Endorsement from the Local and Municipal Department, No. 144 P., dated 5th September 1898.

Telegram from the Collector of Ganjám, Chatrapur, dated 5th September 1898, No. 521.

Estimate despatched Surgeon-General 23rd July. Proposals for frontier observation sent same date to Government, Local Department. Operations in abeyance pending orders on report. Local Fund budget remodelled according to estimate.

Telegram from the Collector, Salem, dated 6th September 1898.

Your telegram 521. Plague expenditure being incurred against Rupees 8,108 sanctioned by District Board. Shall submit budget soon.

Letter from the Acting Collector of the Coimbatore district, dated 5th September 1898, No. 2644, Revenue.

In reply to your telegram, dated 4th current, received by me to-day, I have the honour to forward herewith copies of the estimates referred to therein for July and August last.

2. On receipt of G.O., No. 514 of 25th May last, I addressed the Municipalities and District Board where grants were required, and they have allotted funds to meet the plague charges hitherto incurred or foreseen.

3. The charges are now wholly met from Local and Municipal Funds. I beg, however, to invite your attention to my remark in the copies of the estimates, according to which one-fourth of the full charges is met from Local Funds, the remaining three-fourths being payable by other District Boards. Only this one-fourth is shown in the estimates. I beg to enquire if I am right in doing so, or whether I should show the whole amount and take credit for the contributions to be paid by other District Boards.

4. The charges on account of the Police Constables detailed for each of the inspection stations at Kollegal, Sivasamudram, Talavadi and Karapaliyam will, I presume with reference to Appendix to G.O., No. 547, Financial, dated 18th June 1898, have to be debited to "20. Police" under "Provincial" and I shall include

provision therefor in my estimate for the current month which is to be submitted shortly. These stations were opened urgently under G.O., No. 897 P., dated 25th August 1898, and in the case of Sivasamudram the step was approved by Government in telegram, dated 27th August 1898. The opening of the others has been reported to the Local and Municipal Department in this office letter Disposal No. 2679, Revenue, dated 31st August 1898.

Letter from the Acting Collector of South Canara, dated Mangalore, 7th September 1898, No. 1165.

With reference to Government telegram No. 521, Financial, dated the 4th instant, I have the honour to state that the annual estimate of plague expenditure in this district for the current official year was submitted to Government in the Local and Municipal Department through the Surgeon-General on 13th July 1898. Copies of the estimate and the covering letter are now submitted as called for.

2. No expenditure has been incurred in this district from Provincial Funds on account of plague till now in the current official year.

3. It has already been stated in the covering letter referred to in paragraph 1 *supra* that steps will be taken for the provision of necessary funds by the Municipality, &c., on receipt of orders approving the Budget Estimate. These orders have not yet been received. The amounts expended from the Municipal and other funds till the end of August last are shown below:—

	Rs.	A.	P.
Municipal Funds	698	9	9
Local Funds	1,338	0	0
Port and Marine Funds	17	6	0
Total ..	2,053	15	9

4. I further beg to state that from the telegram under reply it is not clear whether copies of the monthly statements referred to in paragraph 3 of G.O., No. 514 P., dated the 25th May last, are also to be submitted to Government in the Financial Department direct in future. I therefore request instructions on this point.

Letter from the Acting Collector of Bellary, dated 7th September 1898, No. 309 P.

In continuation of my Treasury Deputy's letter No. 236, Account, dated 5th instant, I have the honour to state that on receipt of G.O., No. 514 P., dated 25th May 1898, I requested the President, District Board, and the Chairman of the Adóni and Bellary Municipal Councils to inform me what provision had been made in their budgets for plague charges, and in what manner they proposed to remodel their budgets so as to provide ample funds.

2. The President, District Board, informed me that no provision was made in his budget, that Rs. 20,700 could, however, be made available for plague expenditure and that a report had been submitted by him to Government in the Local and Municipal Department on the subject in his letter No. 510, dated 7th July 1898. According to the annual estimate submitted to Government with reference to G.O., No. 514 P., dated 25th May 1898, the charges to be incurred by the Local Funds in the current year were estimated at Rs. 1,22,910. Two-thirds of this amount have to be contributed by the other districts of the Presidency with reference to paragraph 3 of G.O., No. 547, Financial, dated 18th June 1898, and the District Board therefore resolved at its meeting held last month that application should be made to Government

for temporary loan of Rs. 22,000 so that the total amount provided for the plague charges may come to Rs. 42,700 which was a little above one-third of the total grant that appeared to be required and which was then considered to be an ample provision for the charges to be incurred. The provision made will, I fear, prove after all insufficient as additional establishment has been since sanctioned in G.O., No. 773 P., dated 8th August 1898, for railway frontier inspection stations and additional establishment and accommodation therefore will probably have to be provided for at these stations with reference to G.O., No. 855 P., dated 19th August 1898. As soon as I have decided on the actual additional requirements at the two stations, I shall once more ask the President of the District Board to remodel his budget.

