READ letter from G.W.Dance Esq., Collector of Malabar, R C No. 1579/B&G, dated 19th January 1899.

With reference to Board's Proceedings No. 7160 Mis. dated 13th December 1898 I have the honor to submit here-with a copy of a letter dated 7th January 1899 No. 6 Camp from the Deputy Superintendent, No. V Survey Division. I have approved of his proposal in para 7.

Resolution.

The papers read above will be submitted to Government, with reference to G.O. 709/24-11-98 and in continuation of B.P. 439 dated 3rd December 98.

2. The Collector reports, with reference to para 2(iii) of the G.O. quoted above, that the Supervisor has selected for work under himself 18 men for superior service and 23 for inferior service, that four men of the superior service and 26 inferior servants can be taken from the Settlement

ment

ment staff for clerical and menial work under the Deputy ^{Collector} Commissioner for Kurumbranad and that no work in connection with Janmam registration can be found for the remaining men. The Collector does not state whether the Deputy ~~Commissioner~~ Collector for Ponnani will not require more hands than have been chosen by the Supervisor for work in that taluk.

3. The Board observes that both the Collector and Settlement Officers seem to be under the impression that the Settlement staff, while employed on Janmam registration, will draw the same rates of pay as are sanctioned for men employed under the Janmam Deputy Collectors in Palghat and Walluvanad and that classifiers of the Settlement Party, some of whom are unpassed men, should, before appointment as Janmam Registration Inspectors, be exempted from passing the educational tests required for the post of Revenue Inspectors. These considerations seem to have influenced the choice of men from the Settlement Party for registration work. It will be pointed out to the Collector and the Assistant Commissioner in charge of No. VI Party, that the object of employing the members of the Settlement Party on Janmam registration is as much to find suitable work for that party as to minimise the extra cost involved in starting two additional parties for Janmam registration and that it is not intended that except in the case of the Supervisor, who has to be gazetted as Deputy Collector, the pay of the Settlement Department men should be increased or ~~decreased~~ reduced while they are employed on Janmam registration work.

4. The Collector considers, judging apparently from the educational qualifications of the men, that the experienced classifiers and Head Classifiers of the Settlement Party will not be equal to the work of Janmam registration as at present performed by Revenue Inspectors. As already observed by the Board in para 15 of its Proceedings No. 680 dated 20th October 97, these men have been engaged in checking the entries of Janmam title in the Survey registers and are likely to do the work better.

better than new hands. The Board considers that the entire staff required for work in Ponnani should be recruited from the Settlement Party and that the Supervisor may be allowed to take as many hands therefrom as he can utilize (vide para 15 of B.P. 680 dated 20th October 97). If there are any clerks or classifiers left after all the men required for work in Ponnani have been chosen, the Assistant Commissioner should submit proposals for employing them in the best manner possible. It should be considered whether such extra hands cannot be provided with work as surveyors in connection with Janmam registration.

5. As regards the establishment required for Kurumbranad and the additional staff of Revenue Inspectors required for Palghat and Walluvanad, the Board considers that the Collector may be left to choose his own men, as requested by him. He will submit the necessary proposition and statement therefor.

It is observed that Gumasta Menons will have to be appointed one for each amsam both in Kurumbranad and in Ponnani, as is done in the other two taluks in which Janmam registration is in progress. The necessary proposition statement for this establishment should ^{also} be submitted by the Collector.

6. The Board requests that the appointment of the Supervisor as Special Deputy Collector may be gazetted at an early date. The Collector reports that his deputation may commence at once.

7. With reference to para 4 of G.O. 709/24-11-98, the Collector reports that the sample registers referred to were not in the prescribed form which is the same for both the taluks and that the name of the occupant is invariably ascertained and recorded in the register in all cases.

8. The Assistant Commissioner proposes that the two Malayali clerks attached to his office may also be deputed for Janmam registration work, under the idea that he may have to proceed at an early date to Godavari, where it will be difficult to find suitable work for these men. He will

be informed that the Board is not certain that he will be transferred to Godavari in connection with the settlement of that district.

