VIZIANAGRAM,

2nd October 1898.

Enclosures

From

H. F. W. GILLMAN Esqr.

Ag. Collector & Guardian

Vizianagram Zemindary

To

The Hon'ble Mr. G. S. Forbes

Revenue Secretary to the Governm

Fort St. George, Madras

Sir,

With reference to para 2 of G. O. No 3322 Mis: dated 11th August 1898 I have the honor to enclose copies of the correspondence that has subsequently passed between the Superintendent of Survey and myself regarding the Survey of this zamindari.

my letter No 635 d/- 5th Sep 98.

Survey Superintendent's reply No 2837 M of 23 Sep 98.

2. You will observe that during the ensuing six months, i.e. until the close of the official year, it is proposed to carry out the theodolite survey of village boundaries in seven of the Zamindari tanahs, and also to survey experimentally one or two villages in order the better to be enabled to prepare the detailed estimate of the cadastral Survey. Mr Greene estimates the cost of the six months' working at Rs 10000/- plus cost of stones and

and I am ready to place the amount at his disposal. I shall also easily be able to meet the anticipated yearly cost of the survey until its completion.

3. I apprehend considerable difficulty in carrying out even the simple work that has been set down for the next six months, and am sure that there will be disputes as to boundaries in almost every village. I expect, however, to be able to settle many of these without the assistance of a survey officer; but some will be beyond my powers, such as where villages border those of other estates or inam villages or lands.

4. If, therefore, Government is of opinion that it is competent to notify a survey of the Estate on my application under section 17(a) of the Madras Survey and Boundaries Act (IV of 1897) I beg that it will be pleased to do so, and appoint a survey officer under section 4 (1) to settle disputes that may arise and sanction the superintendent's present proposals. I may mention that through oversight the minor Rajah has not yet been registered as proprietor of the whole estate in the District Collector's office. I am taking immediate steps to remedy the technical flaw in his title.

5. The other course open is that without such a notification, I should with the approval of Government commence the survey on my own initiative and ask the Superintendent of Survey to organize the subordinate staff enumerated by him and direct them to commence work without delay. Of course, it will not be possible to carry out the whole survey satisfactorily in an unofficial manner and a Government notification under the Act will have to issue before the interior survey of villages is commenced.

6. What I beg to impress upon Government is the great advisability of carrying out the survey of this zamindary with the least possible delay, and to this end, of utilizing to the full the present working season. If owing to a defect in the Act or in my power to apply for a survey under it, Government is of opinion that some time must elapse before the survey can be commenced in the regular manner, I earnestly request that I may be permitted to commence it at once in the second manner proposed, on the understanding that disputes which cannot be settled amicably

will be postponed till after the issue of the Government notification and that the Superintendent of Survey may be instructed to detail the Establishment proposed by him for the work that has to be done.

I have the honor to be
Sir,
Your most obedient servant

No 635

Vizianagram

5th September 1898

To,

G. P Greene Esqure,

Assistant Suptt of Survey. Madras.

Madras

Sir,

Having had the advantage of a conversation with you at Madras, I now write with a view to arranging preliminaries of the Survey of the Vizianagram Zamindari which according to para 2 of G O No 3322 Mis dated 11th August 1898 are to be arranged between us.

(2) I enclose a portion of Atlas sheet no 108 which contains that portion of the Zamindari on which I desire to commence survey operations. The following Tamabo marked therein require first attention.

Chodavaram.	Bonangi
Alamanda	Gajapatinagram
Lakkavarapukota	Vizianagram
Bheemasinghy	

The greater portion of the Land in these Tamabo is under wet cultivation. I enclose also a list of the villages in each Tamabo.

(3) What I propose, if you can find the establishment is that the Meadolite Survey of the village boundaries in these Tamabo should be commenced next month and

J.

if possible completed in the six months that will have still
to elapse before the official year closes. It will be well
also to complete the Survey of two typical villages (wet and dry)
so that we may get a line as to the difficulties that
will be probably experienced, the most suitable areas for
survey field work and dry we I shall say a reliable
upper subordinate of your Department would be competent
to supervise this work in which mathematical accuracy
alone is required.

(4) From the 1st April 1899 (or a some date if practicable)
the internal Survey of the villages should commence. In
view of the numerous disputes that are likely to arise and
the importance of the issues involved, it will be absolutely
necessary to have an experienced Gazetted officer in charge
of the work. I should like to have the services of Mr. Abbott,
who is now the Survey Officer in charge of the Sathon
Division. I doubt, though if he would be able to attend
both to the Vizagapatam Survey and his Government work
properly and am quite willing that he should be put
on special duty.

