Read again G.O.No.99, Political, dated 30th January 1899.

Read also the following paper :-

From the Accountant-General, Madras, No. 646, dated 16th February 1899:-

With reference to paragraph 2 of your G.O.No.99, dated the 30th Ultimo, requesting me to report how the cost of Survey of the lands of the Banganapalli State should be recovered, and if the recovery can by any means be spread over a period of more than one year, I have the honour to say that if the Survey is to be conducted under ~~chapter~~ chapter III of Madras Act IV of 1897, any postponement of the recovery of the cost of the Survey after the Survey has been completed would be equivalent to the grant of a loan and should be made subject to the same conditions as the grant of a loan. Subject to the above remark and subject to budget provision being made, there is no account objection to the recovery being spread over more than one year.

Any payments made by the proprietor towards the cost of Survey before it is completed will be adjusted by deduction from the charges under "3 Land Revenue Survey and Settlement, Survey charges" the expenditure by the Survey Department being charged to that head. When the Survey is completed the unadjusted balance will be transferred to the debit of Survey advances. Interest on the balance, if Government Order that interest be charged, would be periodically calculated and added to the outstanding balance. If however the cost of

Survey

Survey is not recovered as an arrear of land revenue or completion of the Survey as directed in section 19, it will have to be charged to "loans to Land holders &c" and Government of India will have to sanction the arrangement-article 116 Civil Account Code.

In this connection I would request that the orders sanctioning the Survey of private estates and estates under the Court of Wards may in all cases be communicated to this office.

O R D E R: -No.179, dated 27th February 1899.

Communicated to the Political Agent, Banganapalle and to the Revenue Department.

Copy of Official Memorandum No.5, dated 9th January 1899, to the Superintendent, Madras Survey:-

The Nawab and the Sub-Jaghirdars of Banganapalli have consented to defray the cost of surveying the lands of the state and the Nawab is desirous that the survey should be commenced at an early date. The Superintendent, Madras Survey, is requested to report whether the survey can be undertaken without prejudice to the work of the Department.

SKG

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following paper:—

From the Political Agent, ~~the~~ Kurnool, ~~District~~, No. 186 of 1898, Political, dated 30th November 1898:—

Adverting to para. 5 of Government order No. 604, dated 26th August 1898 (Confidential Copy reviewing the Banganapalle Administration Report for 1897-98 and Budget Estimates for 1898-99), I have the honour to state that all the Sub-Jagirdars in Banganapalle have now expressed their willingness to have their villages surveyed and to contribute towards the cost of the operations sums in proportion to the revenues enjoyed by them. I have recently paid a visit to the Nabob, and he is very anxious that the survey should be commenced as early as practicable and that his State proper should be taken up first. There are also some minor details regarding which he wishes to have a personal consultation with Mr. Martin, Deputy Superintendent of Revenue Survey and has requested me to arrange for an interview of that officer with him. I accordingly wired to Mr. Martin, and he had arranged to go to Banganapalle on the 27th instant, and the Nabob was also anxiously expecting him. Mr. Martin, however, considered it advisable to intimate his intention to the Superintendent of Revenue Survey and wrote to him accordingly; but the latter officer ^{instructed} ~~instructed~~ him not to take any action in the matter until the sanction of Government was obtained and communicated to him. I therefore beg that the

1899
REVENUE DEPT.

Encl. No. 1
Cor. No. 157

Government may be pleased to issue orders for beginning the Survey at a very early date. The Nabob told me that he had the necessary number of demarcation stones ready.

2. Concerning ways and means for meeting the expenditure the estimated cost of the operations amounts to about Rs. 23,000, of which the portion to be ^{borne} ~~borne~~ by the Nabob is about Rs. 13,500. He proposes to meet the charge from the general Savings which according to his budget estimate are expected to be about Rs. 18,000 at the end of the current year. I suggested to him that the whole of the estimated cost might be deposited in the ^{Koilkuntla} ~~Koilkuntla~~ Taluk Treasury which is only 7 miles from Banganapally; but he said that he would defray the expenses monthly as the charges become due, as this course would be more convenient to him. His proposal may be accepted.

Official Memorandum from the Revenue Department, No. ² ~~2~~ Copy attached.
5, dated 9th January 1899 to the Superintendent, Madras Survey.

From the Superintendent, Madras Survey, No. 9/G, dated 19th January 1899 to the Secretary to Government, Revenue Department:-

Reference - Official Memorandum No. 5, dated 9th January 1899 regarding the Survey of Banganapalle State.

I have the honour to report that the Cadastral Survey of the Banganapalle State can form part of the Survey Programme for the year 1899-1900.

2. The cost of this survey will, it is presumed, not form part of the ordinary Survey expenditure i.e. will not be chargeable to the Survey Budget allotment but will be paid for from funds specially provided by the Banganapalle State.

3. The State contains 60 villages, total area 255 Square miles. This is the true area by Traverse Survey. Deducting estimated area of hills 55 Square miles, the area for Cadastral Survey is 200 Square miles. The total estimated area taken from the village accounts is only 170 Square miles.

4. Of the 60 villages mentioned above, 34 villages, total estimated area 98 square miles, belong to the Nawab - 26 more villages, total estimated area 72 square miles are alienated and ^{belong} ~~belong~~ to proprietors called Sub-Jagirdars. It is uncertain whether a Cadastral Survey is required for these 26 villages. The Collector will be consulted on this point. Assuming that a Cadastral Survey is required for all the 60 villages, the cost may be estimated as ^{below} ~~below~~ follows:-

AREA FOR CADASTRAL SURVEY, 200 SQUARE MILES.

No.	Item of charge	Rate		Estimated total cost
		Per acre	Per Sq. mile	
		As.	Rs.	Rs.
1.	Survey Establishment	2½	100	20,000
2.	Stone boundary marks	2½	100	20,000
3.	Hired labour	1	40	8,000
	Total	6	240	48,000

5. A Survey party equal in strength to half a Cadastral Party can be employed during 1899-1900 under the supervision of the Survey Officer in charge of the Cadastral Party working in the Kurnool District.

6. The Survey ought to be completed ⁱⁿ ~~in~~ one year.

ORDER No. 99, dated 30th January 1899.

The foregoing letter from the Superintendent, Madras Survey, will be communicated to the Political Agent, Banganapalle, with the request that he will ascertain and report how the Nawab of Banganapalle proposes to find the sum of Rs. 48,000, the cost of the Survey as estimated by the Superintendent.

2. The Accountant ^{General} will be requested to report how the cost of the proposed survey should be ^{recovered} ~~recovered~~ from the Banganapalle State and if the recovery can, by any means, be

be spread over a period of more than one year.
