I have the honour to forward herewith, for approval and publication, draft notification under section 4 for the Giddalur reserve; it has been found necessary to divide this reserve into two blocks, on account of the Guntapalli cultivated lands. The position of these lands is wrongly shown on the taluk maps.

The usual area statement and statement of condition of adjoining Government villages is enclosed.

RESOLUTION—Forest No. 123, dated 2nd April 1898.

Submitted to Government for approval and publication in the *Fort St. George Gazette*.

2. From the ayakat abstract submitted, it is observed that out of ten villages for which statistics are given, only six are shown as contributing to the proposed reserve and the total area so shown is the small extent of 473 acres. Presumably, therefore, the block consists mostly of unsurveyed land. It is also noted that the area of the block as now given is 14,740 acres, or a little over 23 square miles, although it was returned as $18\frac{1}{2}$ square miles approximately in the scheme for further reservation sanctioned in Government Order No. 714, dated 5th October 1894.