To

The Collector of Malabar.

Sir,

I have the honour to report that your Ref on C. No 1579 B + G dated 15th December 1898 was kept by my constituents for my disposal on return from Privilege leave on the 2nd January 1899.

2. I have since then been endeavouring to ascertain the requirements of the Palghat and Wallewanad Taluks with a view to see how many of the Surveyors now employed in those Taluks can be spared for work in the Taluks of Ponani and Kuruumbraad.

3. There are now 82 Surveyors employed in Palghat and 58 in Wallewanad. There is ample work to engage the whole of this staff in these Taluks up to the 1st April 1899, when the services of about 40 Surveyors might be spared.

Yr
Dep

Up to that date Surveyors will not, I think,
be in the Revenue Department.

John would give them an excellent training
and they will certainly require to keep up the
very records of their respective amsams
to the introduction of settlement.

During the Janmam Registration of the Palghat
to Wallamanad Taluks, there have always been
and in some cases, 4 surveyors employed in
each amsam.

In the Ponam and Kurumbranad Taluks as
well as in an amsam will be required.

Surveyors who are appointed as Surveyors

to always have an old Field Surveyor

to refer to for advice and assistance.

6 If the Collector approves of my proposal

to appoint qualified men temporarily

as Field Surveyors, I will select those men

whom I consider qualified and submit

proposal in further development of this

scheme.

10 Field Measurement Books are ready for
all Taluks of the District. Those which have
not already been can now be handed over
to the Janmam Registration Department and
men.

I have, etc,

Sir, I have the honor to reply to Board's
Proceedings (Rev. Sett. &c) No 439 Dated
3rd December 1898.

2. I enclose a list of the hands
selected by the Supervisor from the
Settlement Party for work under himself.
6 are proposed to be employed as clerks, or
9 as Revenue Inspectors, and 2 as either
Clerks or Revenue Inspectors. Another
man is proposed to be employed as
a taluk clerk, and one as an Attender.
There are also 22 menial servants.

3. I contrast this establishment
with that now sanctioned for
the other three Special Deputy
Collectors in the subjoined State
- ment.

4. I enclose another list of the Settlement hands not wanted by Mr Damodaran Aiyar, who are available for employment under the other Special Deputy Collectors. The Head writer may be appointed Head Clerk to the Kurumbra nad Deputy Collector. Appadurai Aiyar, Balakrishna Aiyar and Kunhi Raman Nambyar may also be given appointments in the same office. All the other men are wholly uneducated, and quite unfit to be entrusted with the important work of zemnam Registration. The field work in this

department has hitherto been entrusted to the best Revenue Inspectors in the District, and I would respectfully deprecate lowering the standard by an admixture of the unqualified persons who are now offered me by the Settlement Department. I beg that he may be allowed to choose my men. The peons wanted for the Kurumbra nad Deputy Collector (26) may be taken out of the (26) shown in the list B.

5. I subjoin a statement showing the additional establishments which will require to be entertained after utilizing the services of the individuals mentioned in the previous para. I deal only with the Special Deputy Collectors of Palghat, Malluana nad and Kurumbra nad. If Mr Damodaran Aiyar wants any more hands, he may perhaps be able to select them from the list of persons he has offered me.

It is not clear from the Government Order whether the men employed under Mr. Damodaran Nair are to get the same pay as those employed under the Special Deputy Collectors. But we are not likely to improve their qualifications by raising their pay.

I have ascertained from the Assistant Commissioner of Settlement that the Supervisor's deputation may commence at once.

8. The Deputy Superintendent reports that field measurement books are ready for all the Taluks in the District.

9. The form of Register of Proprietors in Palghat as well as Malluvanaad is the same, viz that prescribed in Board's Proceedings No 201 (Reasett) dated 8th July 1895. The sample registers referred to in para 4 of the G.O. were not in the prescribed form.