(5) I hope it will be found possible to collect an
establishment sufficient to complete the whole, or, at
any rate the greater portion, of the Survey of the
State cultivated lands (about 2000 sqr miles) in the

next,

next two years. Please let me know what such an establish-
-ment would probably cost per annum.

(6) In reference to the preliminary work to be done
before 1st April, I shall be glad to know the establishment
that you propose to entertain, and its probable cost for the
six months. Please also offer your suggestions as to the
steps to be taken for the supply of Survey stones,
form in which tenders should be called for, size,
probable price, and probable quantity of stones,
number of depôts that will probably be required
&c &c

(7) I shall be obliged if you will return the
Atlas sheet when no longer required.

I have &c

From

C. P. Freeme Esqre
Offg Superintendent, Madras
Survey

To

H. W. Gillman Esqre I.C.S
Offg Collector and Guardian
Vizagapatam

Reference your letter No 635 dated 5th
September 1898 requesting to be furnished
with an Estimate of cost and other particulars in connection with the Survey of
the Vizagapatam Zamindari.

Sir

I have the honor to state that,
to run a grain Theodolite Traverse for the
boundary of each Tannah and a minor
Theodolite traverse for the boundary of
each village, I estimate (See statement A)
that, for the 7 Tannahs referred to in your
letter and the villages they comprise, 1300/—
linear miles of traverse Survey will have
to be completed.

2. If Theodolite Surveyor should be
able

able to complete 40 linear miles per annum.
So about 6 theodolite Surveyors will com-
plete the full mileage in six months.

2. In my Estimate B attached, I have estimated
for 8 Theodolite Surveyors and a similar
number of Station Markers (Field
Surveyors) the two additional theodolite
and Field Surveyors to take the place
of those sick, absentee. No further
remarks on the Estimate appear necessary
as you, of course, know that Computors,
Draftsmen and Chainmen are essential.

3. If you will arrange to supply
the funds (Rs 10000) I will arrange to start
the work at once.

I have already selected a
Competent upper Subordinate to take
charge of the work and do not anticipate
much difficulty in getting together the
full Establishment required.

4. The Sick Assistant, who is
put in charge of the Theodolite Survey, may
be directed to make an Experimental
survey of the two villages as suggested. We
should be able to pay for this Survey out
of savings from the Theodolite Survey
Estimate.

Your

5. You ask what the probable cost
per annum of an Establishment sufficient
to complete 2000 Square miles in two years
would be. Rupees 150 per Square mile may be
taken as a liberal Estimate or Rupees 150000
for 1000 Square miles. I am however of opinion
that it is over sanguine to expect more than
500 Square miles a year as it is no easy
matter to get together a sufficiently large
and Competent Establishment to complete
even that area.

6. If the Theodolite Survey is to be
started, tenders for the supply of theodolite
Station Stones should be called for at once.
I attach a form of Contract for the supply
of Stones now in use by the Madras Revenue
Survey. This gives two classes of Station
Stones, Boundary and Division, but, as it
is proposed to have theodolite stations on
village boundaries alone, I would suggest
that only 1st class stones i.e. boundary
Station Stones be tendered for and used. The
usual Cost of a theodolite station stone,
3 feet x 9" x 9" is from Rs 6 to 8 annas but this
Cost, of course, varies according to the locality.
About 8 Stones will be required for each
linear mile or 10400 Stones for 1300 miles.

Your

their cost should be added to Estimate

A. Stone Depôts should, if possible, be so selected that no stone will have to be carted for more than 60 miles

7. I would suggest that the detailed Estimate for the Cadastral Survey of the Zamindary be allowed to stand over until the experimental Survey of one or two villages has been completed.

I have &c

(Sd) G. P. Greene.

1. For the purposes of the Native Lands and Property Act 1909 of 1937 Proprietor is defined as "any person who is entitled for the time being to be entered in the Office of the Collector of the district wherein the estate is situated". Under Section 27 clause (e) of the Act, the Local Government may, by notification, direct the owner of any estate to be appointed by writing for the purposes of such estate.

2. It is clear that a Minor can be deemed to be owner of Section 6 of Native Act 19 of 1937, and it is equally clear that the name of such an estate is registered in the Office of the Collector, could, in the case mutatis mutandis with Clause (e) of Section 27 of the Act of 1909 for an order directing the Curator of the Estate, Mr. H. F. W. Gillman is the Guardian of the Minor Ward appointed under the Guardian and Wards Act, 1890, and the Court can for appointing in writing the Curator of the Estate under Clause (e) of Section 27 of the Act of 1937 on the written application of the Guardian.