3. The Chairman of the Municipal Council, Bellary, informed me that in the budget for the current year the Council provided Rs. 3,000 for epidemic charges, but that Government reduced the amount to Rs. 2,380. He stated that the Council found it impossible to re-model the budget so as to provide sufficient funds for plague charges. The Council has, however, at my request since authorized the Chairman to save as much money as is possible by stopping works on roads which can be slightly touched or repaired. It is not yet known what savings the Chairman will be able to effect under this head. The amount required for expenditure in this municipality according to the annual estimate submitted to Government is Rs. 4,428.

4. The Chairman of the Adóni Municipality informed me that Rs. 1,050 had been provided in the budget of the current year for epidemic charges, that an additional amount of Rs. 1,800 could be made available for plague expenditure and that the Council had resolved to apply for an advance of Rs. 9,000 more from Government, should necessity arise for expenditure under this head. According to the annual estimate the amount required in this Municipality is Rs. 9,652 for the current year.

Letter from the Accountant-General to the Government of Madras, dated Fort St. George, 18th September 1898, No. 4349.

With reference to your telegram, dated the 8th instant, regarding plague estimates, I have the honour to state that the Surgeon-General has been consulted, and the estimates revised so as to include charges on account of the recently sanctioned inspection stations at Jalarpet, Hindupur, Guntakal and Pakala. Ten copies of the estimates are forwarded herewith.

2. The gross expenditure actually expected to be incurred in each district has been entered the amounts to be subsequently adjusted against non-frontier districts in accordance with your No. 547, dated 18th June last, will be subsequently communicated. The figures entered against districts where little or no expenditure has been incurred hitherto are mere guess estimates.

3. The reply to your enquiry as to how past Local and Municipal expenditure has been met, I have the honour to state that in Bellary, Kurnool, South Canara, and Malabar Local Boards expenditure has been incurred without regard to budget provision which has been duly noticed and re-appropriation called for.

4. In the case of Municipalities this office has no knowledge of how the charges are being met as the only audit is that performed annually by the outside audit branch. I have however addressed Municipalities on the subject requesting them to state how they are meeting plague expenditure, and if proper provision has been made or not as required by G.O., No. 1985 M., dated 18th November 1896.

5. In the case of the District Boards where expenditure is being incurred, I have addressed a special letter calling on them to explain how they propose meeting their estimated plague expenditure.

A report will be made as soon as the necessary information has been received.

6. With reference to the remark in your telegram regarding Provincial expenditure, I have the honour to say that care will be taken to see that Financial Department sanction is always given and to enquire in what cases Provincial expenditure has been incurred without that sanction being called for.

Letter from the Acting Collector and District Magistrate, North Arcot, dated Camp Tirupati, 19th September 1898, No. 55-P.

With reference to your telegram of the 4th instant, I have the honour to submit herewith copies of the annual estimate and of the monthly estimates submitted for August and September 1898 and to state as follows.

2. On receipt of G.O., No. 514-P., dated 25th May 1898, I requested the President, District Board, and the Chairmen of Municipalities in the district to send extracts from their budgets for the current official year regarding the provision made for plague expenditure and also to send similar extracts from the budgets prepared for future years. From the reports received I found that provision had been made for the current year to the following extent by the several local authorities above-named:—

	Rs.	
District Board	7,620	purely for plague expenditure.
Vellore Municipality	2,000	both for cholera and plague.
Tirupati do.	500	do.
Wallajah do.	420	do.
Gudiyáttam do.	750	do.

The provision seemed to be sufficient and I did not anticipate any expenditure from Provincial funds.

3. Since the beginning of this month matters have changed; Government has ordered the organization of Road Frontier inspection stations and the formation of an ambulance staff. A Railway inspection station has also been opened at Pakala. After ascertaining the amount of expenditure that will have to be incurred monthly on account of the above purposes, I will apply for additional grants, in the estimate to be submitted for the next month. The District Board has applied to Government for permission to revise the District Board budget by allotting a further sum of Rs. 10,000 to plague expenditure from the contribution to Provincial funds for famine expenditure.

Order—No. 883, Financial, dated 13th October 1898.

The foregoing papers relate to the estimates of expenditure on account of plague in the Madras Presidency during the current year 1898–99. The estimates have been consolidated by the Accountant-General in communication with the Surgeon-General. As there was great delay in the submission of the estimates by the latter officer, estimates were procured direct from each district together with details of the plague establishments entertained in each. The consolidated estimates submitted by the Accountant-General provide for the charges necessitated on account of the recently sanctioned Railway inspection stations at Jalarpet, Hindupur, Guntakal and Pakala.