As regards the entry in Col 11 — "Name of occupant" the Special Deputy

Deputy Collector, Palghat, reports as follows: "In Column 11 is shown the 'Name of occupant'. Through the almost endless number and variety of tenures and interests, it is the occupant that, in the existing state of things, enables us to discover the jemi and establish the connection between him and the nominal Pattadar. Hence the best and most anxious attention is devoted to the discovery, in the first instance, of the man who actually occupies the land at the time of our field visitation and then, of the series of inferior and superior holders who lead up to the jemi."

10. The name of the person who would in the ordinary course, be entitled to be registered under Section 14 of Act III of 1896 on the application of the registered proprietor is recorded in Col 11. But as yet no applications have been made by the Registered proprietors. I have the honor to be, Sir, your most obedient servant

READ—the following letter from G. W. DANCE, Esq., I.C.S., Collector of Malabar, to the Secretary to the Commissioner of Revenue Settlement and Director of the Department of Land Records and Agriculture, dated Calicut, 20th January 1899, D. No. 112 Rev. :—

With reference to B.P., Mis. No. 7160, dated 13th December 1898, I have the honour to submit, herewith, a copy of a letter, dated 7th January 1899, No. 6-Camp, from the Deputy Superintendent, No. V Survey Division. I have approved of his proposal in paragraph 7.

ENCLOSURE.

From G. P. GREENE, Esq., Deputy Superintendent, No. V Survey Division, to the Collector of Malabar, dated Camp, Tattamangalam, 7th January 1899, No. 6-Camp.

I have the honour to report that your Ref. on C. No. 1579-B. and G., dated 15th December 1898, was kept by my *locum tenus* for my disposal on return from privilege leave on the 2nd January 1899.

2. I have since then been endeavouring to ascertain the requirements of the Pálghát and Walluvanád taluks with a view to see how many of the surveyors now employed in these taluks can be spared for work in the taluks of Ponnani and Kurumbranád.

3. There are now 82 surveyors employed in Pálghát and 58 in Walluvanád. There is ample work to engage the whole of this staff in these taluks up to the 1st April 1899, when the services of about 40 surveyors might be spared.

Up to that date, surveyors will not, I think, be required by the two additional registrars of janmam titles, now to be appointed, as it will take them quite three months to prepare lists of lands which require further survey. Without these lists surveyors' time cannot be fully employed, nor would it be possible for me to prescribe a fixed outturn of work.

4. By 1st April 1899 I hope to have many sundry works, on which about 25 surveyors are now employed, completed when the services of these men will also be available for janmam registration.

5. I think I may safely say that for the next six months I will be able to meet any demand for surveyors that the four janmam title registrars are likely to make; after that my present strength of surveyors will have to be considerably augmented.

6. I have, in my No. 1542 E., dated 29th November 1898, given as my opinion that the Malabar market for trustworthy surveyors is nearly exhausted.

I could doubtless get surveyors from other districts, but they would be unable to write Malayalam, and in consequence their registers could not be checked by the menons, Revenue Inspectors and possibly the Special Deputy Collectors who are responsible for their accuracy.

7. This difficulty has to be overcome, and the only plan I can think of is to employ all menons who are thoroughly qualified in field survey as surveyors. Under this category might be classed 50 per cent. of the menons of the district. I would appoint them as field surveyors on a salary of Rs. 10 per mensem to rise, after approved service, to Rs. 12.

They would be employed in their own amsams but otherwise be treated as ordinary field surveyors, substitutes being appointed by the Revenue Department.

This would give them an excellent training which they will certainly require to keep up the survey records of their respective amsams after the introduction of settlement.

8. During the janmam registration of the Pálghát and Walluvanád taluks, there have always been two, and in some cases four surveyors employed in each amsam.

In the Ponnani and Kurumbranád taluks, as many men to an amsam will be required; so menons who are appointed as surveyors will always have an old field surveyor to refer to for advice and assistance.

9. If the Collector approves of my proposal to appoint qualified menons temporarily as field surveyors, I will select those menons whom I consider qualified and submit proposal in further development of this scheme.

10. Field-measurement books are ready for all taluks of the district. Those which have not already been can now be handed over to the Janmam Registration department and menons.

BOARD OF REVENUE (REV. SETT., L. RDS. AND AGRI.), No. 65, 27TH FEB. 1899.