3. [Section 27 of the Guardians and Wards Act 1890 empowers the Guardian of a Ward to do all acts which are reasonable and proper for the realization, protection or benefit of the property. There can be no question that the survey of the estate in question would be for the protection and benefit of the property; but it seems to me that the general words contained in the Guardians do not constitute him the "proprietor" of the estate for the purpose of enabling him to apply under Section 27 Clause (e) of Act 19 of 1937.] The definition of the definition of "proprietor" in Act 19 of 1937 is unfortunately, but in the law stands, it is not that the Government can direct the survey of the estate in question under Clause (e) of section 27.

4. There seems no reason why the owner should not be directed under Clause (d) of the Section to survey the property, or why the Court should not be empowered to direct the survey of the property by the Curator of the Estate.

No.

From the Collector of the Vizianagram Zamindari

No 1—Survey Dated 2—10—98 (C no 6894) —189—.

~~FOR ORDERS.~~

To Secy

The Collr of the Vizianagram Zamindari proposed that the Zamindari should be surveyed and that he should be allowed to settle details with the Supt, Madras Survey. These proposals were approved in G.O. no 3322 dated 11—8—98.

2. The Collector proposes——

(i) that a theodolite Survey of the village boundaries in seven Taluks should be commenced at once and finished by the end of the Current official year;

(ii) that the internal Survey of the villages should commence on 1—4—99 and be finished in two years.

3. The Supt, Madras Survey, has selected a Competent upper Subordinate to take charge of the theodolite Survey and hopes to be able to get together an establishment consisting of eight theodolite Surveyors, 80 main field Surveyors and the usual Complement of Computers, draftsmen and Chainmen.

Current, page 1.

Ibid, pages 2 & 3

Ibid, page 4

FOR ORDERS.

Estimates the probable Cost at Rs 10,000 exclusive of the Cost of the demarcation stones.

The Supt would leave the detailed estimate for the cadastral Survey for discussion after Surveying two villages experimentally. Curent, page 8 ante

4. The Collr requests Sanction to the immediate commencement of the Theodolite Survey, and suggests —

(i) the notification of the Survey under S 17(a) of Act IV of 1897;

(ii) the appointment of a Survey Officer under S 4(1) of the Act. Ibid, page 10 ante

These proposals may, it is thought, be approved.

Under S. 17 of Act IV of 1897, the Local Govt may direct the Survey of any estate "on the written application in writing of the proprietor ... accompanied by a written statement of his consent to defray the whole Cost of the Survey". The proprietor being a minor in the present case, the Collr, who is also the guardian of the Minor's property, may make the application. Under S. 27 of the Guardians and Wards Act (VIII of 1890) "he may do all acts which are reasonable and proper for the ... benefit of the property," and it is submitted that the guardian is one of these acts. Where the guardian has not submitted the statement of his consent to defray the cost of the Survey, but in para 2 of Ibid, page 10 ante I am ready to place the

"amount (Rs 10,000) at his (the Supt's) "disposal. I shall also be able to meet the "anticipated yearly cost of the Survey until "its Completion". May this be regarded as equivalent to the written statement prescribed by S. 17(a) of the Act? If not, may the Collr be asked by telegram to forward the statement?

6. The Supt, Madras Survey, has to be asked to nominate a person to be appointed Survey officer under S 4(1) of the Act.

KG
13/10/98

Ask the Act Sec. to advise on the legal questions involved at A — whether an application in writing by the proprietor under Sec 17(a) of the Survey Act is sufficiently satisfied by the written application of the Madras Govt. under the Guardians & Wards Act with reference to Sec 27 thereof.

As to B above ask the Mad Govt for a formal written application

SR 13/10/98

To Secy

Please see draft to below.

KR
13/10/98

Read again O.Ms. nos 245 and 246 dated 14-10-98.

From the Collr of the Vizianagram Zamindari no 1 Sur

dated 22-10-98 (C no 7816)

" Supt, Madras Survey, no 132/9 dated 5-11-98 (C no 7809)

" Govt Solicitor Advocate-General no 527 dated 14-11-98 (C no 7814).

To Secy

Attention is solicited to para 4 of the office note on page 2.

2. The Collector of Vizianagram Zamindari has requested sanction to the immediate commencement of the theodolite survey of village boundaries, and suggested

(i) the notification of the Survey under Sec. 17(a) of M. Act IV of 1897;

(ii) the appointment of Survey officers under Sec 4(3)

of the same Act.

