The following rights of way are admitted within the reserve:—

- I. Path way from *Kirmanjeshwar to Tellur*, to a width of four feet for men and cattle, enters the reserve fifty-five yards north of cairn No. 1 and running four miles first north-east and then in a generally easterly direction quits it seventy yards south of cairn No. E-10 of Heriberane darkhast; crossing that enclosure from west to east it re-enters the reserve seventy yards south of cairn No. E-9 and running in a curve, general direction east, for about one and-a-half miles leaves it one hundred and ten yards south-east of cairn No. 5-A of Beteane darkhast. Traversing that enclosure it emerges therefrom seventy yards north-west of cairn No. 2-A and taking first a north-easterly and then a northerly course for about a mile finally quits the reserve eighty yards west of cairn No. 104, entering the Kerimule garden.
- II. Pathway from *Ullur to Yerakone*, to a width of four feet for men and cattle, enters the reserve one hundred and ten yards north of cairn No. 161 and running east for nine hundred yards joins pathway No. I following which for four hundred and forty yards it branches and quits the reserve after a north-westerly course of three hundred and thirty yards, fifty yards north of cairn No. 157.
- III. Pathway from *Herur to Yerakone*, to a width of four feet for men and cattle, enters the reserve fifty yards north-west of cairn No. 11 and passing north-east for four hundred and forty yards joins pathway No. I following which for some distance it branches at a point three hundred and thirty yards south-south-east of cairn No. 147 and going in a curve general direction north for about six hundred and sixty yards quits the reserve one hundred yards north-north-west of cairn No. 146.
- IV. Pathway from *Kinji to Alugadde*, to a width of four feet for men and cattle, enters the reserve one hundred and ten yards north-east of cairn No. 20 and traversing it for a distance of about eight hundred and sixty yards quits it two hundred yards south-west of cairn No. 148 crossing in its course pathway No. I at a point about two hundred and eighty yards south of cairn No. 148.
- V. *Mannumane-Kalmatta* foot-path, four feet wide for men and cattle, enters the reserve fifty yards south-south-east of cairn No. 55 and running west for one hundred and ninety yards quits it seventy yards north-west of cairn No. 51. It re-enters the reserve fifty yards north of cairn No. 38 and running in a slight curve general direction west, quits it close to north-west of cairn No. 37 after a distance of six hundred and sixty yards.

1897

PROCEEDINGS OF THE BOARD OF REVENUE (LAND REVENUE).

READ—the following letter from H. S. MULLINS, Esq., Special Forest Settlement-officer, Malabar and South Canara districts, to the Collector of South Canara, dated Mangalore, 19th June 1897, Dis. No. 126 :—

I have the honour to report the conclusion of the settlement of block No. 23, Herur.

2. The block is situate in the Coondapoor taluk of your district and is one of the nineteen proposed reserves which were notified under section 4 in the *Fort St. George Gazette* of 12th December 1893. Proclamation under section 6 appeared in the forest sheet of the District Gazette of 29th March 1894 and spare copies of it were sent to the Tahsildar on 28th August 1894 for service on the wargdars interested and for publication in the villages concerned.

3. The block was inspected by Mr. Slight; but the date of perambulation cannot be ascertained from the records of the block.

4. After the settlement of the block was transferred to me I found that one claim was pending disposal. I passed orders on it on 30th January 1897 and sent the map for correction to the District Forest-officer on the same date. The fresh map was received in this office on 30th April 1897, since which date having been continuously employed in out-door work and in enquiring into claims relating to other blocks in my charge, I had to postpone giving this block the finishing touches required till the commencement of the monsoon.

