Proceedings of the Board of Revenue

(Separate Revenue),

Dated 17th November

1898.

Mis. No. 4579.

Read letter from F.C. Parsons Esquire, I.C.S., Acting Collector of Malabar, Ref. on C.No.44/S.C.D of 98, dated 6th November 1898, reporting on the proposals for the improvements to be carried out in the Sea Customs office at Tellicherry, called for in Board's Proceedings, Mis.No.2995, dated 29th July 1898.

Resolution:-

In the letter read above the Collector of Malabar submits the report called for by Government in its order, Mis.No. 2920, dated 11th July 1898.

2. The Collector encloses a report from the Sub-Collector who inspected the Customs House, and says that the estimate framed by the Executive Engineer is too elaborate and expensive. He considers that the accommodation provided by the estimate is not necessary, and that a room similar to the one occupied by the Port Officer, built over the present northern room, will be quite sufficient, and would cost about 1000 Rupees.

3. The Executive Engineer, however, still recommends the adoption of his original design, with the omission of the back verandah, and the Collector thinks he may be allowed to carry out the work as proposed by him.

4. The Board agrees with the Sub-Collector and considers that sufficient extra accommodation should be provided for about Rs.1000.

FOR ORDERS.

To Secy.

The Collector of Malabar suggested that the building used by the Supt., Sea Customs, and the Port Officer, ^{at} Tellicherry might be improved so as to provide accommodation for the former officer. The preparation of plans and estimates being approved, the P. W. Dept. proposed to build a new upper story and to provide front and rear verandahs at a cost of Rs 7040.

2. Correspondence has taken place with the Marine Dept., the Collector of Malabar and the Board of Revenue on this subject.

my portion of the cost of the improvement.

3. The Sub-Collector of Malabar considers the estimate to be too elaborate and expensive. He would build but a single room for about Rs 1000 similar to that occupied by the Port Officer and the Board agrees with him. The Collector and the Executive Engineer, on the other hand, recommend the adoption of the original designs with the omission of the back verandah. It is not stated what sum will be saved by this omission. The Govt has to decide between these conflicting opinions. May the P. W. Dept. be consulted?

An office room for the Supd. of Sea Customs is, apparently, what is reqd. It seems, therefore, very unnecessary to spend so large a sum as Rs 7000 in providing 2 rooms & verandahs. I think the estimate should be confined to actual requirements. W.H. 15.12.98
