Proceedings of the Board of Revenue (Land Revenue).

No. 920 Misc. Dates 11th March 1899.

Read Letter from Robert B. Craig Esq., Asst. Collector
of Salem to the Secretary to the Commission of Land Revenue,
Madras, No. 252-P&G, dated 9th March 1899.

Resolution. In communication to the Collector of Salem G.O. No.
96, dated 6th February 1899, sanctioning the employment of Mr. McNeill
for collecting 200 tons of iron ore from the Kanjmalai
fields with a view to further experiment, the Board directed that
the ore should be stacked at the nearest Railway station at which
it could eventually be loaded on trucks for despatch to a sea-
port and observed that, if the Railway authorities were unable to
assign a site at which it could be stored without a high charge
for demurrage, it should be stacked on Government waste or other
land procurable at a reasonable rent. In his letter read above, the
Collector reports that the ore is being collected under the in-
structions of Mr. McNeill and that a plot of ground measuring
2500 sq. ft. at the Ariyankur station has been taken up from the Mad-
ras Railway Company for the storage of the ore at a monthly rent
of Rs. 2. He adds that the cost of collecting the 200 tons and
stacking them at the station will be between Rs. 600 & 650 in-
clusive of rent & of Rs. 480 more than that roughly estimated for
in Board's Proceedings No. 444, dated 4th February 1899. The Collec-
tor requests instructions as to the further disposal of the ore;
he expected that the collection would be completed by the 9th
instant according to the terms of the agreement entered into by