G.O., No. 841 P., dated 18th August 1898.
" " 889 P., " 24th " "
" " 892 P., " 24th " "

2. The Accountant-General has left for future treatment the amounts to be adjusted against each district in accordance with G.O., No. 547, Financial, dated 18th June 1898.

3. The estimates for each district are dealt with *seriatim* below and, as revised in the following paragraphs of this order with reference to existing facts, are set out in detail in Appendix A to these Proceedings. Appendix B shows the approximate distribution of the *Local* expenditure in accordance with the Proceedings quoted in the preceding paragraph, the distribution being based on the receipts as entered in the estimates of 1898-99.

ANANTAPUR.

4. *Provincial.*—The proposed allotment of Rs. 3,120 under 3. Land Revenue includes a sum of Rs. 1,000 for peons of the Salt and Excise department, no details for which have been afforded. The item should be shown separately under 5. and 7. Salt and Excise. It is understood that the peons for inspection stations provided under 20. Police are not police constables, and the allotment for them (Rs. 1,400) will therefore be transferred to *Local*. The two Senior Assistant Surgeons on Rs. 325 each are shown by the Collector as part of the *Local* establishment; the charge is however *Provincial* and has been transferred by the Accountant-General to the proper head.

Local.—The Collector's estimate provides for seven hospital assistants on Rs. 45 each for eight months at a total cost of Rs. 2,520. The existing scale as reported by the Collector consists, however, of six hospital assistants (five on Rs. 25 each and one on Rs. 35). The house-rent and plague allowances for these medical subordinates estimated by the Collector at Rs. 1,120 have been raised by the Accountant-General to Rs. 2,100, but no reasons have been assigned for this. The pay and allowances will be fixed at Rs. 2,920 to provide for the present scale. The provision for matrons and nurses will be raised from Rs. 1,600 to Rs. 3,560 to meet the existing scale. The Collector has proposed an allotment of Rs. 25,884 for subordinate officers at plague camps and inspection stations and this has been raised by the Accountant-General to Rs. 28,194. The existing scale of establishment costs Rs. 790 *per mensem*. The provision will therefore be fixed for the present at Rs. 10,000 inclusive of the sum of Rs. 1,400 transferred from 20. Police—Provincial. The allotment of Rs. 2,136 for ward attendants and servants will be reduced to Rs. 1,000, the probable expenditure according to the existing scale being Rs. 752 only. The Accountant-General has provided Rs. 2,070 for compounders for eight months, but as no subordinates of this class were apparently entertained on the 1st September, a provision of Rs. 500 should suffice. The grant for the construction of huts will, as requested by the Collector, be raised to Rs. 10,000. The approximate portion of *Local* expenditure to be borne by this district as worked out in Appendix B to these Proceedings amounts to Rs. *11,992*.

Municipal.—The only establishment entertained at present under this head is a maistry on Rs. 10 *per mensem*. The provision of Rs. 3,608 made for eight months on account of establishment charges will be reduced to Rs. 2,255.

ARCOT, NORTH.

5. *Provincial.*—In view of the fact that Major F. C. Reeves, I.M.S., now holds charge of the Pakala inspection station, the allotment of Rs. 3,500 under District Surgeons will be raised to Rs. 6,000. No provision has been made for the Assistant Surgeon doing duty at Arkonam station and Rs. 1,920 will be entered on this account. The inclusion by the Collector of this officer on *Local* establishments is incorrect. A provision of Rs. 150 will be made for the temporary clerk for the District Medical and Sanitary Officer and of Rs. 450 under 3. Land Revenue for the temporary plague clerk in the Collector's office.

	Rs.
Salary	850
Plague allowance	150
	1,000
Pay .. .. (Rs. 100) =	1,200
Plague allowance	720
	1,920

Local.—The charge of Rs. 1,920 on account of an Assistant Surgeon should, as stated above, be shown under *Provincial*. The provisions of Rs. 475 under house-rent allowance and of Rs. 1,285 for compounders entered by the Accountant-General should be explained. From the Collector's establishment lists it would appear that no subordinates of the class just mentioned have been entertained. The allotment for ward attendants and servants will be raised from Rs. 700 to Rs. 1,150 to meet the cost of the existing scale of establishment. The approximate portion of *Local* expenditure to be borne by this district as worked out in Appendix B to these Proceedings amounts to Rs. *15,281*.

Municipal.—An allotment of Rs. 2,454 will be entered to meet the cost of establishments according to the present scale.

