Proceedings of the Board of Revenue

(Revenue Settlement, Land Records and Agriculture),

Dated 8th March 1899.

189 .

No. 1298 Mis.

Read the following letter from Veterinary Colonel A.E. Queripel, Inspector-General, Civil Veterinary Department, No. 200-193 M, dated 23rd February 1899 :-

I have the honor to state that Veterinary Lieutenant J.D.E. Holmes has furnished me with a copy of his letter to your address, reporting that on the morning of the 10th February 1899, he joined the camp of the Assistant to Inspector-General, Civil Veterinary Department.

2. Copy of G.O. 237 - Revenue - dated 6th April 1897, received under cover of your letter No. 519 Mis. of 25th January 1899, has been forwarded to Veterinary Lieutenant Holmes, with a request that he is to make himself fully acquainted with the contents of the same.

3. In latter portion of para 2 of my letter No. 401 C dated 30th October 1898, to your address, I recommended that Veterinary Lieutenant Holmes should spend a little time with the Superintendent, Civil Veterinary Department, N.W. Provinces and Oudh, whose duties are solely connected with horse and mule breeding. This portion of my recommendation I now desire to modify. Mr. Holmes has already visited all the chief horse breeding centres of the Punjab, as he was

detailed, whilst in the Army Veterinary Department, as a member of the Special Judging Committee: so instead of visiting any horse-breeding centres, I beg to propose that he should be sent to the Bengal Veterinary College for about a fortnight in order to see some most valuable experiments which are being conducted in inoculation against Rinderpest. These are of the greatest importance and if Veterinary Lieutenant Holmes made himself acquainted with what has already been done in Bengal, he would, on his return to Madras, be able to commence where the Superintendent, Civil Veterinary Department, Bengal, has left off, instead of from the beginning.

4. The question of expense I have also considered. The fare to Calcutta from Rawalpindi is Rs. 9/- less than to Madras: so that the only additional expense, would be by sea from Calcutta to Madras; which would be trifling, and would be more than met by omitting the horse breeding tour, and Veterinary Lieutenant Holmes would not exceed the time allowed by the Madras Government.

5. The favor of an early reply is requested, so that Mr. Holmes may lose no time.

Read also the following letter from Veterinary Colonel A.E. Queripel, Inspector-General, Civil Veterinary Department, No. 176 C., dated 28th February 1899 :-

In continuation of my last official letter (being in camp I am unable to quote number and date) in which I recommended that Veterinary Lieutenant Holmes should visit the Bengal Veterinary College, I have the honor to inform you that that officer has now been in camp with the Assistant to the Inspector-General, Civil Veterinary Department, for over a fortnight, and has seen how the Bacteriological Survey should be worked.

2. Important experiments in Rinderpest are now being carried out at the Bacteriological Laboratory at Muktesar, N.W.P., and the Imperial Bacteriologist informs me that the time

time is most favorable to watch the inoculation of animals for Rinderpest and their results. In anticipation of the approval of the Madras Government, which I now solicit, I have directed Veterinary Lieutenant Holmes to proceed to Muktesar: after which he will rejoin the Assistant to the Inspector-General, Civil Veterinary Department, and I feel confident that the training which he will have received will lead to his doing good work amongst the cattle in Madras.

3. It will be unnecessary to Veterinary Lieutenant Holmes to visit any of our horse-breeding centres, as I find he is well up in this portion of the work, having, whilst in the Army Veterinary Department, been a member of the Special Judging Committee at all horse shows held in the Punjab.

4. Veterinary Lieutenant Holmes will join his appointment at Madras within the time specified by your Government.

Resolution.

Submitted for the orders of Government, with the Board's recommendation that the proposal of the Inspector-General in the second letter read above be approved. If this suggestion commends itself to Government, it is requested that the Inspector-General may be informed accordingly by wire.

2. Under G.O.No.362 dated 28th June 1898, the Superintendent, Civil Veterinary Department, has been directed to conduct experiments on Dr. Koch's system of inoculating for Rinderpest, and experiments in that work have already been carried out in Muktesar, so that by his visit to Muktesar Mr. Holmes may gain valuable experience in the work he has to do in this direction.
