The financial dep. to the proposition statement

Approving the proposal of the Deputy Commissioner, Southern Division, to re-open the Mulki fish-curing yard in the Mangalore Circle; and soliciting the sanction of Government to the entertainment of a certain establishment up to the end of 1898-99 for the supervision of the yard.

PROCEEDINGS OF THE BOARD OF REVENUE
(SEPARATE REVENUE).

READ—the following letter from W. A. FOWLER, Esq., Deputy Commissioner of Salt, Abkari and Customs Department, Southern Division, to the Secretary to the Commissioner of Salt, Abkari and Separate Revenue, Madras, dated 6th March 1898, No. 985:—

In submitting herewith an application from the fishermen of Bappanad kasba of the Mangalore Circle praying for the opening of fish-curing yard in their village on the sandspit to the north of the Mulki bar, I have the honour to report that there was a fish-curing yard at Mulki up to 1st April 1888 when it was abolished, as the yard showed very poor results and was reported to be a useless one—*vide* Board's Proceedings, No. 115, dated 22nd February 1888. The real facts of the case, however, appear to be that at this yard, as at many others in South Canara, the introduction of fish-curing yards was viewed with great disfavour and by boycotting them, the fishermen connected agitation have only very recently been given up. The nearest yards to this place are Bokkapatnam to the south and Malpe to the north at distances of 15 and 16 miles, respectively. The petitioners are reported to possess 21 boats and 500 nets of different sizes and they intend getting some more large boats and nets from Goa in case the proposed yard be sanctioned. The probable catch of fish here appears to be sufficient to justify the re-opening of a yard.

2. It is reported that these fishermen do not resort to the neighbouring yards and in consequence the operations there are not likely to be affected in any way by the proposed yard. The Assistant Commissioner Mr. Sherman is of opinion that these fishermen use at present salt-earth from the saline tracts which exist close by in curing their fish and he bases this opinion on the fact that they do not take their fish to the neighbouring yards for purposes of curing. Considering the distance it does not seem to be likely that they would and the supposition seems scarcely justified on this ground alone.

3. The site selected is Government waste and in case the opening of the yard be sanctioned, the Collector will be asked to hand it over.

4. A sketch of the proposed site, together with an estimate amounting to Rs. 240, for constructing a temporary salt store-shed and a peon's shed, &c., is enclosed for favour of Board's sanction.

5. If my proposals to re-open the yard meet with Board's approval, sanction may be accorded for the entertainment of a temporary second-grade duffadar and a second-grade peon to watch the operations in the yard.

RESOLUTION—No. 107, dated 1st April 1898.

In the circumstances stated by the Deputy Commissioner in his letter read above, the re-opening of the yard which was ordered to be closed * in 1888 is approved and the estimate for Rs. 240 for constructing a temporary store-shed and a peon's shed, &c., is sanctioned from general savings of 1898-99. A number of that year should be assigned to the estimate and communicated to the Board.

2. The sanction of Government will be solicited for the employment of a second-grade duffadar and one second-grade peon up to 31st March 1899, at the end of which period the question of the retention of the yard will be considered.

3. A proposition statement in duplicate for the establishment required is herewith submitted.

4. The cost can be met from the provision made in the budget for 1898-99.