ARCOT, SOUTH.

6. *Provincial.*—The Collector reports that the pay and allowances of Dr. Beit, Acting District Medical and Sanitary Officer, have under the Accountant-General's orders been debited to plague expenditure under 24-D. Grants for Medical Purposes. This debit is not understood and the Accountant-General will be requested to report further on the point. Dr. Beit has been since transferred to Jalarpet. Meanwhile the provision of Rs. 6,400 for this district will be retained.

Local.—Of the provision of Rs. 4,102, establishment charges account for Rupees 3,728. The cost of the existing scale is only Rs. 20 *per mensem*. The approximate portion of *Local* expenditure to be borne by this district as worked out in Appendix B to these Proceedings amounts to Rs. *16,725*.

Municipal.—Here also an allotment of Rs. 5,452 includes establishment charges calculated at Rs. 4,944, the present scale of establishment costing Rs. 43 *per mensem*.

The provisions under *Local* and *Municipal* will be allowed to stand.

BELLARY.

7. *Provincial.*—The Collector's estimate will be raised by Rs. 1,800 owing to the retention of a second Assistant Surgeon at Hospet. On the other hand, a sum of Rs. 700 will be deducted from the provision under 19-A. Law and Justice, owing to the abolition of the post of Special Sub-Magistrate at Hospet.

G.O., No. 773-P., dated 8th August 1898.

G.O., No. 791-P., dated 12th August 1898.

The provision under 3. Land Revenue will be raised by Rs. 3,500 to meet the cost of the Deputy Collector appointed as a special Plague officer.

G.O., No. 971-P., dated 1st September 1898.

Details for 20. Police under which a provision of Rs. 2,400 exists, should be furnished. It is, however, observed from the establishment list furnished by the Collector that no police had been entertained on the date of submission of the list. The need for so many as three clerks for the additional Medical officer, one on Rs. 35 and two on Rs. 15 each, should be explained.

Local.—The Collector's estimates are placed at Rs. 1,22,910, the charges on account of establishment and allowances amounting to Rs. 74,930. This latter provision requires, however, to be increased by Rs. 1,380 being the cost of two additional nurses and two extra clerks recently entertained. Details should be furnished for the provision of Rs. 39,200 for "Petty construction and repairs." The approximate portion of *Local* expenditure to be borne by this district as worked out in Appendix B to these Proceedings amounts to Rs. *35,144*.

Municipal.—A provision of Rs. 300 will be added to the estimates to meet the charges on account of the hospital assistant shown in the Collector's establishment list. The provision for ward servants appears to be in excess of present requirements.

CANARA, SOUTH.

8. The Collector's estimates have been framed on the supposition that only preventive and precautionary measures are required to be provided for at this stage. They present no special features, but the provision of Rs. 2,500 under *Municipal* will be raised by Rs. 400 to meet the plague allowance of the Apothecary at the Mangalore port and to provide for his employment throughout the year. The approximate portion of *Local* expenditure to be borne by this district as worked out in Appendix B to these Proceedings amounts to Rs. *8,639*.

CHINGLEPUT.

9. *Provincial.*—The Collector estimates for Rs. 150 under 3. Land Revenue, but has furnished no details; these should be supplied.

Under *Local* he has made a provision of Rs. 2,563, of which a sum of Rs. 2,302 appertains to rateable contributions payable in the case of frontier districts proper and others, such as Coimbatore and North Arcot. The data upon which the contributions have been fixed should be explained.

G.O., Mis. No. 632 P., dated 1st July 1898.

The balance represents chiefly the pay of the passport clerk. The approximate portion of *Local* expenditure to be borne by this district as worked out in Appendix B to these Proceedings amounts to Rs. *10,111*.

Under *Municipal*, the allotment is Rs. 950, of which the sum of Rs. 410 is for establishment charges. The provision of Rs. 60 for "Petty construction and repairs" appears to be too low.

COIMBATORE.

10. The Collector has forwarded only monthly statements for July and August, but has not furnished the *annual* * estimate called for in the order quoted in the margin. In framing his estimates he has provided for one-fourth only of the whole cost proposed to be incurred from Local funds for the reason that the remaining three-fourths are payable by other District Boards.† The estimates should, however, provide for the gross expenditure expected to be incurred in the district and take credit for the contributions as subsequently advised by the Accountant-General.

* Paragraph 2 of G.O., No. 514 P., dated 25th May 1898.

† G.O., No. 547, Financial, dated 18th June 1898.

The Collector is correct in his presumption that the charges on account of police constables detailed for road and frontier inspection stations should be debited to 20. Police.

Appendix to G.O., No. 547, Financial, dated 18th June 1898.