Resolution—No. 65, dated 27th February 1899.

The papers read above will be submitted to Government with reference to G.O., No. 709, dated 24th November 1898, and in continuation of B.P., No. 439, dated 3rd December 1898.

2. The Collector reports, with reference to paragraph 2 (iii) of the Government Order quoted above, that the Supervisor has selected for work under himself 18 men for superior service and 23 for inferior service, that 4 men of the superior service and 26 inferior servants can be taken from the settlement staff for clerical and menial work under the Deputy Collector for Kurumbranád, and that no work in connection with janmam registration can be found for the remaining men. The Collector does not state whether the Deputy Collector for Ponnani will not require more hands than have been chosen by the Supervisor for work in that taluk.

3. The Board observes that both the Collector and the Settlement-officers seem to be under the impression that the settlement staff, while employed on janmam registration would draw the same rates of pay as are sanctioned for the staff employed under the Janmam Deputy Collectors in Pálghát and Walluvanád, and that classifiers of the Settlement Party, some of whom are unpassed men, should, before appointment as janmam registration inspectors, be exempted from passing the educational tests required for the post of Revenue Inspectors. These considerations seem to have influenced the choice of men from the Settlement Party for registration work. It will be pointed out to the Collector and the Assistant Commissioner in charge of No. VI Party that the object of employing the members of the Settlement Party on janmam registration is as much to find suitable work for that party as to minimise the extra cost involved in starting two additional parties for janmam registration, and that it is not intended that, except in the case of the Supervisor who has to be gazetted as Deputy Collector, the pay of the Settlement Department men should be increased or reduced while they are employed on janmam registration work.

4. The Collector considers, judging apparently from the educational qualifications of the men, that the experienced classifiers and head classifiers of the Settlement Party will not be equal to the work of janmam registration as at present performed by Revenue Inspectors. As already observed by the Board in paragraph 15 of its Proceedings, No. 680, dated 20th October 1897, these men have been engaged in checking the entries of janmam title in the survey registers and are likely to do the work better than new hands. The Board considers that the entire staff required for work in Ponnani should be recruited from the Settlement Party, and that the Supervisor may be allowed to take as many hands therefrom as he can utilize (*vide* paragraph 15 of B.P., No. 680, dated 20th October 1897). If there are any clerks or classifiers left after all the men required for work in Ponnani have been chosen, the Assistant Commissioner should submit proposals for employing them in the best manner possible. It should be considered whether such extra hands cannot be provided with work as surveyors in connection with janmam registration.

5. As regards the establishment required for Kurumbranád and the additional staff of Revenue Inspectors, required for Pálghát and Walluvanád, the Board considers that the Collector may be left to choose his own men, as requested by him. He will submit the necessary proposition statement therefor.

It is observed that gumasta menons will have to be appointed one for each amsam, both in Kurumbranád and in Ponnani, as is done in the other two taluks in which janmam registration is in progress. The necessary proposition statement for this establishment should also be submitted by the Collector.

6. The Board requests that the appointment of the Supervisor as Special Deputy Collector may be gazetted at an early date. The Collector reports that his deputation may commence at once.

7. With reference to paragraph 4 of G.O., No. 709, dated 24th November 1898, the Collector reports that the sample registers referred to were not in the prescribed form which is the same for both taluks, and that the name of the occupant is invariably ascertained and recorded in the register in all cases.

4 Bc

8. The Assistant Commissioner proposes that the two Malayali clerks attached to his office may also be deputed for janmam registration work, under the idea that he may have to proceed, at an early date, to Gôdâvari where it will be difficult to find suitable work for these men. He will be informed that the Board is not certain that he will be transferred to Gôdâvari in connection with the resettlement of that district.

(Enc. 1480)

To the Under Secretary

In Para 2(111) of B. C. No. 709 of 24. 11. 98, the Board approved of the Board's proposals for the employment of two additional parties for the registration of janmam titles in the Ponnani and Kottayam baranad taluks of the Malabar District. In the former taluk it was proposed to employ the Supervisor of the Settlement Party with such portion of the Party as he may require for the work, and in the latter taluk an establishment similar to that allowed for the Palghat and Walewara taluks. The Board of Rev. was also requested to advise Govt. as to how the portion of the Settlement establishment not required for the registration work in the Ponnani taluk should be utilized.