5. Twelve claims were, in all, registered. Two claims were for two tanks within the reserve, of which one was admitted, the tank being excluded from within the reserve limits by an alteration of the boundary thereof; the other was dismissed as the tank claimed usually went dry by the end of the monsoon and also as there is a second tank outside the forest, the water whereof could be utilised for cultivation purposes. There were two claims for rights of way—one from the District Forest-officer who proposed the admission of six pathways which were accorded and the other from a private party for one pathway which proved to be one of those proposed by the District Forest-officer. Two claims for proprietary right over lands included within the reserve were disposed of in the following way. One admitted and the land claimed made an enclosure and demarcated out free from reservation by the erection of cairns; the other was dismissed as the patta granted to the claimant for the land claimed was declared invalid by the Collector. The rest of the claims were for kumaki and permission to utilise forest produce and these were rejected, the granting of such permission being unnecessary, as sufficient land was allowed between claimants' lands and the reserve boundary to provide aids to cultivation. I may observe that claims for pathways and tanks included also claims for forest produce, these being dismissed on the same grounds. Sufficient time has elapsed to allow claimants to prefer appeals if they would, but none seem to have done so. The block is therefore free of all rights other than those mentioned in the draft notification.

6. The following are herewith sent :—

- Signed copy of the B. register of claims.
- Draft notification under section 16.
- Statement of claims filed and their disposal.
- Sketch-map of the block.

7. The date from which reservation is to take effect is left blank in the draft notification to be filled in by the Government.

4-A 2.	Manja, nephew of Halepaik Naga of Yerakone.	Do.	Claim to use of land above cairns Nos. 154 and 155.			I have seen that 100 yards margin has been left everywhere, in most parts more. The claim is dismissed. (Signed) A. M. SLIGHT, Forest Sett.-officer. Herur, 26th October 1894.
5-A 3.	Nagappaya, son of Manjaya Hebbara of Nagar village, on behalf of the ryots of that village.	29th Oct. 1894.	Claim to forest produce of the block.			The claim is long beyond time and from people of a village a mile or more from Herur block. I see no reason to admit it. It is therefore dismissed. (Signed) A. M. SLIGHT, Forest Sett.-officer. Herur, 29th October 1894.
6-A 4.	Subraya Bhatta, son of Vaeu Bhatta of Uppravalli village, on behalf of the ryots of that village.	Do.	Claim to forest produce of the land between cairn No. 159 and the "Mavinakattu" which lies to the west between cairn No. 159 and Tumhikere.			As the boundary as now notified does not include the land to which this claim refers, it is dismissed. (Signed) A. M. SLIGHT, Forest Sett.-officer. Herur, 29th October 1894.
8-A 5.	Subba, son of Manja of Herur village.	Do.	Claim to use of more land near cairns Nos. 18 and 19 for Kumaki purposes on the ground that those cairns are too near his cultivation in muli warg No. 1 of Herur.			The petition is long beyond time, and if the boundary comes a little near cultivation at one point near cairn No. 18, it is for the most part between cairns Nos. 18 and 19 for more than 100 yards from it. The petition is dismissed. (Signed) A. M. SLIGHT, Forest Sett.-officer. Herur, 29th October 1894.

7.						

(i) Path way from *Kirimanjeshwar* to *Yellur*, to a width of four feet for men and cattle, enters the reserve fifty-five yards north of cairn No. 1 and running four miles first north-east and then in a generally easterly direction quits it seventy yards south of cairn No. E-10 of Herberane darkhast; crossing that enclosure from west to east it re-enters the reserve seventy yards south of cairn No. E-9 and running in a curve, general direction east, for about one and-a-half miles leaves it one hundred and ten yards south-east of cairn No. 5-A of Beteane darkhast. Traversing that enclosure it emerges therefrom seventy yards north-west of cairn No. 2-A and taking first a north-easterly and then a northerly course for about a mile finally quits the reserve eighty yards west of cairn No. 104, entering the Kerimale garden.

(ii) Pathway from *Ullur* to *Yarakone*, to a width of four feet for men and cattle, enters the reserve one hundred and ten yards north of cairn No. 161 and running east for nine hundred yards joins path-way No. 1 following which, for some distance it branches at a point three hundred and thirty yards north-west of cairn No. 11 and passing north-east for four hundred and forty yards joins hundred and sixty yards quits the reserve one hundred and ten yards north-east of cairn No. 146.

(iv) Pathway from *Kenji* to *Algadde*, to a width of four feet for men and cattle, enters the reserve fifty yards south-east of cairn No. 55 and running west for one hundred and ninety yards quits it seventy yards north-west of cairn No. 51. It follows that path way in a westerly direction re-entering the reserve one hundred and ten yards south-east of cairn No. 5-A of the Beteane darkhast, branches from it at a point eighty yards south-east of cairn No. 122 and going for a distance of one hundred and fifty yards through the reserve west, quits it ninety yards west-south-west of cairn No. 122.