The Collector's estimates are as follows:—

	Rs.
Provincial	*Nil.*
Local	1,355
Municipal	900
Total ..	2,255

Under *Provincial* will be provided a sum of Rs. 2,750, the pay and allowances of the Retired Military Assistant Surgeon ‡ (150 + 100 per mensem) wrongly debited by the Collector to *Local*. An allotment of Rs. 450 will be made under 20. Police for the pay and local allowances of constables detailed for cordon duty at inspection stations in accordance with the existing scale of establishment. Under *Local*, the provision will be fixed at Rs. 5,420 being the amount of gross expenditure proposed to be incurred; the funds disallowed from this source on account of the pay and allowances of the Retired Military Assistant Surgeon referred to above being devoted to charges in connection with subordinate establishments now borne on the list and for which no provision has been made in the monthly estimates. The estimates as thus revised stand at—

‡ G.O., No. 261 M., dated 22nd February 1897.

	Rs.
Provincial	3,200
Local	5,420
Municipal	900
	9,520

The approximate portion of *Local* expenditure to be borne by this district as worked out in Appendix B to these Proceedings amounts to Rs. *13,317*.

CUDDAPAH.

11. *Provincial.*—The Collector has entered Rs. 1,000 under 24-D. Grants for Medical Purposes providing for an officer on a consolidated salary of Rs. 150 a month. The allotment will be allowed to stand for the present. The charges in this district

for the period ending 31st August 1898, as reported by the Accountant-General, aggregated Rs. 2,714. This amount apparently represents the pay and allowances of Dr. J. W. G. Myler who has been acting as District Medical and Sanitary Officer. The debit of this charge to the head 24-D. Grants for Medical Purposes is incorrect as the amount is not an extra plague charge. It should be transferred to 24-A. Medical Establishments—District Medical and Sanitary Officers.

G.O., No. 812, Financial, dated 20th September 1898.

Local.—The provision of Rs. 2,500 would appear to be sufficient for the present in view of the fact that the charges incurred by the District Board up to 31st August 1898 amounted to Rs. 4 only and that no establishments had been entertained up to the 1st September 1898. The approximate portion of Local expenditure to be borne by this district as worked out in Appendix B to these proceedings amounts to Rs. 8,*642*.

Municipal.—The estimate is Rs. 1,200, of which the sum of Rs. 340 represents establishment charges. The total cost of the present scale of establishment entertained with effect from 1st April last is Rs. 64 *per mensem*, and the establishment charges at this rate will alone amount to nearly Rs. 800 *per annum*. The provision appears to be insufficient and should be raised.

GANJAM.

12. *Provincial.*—The Collector's estimate (Rs. 5,515) has been raised by the Surgeon-General to Rs. 11,115, the increase of Rs. 5,600 being intended for the entertainment of an additional medical officer. As no charges had been incurred up to 1st September 1898 for Provincial establishments, the allotment will be reduced to Rs. 6,000. The establishment list furnished by the Collector shows three Hospital Assistants under *Provincial*. The charges on account of these officers will fall either on *Local* or on *Municipal* funds according to the area of their duties. Details under 3. Land Revenue and 20. Police should be furnished.

Local.—The Collector's estimate of Rs. 35,053 has been raised by the Surgeon-General to Rs. 39,917, but no details have been given in support of the increase. The Collector's estimate provides for Rs. 15,512 on account of establishment charges, but as no establishments had been entertained up to 1st September 1898, a round sum of Rs. 10,000 should suffice. The approximate portion of Local expenditure to be borne by this district as worked out in Appendix B to these proceedings amounts to Rs. *19,899*.

GODAVARI.

13. *Provincial.*—The Collector's estimate has been reduced by the Accountant-General from Rs. 6,970, chiefly provided for establishments in the Agency tracts, to Rs. 385. In view of the fact that the expenditure up to the 31st August 1898 amounted to Rs. 156 and that the Collector reported on the 24th September 1898 that no Provincial establishments existed, the lower provision will be allowed to remain for the present.

Local and Municipal.—Here likewise the Collector's estimates, placed respectively at Rs. 39,795 and Rs. 32,720, have been reduced by the Accountant-General to Rs. 1,100 and Rs. 3,600, respectively. No expenditure was incurred under *Local* up to the 31st August last, and the existing scale of establishment costs Rs. 35 *per mensem*. The approximate portion of Local expenditure to be borne by this district as worked out in Appendix B to these proceedings amounts to Rs. *23,345*.

An estimate of Rs. 5,000 under *Municipal* should suffice, seeing that the actual expenditure up to 31st August 1898 amounted to Rs. 1,070, that the cost of the existing scale amounts to Rs. 132 *per mensem*, and that the Ellore Municipality has furnished no details.