2. The Board of Rev. thereupon instructed

B.P. 439 under R. to 285
3-12-98 18-1-99 N

2
The Collector instructed the Collector
in consultation with the Asst. Commr.
to report on the following points:-

(a) how many hands should
be allotted from the Settlement Party
work under the Supervisor in the
Ponnani taluk;

(b) whether the remaining
hands of that Party can be uti-
lized, wholly or partially, for work
under the Jaminan Regulations in Kurum-
barasad, Palghat and Walavand
talukas;

(c) what additional esta-
blishments, if any, will have
to be entertained with reference
to the scale sanctioned by Govt;
and

(d) from what date the
Supervisor's deputation may com-
mence.

The Collector was also told that
in framing proposals on the above
points, it might be assumed
that the only settlement operation
that would be conducted in the
district for some time to come
will be the inspection of Classi-
fied villages by the Assistant
Commissioner.

(in the
current)

3 In the above Prgs. the
Board of Rs. submit to the Collector
report called for. Mr. Dance has
submitted two lists, one showing
the portion of the party which
has been selected by the Settlement
Supervisor Samadaram Nair
for work under him and, other
other the portion not so selected
and which is available for
employment under the Special
Dy Collectors in the other talukas.
The establishment selected by the
Supervisor consists of 41 hands
(18 superior and 23 inferior) and
the remaining portion of 49 hands
^{consists}
^{(of whom one is reported to have changed}
^{of the records of the party}
(23 superior and 26 inferior). The
Collector of Malabar would utilize
the 26 inferior servants as persons
for the Kurumbarasad taluk;
but he says that only 4, out
of the 23 superior servants of the
Settlement Party, ~~only~~ are ~~part~~
~~men~~ qualified for employment
in the superior grades of the public
service and that the remaining
19 are "wholly uneducated and
quite unfit to be entrusted with
the important work of Jaminan

registration. He adds that the field work in the district has hitherto been entrusted to the best Revenue Inspectors and that ~~he~~ would deprecate lowering the standard by an admission of unqualified persons who are offered to him by the Settlement Dept. The Board, in this connection draws the Collector's attention to the remarks already made in para 15 of R.P. ~~680~~ ^{20.10.97} to the effect that "these men have been engaged in checking the entries of Janmam title in the Survey registers and are likely to do the work better than new hands. ~~Accordingly~~ ^{therefore} the Board would however leave the Collector to select his own men for the other taluqs (except Bonriani which it proposes to be officered wholly by the ~~Settlement~~ ^{Settlement} Party hands) and has asked the Collector to submit the necessary proposition statement for the extra hands required. As regards the pay to be allowed to the hands of the Settlement Party while employed on registration work,

para 4 of letter of 12.1.99

Para 3 of R.P. $\frac{65}{27.2.99}$ (encl 1480)

the Board observe that both the Collector and the Settlement Officer seem to be under the impression that the Settlement staff, while employed on Jammaan Registration would draw the same rates of pay as are sanctioned for the staff under the Jammaan Dy Collectors in Valparai and Walavanad and that classifiers of the Settlement Party, some of whom are unpassed men, should, before appointment as Jammaan Registration Inspectors, be ~~exp~~ exempted from passing the educational tests required for the post of R. Inspectors. It points that the object of employing the members of the Settlement on Jammaan Registration is as much to find suitable work for that Party as to minimize the extra cost involved in starting two additional parties for Jammaan Registration and that it is not intended that, except in the case of the Supervisor, ^{who has to be} ~~it is not~~ ^{be} ~~appointed~~ ^{gazetted} as Dy Collector, the pay of the Settlement Dy Ct men should be increased or reduced.

