Proceedings of the Board of Revenue (Separate Revenue).

Dated 7th March

1899.

Mis. No. 1107

Read letter from R.A. Graham Esquire, I.C.S., Acting Deputy Commissioner, Central Division, No. 948, dated 6th March 1899, requesting sanction to sink a Norton's tube well at the Neidavasal factory.

Resolution.

In the letter read above, the Deputy Commissioner, Central Division, brings to the notice of the Board that the establishment of the Neidavasal factory in the Tranquebar Circle experiences much difficulty in obtaining water for drinking and cooking purposes during the hot season. There is a fresh water well near the peons' lines, which however is at present unfit for use, and it is reported to be impossible to repair it. The Inspector of the Circle is anxious to dig another near it, but the Assistant Commissioner considers that a tube well will be cheaper and more effective. The Deputy Commissioner recommends the proposal for adoption and requests that a Norton's tube well may be supplied for the use of the factory establishment. The Board accordingly solicits the sanction of Government to the purchase of a tube well at a cost not exceeding Rs. 50. Similar sanction was accorded,

Revolving top Colonial lift pump 1 1/4 inches	Rs. 20-0-0	in the case of the
Brass jacket tube well point 1 1/4 inches	" 15-0-0	Dugarazapatnam facto-
Tubing, 25 feet at 6 annas per foot	" 9-6-0	ry, in Government Order
Contingencies	" 5-10-	Mis. No. 369, Revenue,
	Rs 50-0-0	

dated 24th January 1898. The driving apparatus already supplied
to the Fnnore Circle can be utilized for fixing the tube well.
