In reply to Proceedings of the

I have the honor to state that I do not
think that an interleaved copy of Watts'
Dictionary of Economic Products would
be of advantage. A copy is of course
required and I should prefer it to be in
as small compass as possible.

Government Botanist

I have the honor to state that there is urgent need of two copies of Hooker's Flora of B. India one for use at Head office and one for me in the field. I refrain from going over the list of Mr. Lawson's books transferred to Mr. Broadlock because I have not that list at present in my possession and the need of Hooker's Flora as I have repeatedly pointed out is very great. In case the Board wishes me to conduct enquiries into the Diseases of the Sugar Cane, a copy should be obtained of the Java publication Archief voor de Java Suiker industrie established in 1893 and containing much useful information on ~~cane~~ cane diseases. I would further submit to the Board that in order to conduct the work of Government Botanist a suitable library fund should be established as was done in —

Mr

* These lists are at present packed up and being transferred from Madras to Botacamund.

it would be possible with economy to reconstruct the library of the Government Botanist.

Resolution.

With reference to G. C. 1275 this dated 28th March 1899. Revenue, the Board requests that two copies of Hooker's Flora India and a copy of the Dictionary of Economic Products may be supplied for the use of the Government Botanist.

2. Mr. Barber will be requested to report whence the Java publication mentioned by him as containing much information regarding the diseases of the sugarcane may be obtained with a view to its being provided for the library of this Department. A copy of the Catalogue of the Library will be forwarded to Mr. Barber for his information, with the remark that the books therein will always be at his disposal for reference.