As stated in para 3
supra, the Settlement Supervisor
~~Mr.~~ Dandekar has
has selected 41 hands (18 superior
+ 23 inferior) of the settlement
party for work under him — 7 as
clerks, 9 as Inspectors, 2 as clerks
or Revenue Inspectors, 1 as an attached
and 22 as menial servants.

As already stated in para 3 supra,
it is proposed to employ the 26
inferior servants of the Party left
unabsorbed by the Pimpri, as
may pertain in the Kurumbaram taluk.

As regards the other staff required,
the Collis requests to be allowed to

23 superior servants of the Party
to be not qualified for the work.
The Board accepts the Collis proposal.

(C) What additional establish-
ments, if any, will have to be
entertained with reference to the
scale sanctioned in para 2 of
C.O 709 of 24-11-28.

Mr. Dancer proposes to utilize the force qualified hands of the Settlement Party, remaining unabsorbed by Damodarvan Nain, for the Kumbharbandh Dy. Coltd. Office (1 as the clerk, 2 as clerks and 1 as surveyor) and to entertain the following additional hands.

Person	Amount	Total
2 Charles on 12.15 each	Rs 30	
1 Attender on 15.00	Rs 10	
4 Special clerks on Rs 20 each	Rs 80

Mr. Dance would utilize the 26 pious of the Settlement Party not selected by Damodarai Nair. These 26 pious for the Kurumbaram and Taluk.

In the Land Rev Budget of charges for 1899-1900, a sum of Rs 31,080 or Rs 2570¹¹ has been provided on account of Jannam registration establishments in Malabar and deducting therefrom the aggregate cost of the establishments required for the Palghat and Walamand Taluk as detailed in para 4(a) supra viz, Rs 2 x 1122 or 2244, the balance that will remain for utilization towards the cost of the establishment proposed for the Kurumbaram and Taluk will be Rs 206¹¹. The cost of the extra establishment proposed to be entertained for the Kurumbaram Taluk amounts to Rs 920¹¹ and deducting from the amount the sum of Rs 206 already provided in the budget, the extra amount needed will be Rs 714 p. or Rs 56.8 per annum.

In making the above calculation it has been assumed that the 4 pious clerical staff and the 26 inferior servants

This office has made provision under Sub. Dist. Coll. Jannam letter regn as well as under General Administration Estbl. - Jannam Teller, Registration. In the Budget passed in G.O. 1180 of 6.12.98. The 2 Rs 500 had not been overlooked thus.

services of the Settlement Party will, as proposed by the Collector, be utilized for the Kurumbaram and Taluk.

In addition to the above establishment, the Board of Revenue has instructed the Collector to submit the necessary proposition statement for the entertainment of Jannam menors rooms at the rate of one for each annum for the Kurumbaram and Kurumbaram Taluk. From para 2 of B.P. No 706 of 11.12.98 printed at page 10 of G. O. No 709 of 24.11.98, it will be seen that the Govt has in G.O. 2573 of 1-7-96 sanctioned

the entertainment of Jannam menors for a period of six months in each annum of the several Taluk of the Malabar Dist. including Wynad and Cochin and that the Colly requested sanction for the retention of all the Jannam menors till the work of Jannam registration was completed. The Govt approved of the proposal in para 2 (ii) of G.O. 709 of 14.11.98. It is understood that there is provision in the V. S. Fund budget to meet the cost of the extra menors.

Is there? Please put up the V. S. Fund Budget 1116

(d) From what date the
 "the Supervisor's deputation may commence"
 on Mr. Dance has ascertained from
 the Assistant Commissioner of
 Settlement that the Supervisor's deputation
 may commence at

 was guests that his appointment

and 5. The only other point
 requiring notice in the B.P. is
 its reply to para 4 of C.O. 709
 24-11-28 in
 which Govt noticed some difference
 in the sample register for the Palghat
 taluk from that adopted for Walavand,
 the former containing a new
 column for "Occupant". The Board
 reports that the form is the same
 for both taluks and that the name
 of the occupant is invariably as-
 certained and recorded in the

register in all cases.
 Field measurement books are ready
 for all taluks.
 The points on which
 the orders of Govt are now
 required are:
