(Signed) R. C. C. CARR,
Secretary.

To the Collector of South Canara, with two statements, in F. R. Nos. 3734 and 3735, (two certificates, two draft notifications and two maps in F. R. Nos. 3734 and 3735) and a key-map in F. R. No. 3735 to be returned.

READ—the following letter from A. F. PINNEY, Esq., Acting Collector of South Canara, to the Conservator of Forests, Southern Circle, dated Mangalore, 18th January 1898, Ref. on Sup. Cur. Nos. 243 and 244 For. :—

In returning the enclosures received with Board's Proceedings, Forest Nos. 3734, 3735, dated 7th January 1898, I have the honour to state that these blocks are new selections made in the Puttur taluk.

The statement published in Government Order No. 103, Revenue, dated 11th August 1896, was only a very rough estimate for the taluk giving names of reserved lands notified as such under the Collector's orders. The area of the unoccupied Government lands in the taluk is 821 square miles and it is estimated that about 450 square miles of this will eventually be reserved.

Final selections are now being made and the blocks named after well-known hills, &c.; in most cases the names of the proposed reserves now being submitted will therefore differ from the names given in the Government Order quoted above. For instance, the Kadimbilla block named after the river which forms its western boundary and the Shiradi extension are shown in the Government Order as Shiradi Shibaji block.

The information called for in paragraph 2 is not at present available. The survey of this part of the taluk has only recently been done and the maps have not as yet been published.

More than sufficient area of waste has however been excluded from the neighbouring villages.

Endorsement by J. W. CHERRY, Esq., Conservator of Forests, Southern Circle, dated Coimbatore, 29th January 1898, No. 2970.

Forwarded.

The Board's Proceedings, apparently Reference numbers, on Forest Register numbers have not been received in this office.

RESOLUTION—Forest No. 60, dated 9th February 1898.

With the letter read above, the Collector of South Canara reports that the Kadimbilla and Shiradi extension blocks proposed for reservation are new selections made in the Puttur taluk. He also states that the scheme sanctioned in the Government Order quoted in the Board's reference gives only a rough estimate of the reserved lands notified under the Collector's orders, and that about 450 out of 821 square miles of the unoccupied area of the taluk may eventually be brought under reservation. The Collector further adds that statistics according to villages are not at present available.

2. In these circumstances, and on the Collector's assurance that more than sufficient waste has been excluded from the neighbouring villages, the Board resolves to submit the draft notifications in respect of these blocks for the approval of Government and for publication in the *Fort St. George Gazette*.

3. The proposed blocks adjoin the Shiradi Sista reserve which has been already finally notified.