KISTNA.

14. *Provincial.*—The Collector's estimate of Rs. 7,500 is made up of Rs. 5,870 under *direct*, and Rs. 1,630 under *indirect*, charges on account of medical establishments. The actuals up to the 31st August 1898 amounted to Rs. 4,002 under *direct* charges and in view of the necessity for providing for the pay (Rs. 500) and travelling allowances of the Medical officer at Kondapalli inspection station, the provision under the first head will be raised by Rs. 1,000.

Local.—The provision of Rs. 2,665 should be raised to Rs. 4,000 in consideration of the circumstances that the actuals up to the end of August amounted to Rs. 1,195, that the existing establishments cost Rs. 186 *per mensem* and that the estimates contain no provision for petty construction and repairs. The approximate portion of Local expenditure to be borne by this district as worked out in Appendix B to these proceedings amounts to Rs. *20,335*.

Municipal.—The Collector's estimate (Rs. 1,278) should be raised to Rs. 2,000 since the actuals up to 31st August 1898 amounted to Rs. 874 and the present scale of establishment costs Rs. 56 *per mensem*.

KURNOOL.

15. *Provincial.*—The Collector's estimate accepted by the Surgeon-General amounts to Rs. 16,360. From this a sum of Rs. 1,020 will be eliminated as detailed below:—

	Rs.
Savings owing to the non-entertainment during the first-half year of 16 constables estimated for	670
Exchange compensation allowance not being paid	350
Total ..	1,020

A provision of Rs. 3,400 will be added under 3. Land Revenue on account of the pay and allowances of the Special Deputy Collector posted on plague duty to this district. The estimate will then stand at Rs. 18,740.

G.O., No. 971 P., dated 1st September 1898.

Local.—The estimate is Rs. 50,500, of which Rs. 28,740 represent establishment charges. This should, however, be raised by Rs. 700 so as to provide for the pay and allowances of the nurse and extra hospital assistant recently detailed for duty at Kurnool after making allowance for the non-entertainment of a subordinate officer on Rs. 25 as originally contemplated. The Collector's estimate under *Petty Construction and Repairs* stands at Rs. 16,000 and is second in amount to that of Bellary where a provision of Rs. 39,200 has been entered. The attention of the Plague Commissioner will be drawn to this matter. The approximate portion of Local expenditure to be borne by this district as worked out in Appendix B to these proceedings amounts to Rs. *22,217*.

Municipal.—The estimate is Rs. 5,830, of which establishment charges account for Rs. 2,760. The present establishment which was entertained from the commencement of the year costs Rs. 296 *per mensem* or Rs. 3,550 *per annum*. The estimate should be raised to Rs. 6,600.

MADRAS.

16. The estimates as framed by the Surgeon-General and the Accountant-General amount to Rs. 61,818 and are chargeable to *Municipal* funds. The estimate should be distributed under the several heads included in the detailed account under 24-D. Grants for Medical Purposes—Municipal. The cost of establishment in accordance with the existing scale amounts to Rs. 3,522-8-0 *per mensem* or Rs. 42,270 *per annum* against Rs. 50,526 provided. The expenditure under *Provincial* amounted to Rs. 4,765 for the period ending 31st August 1898. The Accountant-General will be requested to give details of this amount. Meanwhile an allotment of one lakh will be entered provisionally. The Plague Commissioner will be requested to furnish details of all establishments entertained. The charge for additional police sanctioned in G.O., No. 1412, Judicial, dated 9th September 1898, will amount to Rs. 2,500 approximately and will be entered under the proper head.

	Rs.
Salaries and establishment	50,526
Supplies, services and contingencies	11,292

MADURA.

	Rs
3. Land Revenue	9,400
5 and 7. Salt and Excise	560
20. Police	7,350
24. Medical—Medical Establishment	5,360
Total ..	22,670

17. *Provincial.*—The Collector's estimate is placed at Rs. 22,670 as shown in the margin. No details have been furnished in respect of any of these items. No Provincial establishments have so far been entertained.

Local and Municipal.—Here also no details have been furnished for the provisions of Rs. 37,700 and Rs. 22,510, respectively. No local establishments have yet been entertained and the cost of the existing *Municipal* establishments amounts to Rs. 49 *per mensem*. The pay and allowances of a reserve hospital assistant are proposed to be met from Provincial funds, but as this subordinate is on duty in connection with the inspection of passengers at Ammayanáyakkanúr, the charge would seem to fall on *Local*. The approximate portion of Local expenditure to be borne by this district as worked out in Appendix B to these proceedings amounts to Rs. *53,777*.

MALABAR.