No.	Names of claimants.	Date of presentation of claims.	Nature and extent of claims preferred.	Brief summary of the evidence adduced in support of claims.	Brief summary of the District Forest-officer's arguments and evidence produced by him.	Brief abstract of decision and final disposal of the claims by the Forest Settlement-officer.

3-A	Subbichettati, niece of Venkataya Shetti of Herur.	26th Oct. 1894.	Claim to forest produce of Kumsarene and Korakoppa on which cairns Nos. 2 and 3 have been placed. 2. Also permission to go to a tank inside the block and repair it during the rainy season, as its water is required for her cattle and for the cultivation of her land.		Ample margin allowed outside the block for Kumaki aid. The claim may therefore be rejected. (Letter No. 2179, dated 1st December 1894). Consents to exclude the tank by putting another cairn (2-A) at the head of it.	Dismissed, as the boundary near cairns Nos. 1 and 2 already excludes a large extent of waste land. Claim is admitted and the necessary modification will be made in the boundary at cairn No. 2-A being placed at the head of the tank. (Signed) A. M. SLIGHT, Forest Sett.-officer. Coondapoor, 14th March 1895.
7-A	Subbraya Chetti, nephew of Manja Shetti of Navunda village, on behalf of the ryots of that village.	29th Oct. 1894.	Claim to forest produce and pasture from the western portion. 2. Claim to the water of Tambikere tank for cattle.		Liberal provision made outside the limits of this portion of the reserve. The claim may be rejected. This tank is dry by the end of September and as there is another tank near this side outside the block which contains water all the year round, there is no necessity for cattle to go to Tambikere tank. The claim may be rejected. (Letter No. 2166, dated 8th November 1894). Proposes to exclude the land.	Dismissed, as ample land has been left for communal use. Also dismissed, as the tank is dry by the end of September and there is another just outside the boundary which contains water throughout the year or nearly so. (Signed) A. M. SLIGHT, Forest Sett.-officer. Coondapoor, 14th March 1895.
9-A	Subbraya Badivala, son of Krishna Badivala and Lakshminarayana Badivala of Herur village.	Do.	Claim, proprietary right to Herberane darkhast (mulu warg No. 13 of Herur) lying inside the block.		Proposed to acquire the land.	Claim admitted and the land claimed excluded from the reserve with hundred yards Kumaki. (Signed) J. H. ROBERTSON, Forest Sett.-officer. Coondapoor, 28th March 1895.
11-A	Ali Saiba, son of Bapu Saiba of Uppravalli village.	Do.	Claim, proprietary right to land (mulu warg No. 5 of Uppravalli) situated near cairns Nos. 159 and 160 and the exclusion of the same with Kumaki.		Opposes the claim, as there is sufficient unreserved land outside the block.	Claim is dismissed, as the patta granted to the claimant for the land claimed is declared invalid by the Collector. (Signed) J. H. ROBERTSON, Forest Sett.-officer. Coondapoor, 3rd December 1894.
10-A	Subbraya Badivala, son of Krishna Badivala and Lakshminarayana Badivala of Herur village.	Do.	Claim to use of more land for Kumaki purposes near cairns Nos. 4, 11, 12, 14, 15, 16, 29, 30 and 31.		Opposes the claim, as there is sufficient unreserved land outside the block.	The claim is dismissed as time-barred. The Forest Settlement-officer considers that sufficient space also has been left free from reservation between cairns Nos. 4 and 31. (Signed) H. S. MULLINS, Spl. Forest Sett.-officer. MANGALORE, 30th Jan. 1897. Malabar and South Canara.

RESOLUTION—Forest No. 504, dated 20th November 1897.

Submitted to Government with the following remarks for approval and publication of the draft final notification in the *Fort St. George Gazette* :—

(i) The description of the paths given in the register is very incomplete. That in the draft notification being complete and accurate, it has been adopted in the other document. The Forest Settlement-officer should, in future, see that these records agree in all particulars.