3. As to the notification of the survey, might be notified by Govt on the Collector's application as the guardian of the proprietor, the Advocate-General was consulted, and his opinion is that the definition of proprietor in M. Act IV of 1897 is unfortunately narrow, and that the general powers conferred on the Collector and guardian by the Guardians and Wards Act (VIII of 1890) do not constitute him the 'proprietor' for the present purpose. The definition of 'proprietor' in Sec. 3 (iii) of M. Act IV of 1897 substantially agrees with that in Sec. 4 of Mn. Act II of 1894 (The Madras Proprietary Estates Village Service Act). In G.O. No. 604 of 22.10.98, it has been decided to amend the definition of 'proprietor' in the latter Act and it is submitted that the opportunity may be taken to amend the definition in M. Act IV of 1897 also. If

(C no. 7814)

of the word

redraft of the Bill ~~or~~ ~~for~~ ~~for~~ ~~remarks~~, and an order to the Board enacting its very early remarks on it ~~is~~ are put up for approval.

4. The Advocate General suggests that action may be taken under Sec. 17(b) of Act M of 1897, or pending a notification under the Act, the Collector may start the survey on his own initiative. In the former case under the proviso to Sec. 19 of the Act, the cost should be borne by Govt. The difficulty may be obviated by following the procedure indicated in the latter half of para 2 of G.O. No 652 dt 7.11.98. This procedure is for the Govt to notify a resurvey under Sec. 17(b) of the Act, and to obtain a separate agreement from the Collector of Vizagapatam to pay the whole cost of the Survey. Then in this case, however, the cost can not afterwards be recovered from the tenants under Sec. 20 of the Act.

This might be done, I think, but I would prefer to ~~leave~~ ~~it~~ as it is.

page 3 of GO. 6894 para 5

5. Pending the amendment of the Act, and the issue of a notification under Sec. 17(a), the Collector may, it is thought, start the theodolite survey. He feared, however, that it would not be possible to carry out the whole survey satisfactorily on an unofficial manner. Until the Act is amended action may be taken under Chapter IV of Act M of 1897 for the settlement of disputes. No notification by Govt being necessary for proceedings under this chapter, the District Collector will endeavour of his own motion to settle disputes, if any arise.

6. Please see draft below.

KD
23/11/98

I think we might pass this Bill if not at one sitting, certainly at two. As it is a Bill urgently wanted to correct an omission it involves no new principle.

and under para 5 clauses (1)(2)(3) & (4) of the Enclosure to India's Legislature Letter of 6/10/98 we may introduce the Bill & proceed with it without waiting for the S. of State's previous sanction.

If H.E. agrees the Bill may be put down for next Council & at any rate introduced & if no opposition is apprehended passed at the same sitting with the exception of the Standing Orders. The Bill cd. meanwhile be published in the Gazette.

(Draft Bill is attached)

28/11/98

I see no objection to the above suggestion — As regards sales under management of the Court of Wards, I shd think it desirable that the District Collr. as agent of the Court shd. be deemed to be the Proprietor

28-11-98

Gen 1072 d 5/11/98

I also see no objection to the suggestion. I would only however, with reference to the observations in Mr. Macnaghten's Note (Madras "Dist. Collectors" or "Managers" would fit in best with the general language of the Courts of Wards Regulations,

To Secretary

The draft Bill to amend sections IV of (1876) (the Proprietary Estates Village Service Act) and sect IV of (1897) (the Survey and Boundaries Act) having been referred to the Advocate General for opinion (vide G.O. No. 1476 dt. 5-12-98) may the draft below authorizing the Theodolite Survey of the Vizianagram Zamin date more recent?

It is presumed that the Board will be consulted on receipt of the Advocate General's opinion.

Issue the Draft A

Order

In connection with a proposal for the survey of the Vayanapraw gamendarei under Sec. 17(a) of Act IV of 1897 (Madras), it has been pointed out that the definition of 'proprietor' in Section 3 (viii) of the Act precludes the publication of a notification on the application of the guardian appointed under the Guardians and Wards Act (VIII of 1890). H.E. the G. in Council considers that the opportunity afforded by the proposed amendment of Act II of 1894 should be taken to remove this defect. A redraft of the Bill appended to G.O. No 604 of 22.10.98 is forwarded to the Board of Revenue with the request that it will

favour the Govt with ch remarks thereon as early as practicable.
