Resolution—Forest Mis. No. 535, dated 9th June 1897.

Most of the fields comprised within the Loddipalli proposed reserve are found on verification with the settlement registers of the Loddipalli and Uyalavada villages, to be lands, which were held on patta at the time of Revenue settlement. In the absence of any information as to how these fields came to be included within the proposed reserve, and as to whether the pattadars are willing to exchange them for lands outside the reserve, the Board is not in a position to recommend the proposals to Government. The Collector is requested to furnish the necessary information at an early date.

In returning herewith the enclosures to Board's Proceedings, Forest Mis. No. 535, dated 9th June 1897, I have the honour to state that very few of the lands included in the proposed Loddipalli reserve are now held on patta. The settlement register referred to by the Board is nearly thirty years old, for the greater portion of which period the lands have been waste.

To facilitate reference the lands now held on patta have been coloured blue in the enclosed map; their number is not greater than may be expected in any part of the Yerramalais where small patches of good soil lie here and there among stony hills.

2. It is intended to leave all *bona fide* patta lands as enclosures within the reserve.
