calling for report as to what extent
the ryots holding land under the

are able to cooperate in restoring the work, I have the honour to state that they profess to be unable to contribute anything in the shape of money but are willing to contribute labour to the extent of one-fourth of the estimated cost of repairing the channel, the contract being given to them. The Divisional Officer recommends the acceptance of this offer and I support it, as it appears from the Tahsildar's report that the ryots have had a succession of bad seasons of late years.

Resolution

Submitted to Government,
with reference to its order No 62
D.O. No 5th January 1899.

2. In the circumstances stated by the Collector in his letter read above, the Board supports his recommendation that the offer of the ryots to contribute in the shape of labour one-fourth of the cost of repairing the channel, the contract being given to them, may be accepted. The Board accordingly requests that Government will be pleased to accord sanction for the repair of the work referred to at a cost of Rs 120 in round numbers, exclusive of the contribution in labor promised by the ryots.

was of opinion that the Reps

restoring the Channel to
