inspector of Vasudevanallur being placed on special duty for one month for surveying the land, his ordinary work being done by the Revenue Inspector of an adjoining Firka. A small temporary establishment i.e. a karnam and six coolies at 4 annas each per diem, is required for a month in addition to the ordinary village establishment for taking chain measurements and for clearing the forest &c.

5. I have the honor to request that the Board will be pleased to sanction at a very early date an expenditure of Rs 60/- on account of the above temporary establishment and miscellaneous expenditure such as flags, axes, knives &c. A portion of the cost will eventually be recovered from the holders of patta lands.

Resolution.

Survey No: 945 measuring 390 acres 54 Cents in Maranapuram village, Sankaranarainakoil taluk, Tinnevely District, consists of 92 sub-divisions of which 54 measuring 51 acres 56 cents are patta lands while the remainder are assessed waste and poramboke. As this field adjoins a reserved forest and contains a dense growth of teak and other valuable trees, the Collector proposes to constitute the unoccupied portion thereof into a reserved forest. But it is stated that the position of some of the sub-divisions according to actual occupation varies from the direction given in the Settlement Register that there are no records of sub-divisions made at the Settlement, and that it is difficult to distinguish the patta lands from the Government waste and poramboke lands. The Collector has accordingly appointed the Tahsildar of Sankaranarainakoil as a survey officer under Section 80 of Madras Act IV. of 1897 and has also placed the Revenue Inspector of Vasudevanallur on special duty for one month for the purpose of surveying the land. The collector now states that a small temporary establishment consisting of a karnam and six coolies at 4 annas each per diem is required for one month in addition to the village establishment for taking chain measurements

for an expenditure of Rs 60/- on account of the establishment proposed and other miscellaneous items such as the purchase of flags, axes, knives &c. A portion of the cost will eventually be <sup>recovered</sup> from the pattadars. The Board supports the Collector's proposal.

2. The cost of the establishment and other charges can be met from the savings in the provision of Rs. 2220 made against items 24 and 25 of the Appendix F. to B.P. No: 336 dated 12<sup>th</sup> -

B. October 1897 dealt with in G.O. No: 1039 dated 11<sup>th</sup> December 1897.