(ii) The date of decision on claim No. 11 is 3rd December 1894, while that of the previous decision is 28th March 1896. The year 1894 is presumably an error for 1896. The Collector is requested to report on the point.

(iii) *Claim No. 10.*—The extent and assessment of the land dealt with is not given in the register although the draft notification records these particulars and also states in whose name the right to the land is admitted. The details in the notification regarding assessment and name of claimant being unnecessary and not borne out in the register, they have been omitted in the former document.

2. Though slight exclusions have been made at settlement, and though about 9 acres of land (Herber Ane) have been demarcated out as an enclosure during settlement, the area of the block is reported to be same as that initially notified. This requires explanation.

3. The reservation of the block may take effect from the 1st March 1898.

4. The claim to Muli Warg No. 5 of Uppravalli in claim No. 11 was dismissed by the Forest Settlement-officer, as the patta granted for the land had been declared invalid by the Collector. As it is for the Forest Settlement-officer to decide whether the claim is valid or not, the grounds, which the Forest Settlement-officer seems to have accepted as sufficient, should have been specifically stated in the register so as to make the decision complete in itself.

Reserved Forest.

The draft notification, under section 16 of the Madras Forest Act, for the constitution of the Herur block, in the Coondapoor taluk, as a —, ordered to be published in the Fort St. George and the South Canara District Gazettes.

GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

READ—the following Proceedings of the Board of Revenue (Land Revenue), Forest No. 504, dated 20th November 1897:—

Read—the following letter from H. S. MULLINS, Esq., Special Forest Settlement-officer, Malabar and South Canara districts, to the Collector of South Canara, dated Mangalore, 19th June 1897, Dis. No. 126:—

I have the honour to report the conclusion of the settlement of block No. 23, Herur.

2. The block is situate in the Coondapoor taluk of your district and is one of the nineteen proposed reserves which were notified under section 4 in the *Fort St. George Gazette* of 12th December 1893. Proclamation under section 6 appeared in the forest sheet of the District Gazette of 29th March 1894 and spare copies of it were sent to the Tahsildar on 28th August 1894 for service on the wardars interested and for publication in the villages concerned.

3. The block was inspected by Mr. Slight; but the date of perambulation cannot be ascertained from the records of the block.

4. After the settlement of the block was transferred to me I found that one claim was pending disposal. I passed orders on it on 30th January 1897 and sent the map for correction to the District Forest-officer on the same date. The fresh map was received in this office on 30th April 1897, since which date having been continuously employed in out-door work and in enquiring into claims relating to other blocks in my charge, I had to postpone giving this block the finishing touches required till the commencement of the monsoon.

5. Twelve claims were, in all, registered. Two claims were for two tanks within the reserve, of which one was admitted, the tank being excluded from within the reserve limits by an alteration of the boundary thereof; the other was dismissed as the tank claimed usually went dry by the end of the monsoon, and also as there is a second tank outside the forest, the water whereof could be utilised for cultivation purposes. There were two claims for rights of way—one from the District Forest-officer who proposed the admission of six pathways which were accorded and the other from a private party for one pathway which proved to be one of those proposed by the District Forest-officer. Two claims for proprietary right over lands included within the reserve were disposed of in the following way. One admitted and the land claimed made an enclosure and demarcated out free from reservation by the erection of cairns; the other was dismissed as the patta granted to the claimant for the land claimed was declared invalid by the Collector. The rest of the claims were for kumaki and permission to utilise forest produce and these were rejected, the granting of such permission being unnecessary, as sufficient land was allowed between claimants' lands and the reserve boundary to provide aids to cultivation. I may observe that claims for pathways and tanks included also claims for forest produce, these being dismissed on the same grounds. Sufficient time has elapsed to allow claimants to prefer appeals if they would, but none seem to have done so. The block is therefore free of all rights other than those mentioned in the draft notification.

6. The following are herewith sent:—

- Signed copy of the B. register of claims.
- Draft notification under section 16.
- Statement of claims filed and their disposal.
- Sketch-map of the block.

7. The date from which reservation is to take effect is left blank in the draft notification to be filled in by the Government.