18. *Provincial.*—A provision of Rs. 800 has been made by the Collector under 24-A. Medical Establishments to meet the pay and allowances of an apothecary. This sum will be transferred to *Local* which is the correct head for the expenditure to be booked against.

Local.—A lump allotment of Rs. 500 has been entered to meet unforeseen charges, but the actual expenditure up to the end of August last amounted to Rs. 574. The provision should be raised to Rs. 2,000. The approximate portion of Local expenditure to be borne by this district as worked out in Appendix B to these proceedings amounts to Rs. *14,413*.

Municipal.—A provision of Rs. 704 has been made, of which Rs. 504 represent establishment charges. Existing establishments cost Rs. 234 *per mensem*, and the actual expenditure up to the end of August amounted to Rs. 1,102. The provision of Rs. 704 proposed by the Collector should be raised to Rs. 5,000 so as to cover future charges for petty construction and repairs, for which the estimates contain no allotment.

NELLORE.

19. A provision of Rs. 200 has been made under 3. Land Revenue—Provincial, but no estimate has been framed for *Local* charges, whilst Rs. 1,310 have been entered under *Municipal*. Of the latter sum, Rs. 1,100 represent an allotment to meet local charges and contributions to neighbouring districts when required. No such contribution is necessary in the case of municipalities, but the amount will be retained for general expenditure on plague measures. The provision under *Local* should be roughly fixed at Rs. 3,000 for the present. The approximate portion of Local expenditure to be borne by this district as worked out in Appendix B to these proceedings amounts to Rs. *12,356*. The estimating in this district appears to be inadequate.

NILGIRIS.

20. *Provincial.*—The Collector's estimates received on the 8th October 1898 will be accepted. The approximate portion of Local expenditure to be borne by this district as worked out in Appendix B to these proceedings amounts to Rs. *5,465*.

SALEM.

21. *Provincial.*—The Collector has not forwarded an *annual* estimate, but from the copy of the monthly statement for September 1898 which has been received, it would appear that his estimate for the year amounts to Rs. 16,560. The estimates received from the Accountant-General amount to Rs. 6,940, inclusive of the cost of the inspection station at Jalarpet. The Collector's estimate which is later,

includes a sum of Rs. 3,510 for the pay and allowances of three plague supervisors for a period of six months. This amount will be transferred to *Local*, on which head the expenditure will fall. On the other hand, the provision will be raised by Rs. 460 for exchange compensation allowance for two medical officers and the cost of salt peons entertained in addition to those included in the estimate. A provision of Rs. 680 will be made to meet the cost of the disinfecting apparatus supplied to Jalarpet railway inspection station. The Provincial estimate will thus stand at Rs. 15,000.

G.O., No. 698, Financial, dated 15th August 1898.

Local.—The Collector's estimate is placed at Rs. 32,090, while the estimate of the Accountant-General stands at Rs. 12,038. The approximate portion of Local expenditure to be borne by this district, as worked out in Appendix B to these proceedings, amounts to Rs. 19,193. A sum of Rs. 3,800 will be added to the Collector's estimate, being the pay and allowances for three plague supervisors for a period of six and-a-half months.

Municipal.—No details have been given for the provision of Rs. 5,800 made by the Collector which has been placed at Rs. 5,710 in the consolidated estimates received from the Accountant-General. The actuals up to August last amounted to Rs. 215 only and the monthly cost of present establishments is Rs. 253.

TANJORE.

22. *Provincial.*—A provision of Rs. 600 is made to meet the cost of serum and other incidental charges. The estimate will for the present be placed at Rs. 5,000 roughly.

Local.—An allotment of Rs. 3,450 has been entered, of which Rs. 2,270 represent establishment charges, for which no details have been furnished. The present establishment charges amount to Rs. 46 *per mensem* and the actuals up to August last were Rs. 21. The approximate portion of Local expenditure to be borne by this district, as worked out in Appendix B to these proceedings, amounts to Rs. 28,565.

Municipal.—The provision is Rs. 3,270, of which establishment charges account for Rs. 1,995. No details have been furnished. The existing establishment charges amount to Rs. 228 *per mensem* and, as the actuals up to August last aggregated Rs. 1,437, the estimate should be raised to Rs. 4,000.

TINNEVELLY.

23. *Provincial.*—A provision of Rs. 2,275 is made for the Provincial expenditure in the district including the moiety of the pay of the Assistant Surgeon and the nurse on duty at the Tuticorin port. Of this provision a sum of Rs. 10 will, however, be eliminated as the cost of stretchers is a *Local* charge.

G.O., No. 576, Financial, dated 4th July 1898.

G.O., No. 547, Financial, dated 18th June 1898.

Local.—No expenditure was incurred up to the 31st August last and the present scale of establishment costs Rs. 10 *per mensem*. The provision of Rs. 1,035 appears to be sufficient under present circumstances. The approximate portion of Local expenditure to be borne by this district, as worked out in Appendix B to these proceedings, amounts to Rs. 16,354.

Municipal.—The existing establishments cost Rs. 175 *per mensem* and the actuals up to August aggregated Rs. 1,038. The provision in the estimates is Rs. 5,560.

TRICHINOPOLY.

24. *Provincial.*—An allotment of Rs. 12,940 has been made under 24D. Grants for Medical Purposes to cover the pay and allowances of a Commissioned Medical Officer, of an Assistant Surgeon and of four clerks on Rs. 25 each for nine

months of the year. In view, however, of the fact that no expenditure was incurred up to the end of August and that no Provincial establishments have yet been entertained, the estimate will be reduced to Rs. 8,000.

Local.—The estimate (Rs. 9,950) contains provision for establishment charges for only three months of the current year and presents no special features. The approximate portion of Local expenditure to be borne by this district, as worked out in Appendix B to these proceedings, amounts to Rs. 18,542.

Municipal.—A provision of Rs. 8,319 is made, of which the proposed establishment charges amount to Rs. 4,182. The expenditure up to August last amounted to Rs. 1,059 and the existing establishments cost Rs. 187 *per mensem*.

VIZAGAPATAM.

25. *Provincial.*—No estimate has been framed under this head; but a sum of Rs. 2,000 will be provided provisionally to meet charges which may arise before the close of the year.

Local.—A lump provision of Rs. 5,000 has been entered. As the actual expenditure up to the 31st August last was Rs. 123 only, the allotment should suffice. The approximate portion of Local expenditure to be borne by this district, as worked out in Appendix B to these proceedings, amounts to Rs. 16,068.

Municipal.—Of the provision of Rs. 3,430, the sum of Rs. 1,639 represents establishment charges, but seeing that the actual expenditure to the end of August last amounted to Rs. 1,733 and the existing monthly scale of establishment amounts to Rs. 140, the provision may well be raised to Rs. 5,000.

---

26. A sum of Rs. 25,000 has been provided for the Plague Commissioner and his establishment and this has been included in Appendix A against Madras under 24D. Grants for Medical Purposes.

G.O., No. 834, Financial, dated 30th September 1898.

27. The estimates under the various heads, as revised with reference to the foregoing remarks, stand as follows:—

	Rs.
Provincial	2,85,424
Local	3,90,380
Municipal	1,89,336
Total ..	8,65,140

28. Of the estimate under *Provincial*, the following are the Direct and Indirect charges:—

	Rs.
Direct.	
24D. Medical—Grants for Medical Purposes	1,89,410
Indirect.	
3. Land Revenue	21,690
18. General Administration—Secretariat Establishments ..	5,200
19A. Law and Justice	790
20A & C. Police	26,364
24A. Medical Establishments	36,060
5 & 7. Salt and Excise	5,910
Total ..	96,014

29. In the budget estimate for the current year, a provision of ·51 lakh exists under 24D. Grants for Medical Purposes for expenditure in connection with the bubonic plague. An allotment of ·25 lakh for the Plague Commissioner and his establishment has already been sanctioned. The balance which requires to be met under direct charges is 1·13 lakhs. An additional allotment of this amount will be made from savings under 33. Famine Relief.

G.O., No. 834, Financial, dated 30th September 1898.

30. In regard to the indirect charges (·26) under 20. Police, a sum of ·06 has already been allotted for Plague establishments and ·03 for general purposes from the allotment of ·26 lakh for the Railway Police Scheme in the budget estimate for the current year. The balance of this amount, together with a sum of ·03 re-appropriated from savings under 33. Famine Relief, will be devoted to meeting the Indirect Police Charges.

G.O., No. 904, Financial, dated 17th August 1898.

31. As to the other indirect Provincial heads, the Surgeon-General will be requested to report whether any and, if so, what additional allotment is required under 24A. Medical Establishments and orders will issue in the Revenue Department with reference to the heads 3. Land Revenue and 5 & 7. Salt and Excise. An additional allotment of ·05 has already been sanctioned to meet the indirect expenditure under 18H. General Administration.

G.O., No. 842, Financial, dated 1st October 1898.

32. Orders will issue in the Local and Municipal Department to ascertain how far local bodies can provide funds to the extent indicated in paragraph 27 *supra* and in the Marine Department as to the provision under Port Funds.

33. The estimates of plague expenditure, as now revised, are from the nature of the case approximate only. Collectors will be requested to state, when forwarding future monthly estimates to the Plague Commissioner, how far the provisions now made are likely to require alteration.
