TO

Chief
THE SECRETARY TO GOVERNMENT,
Indrain DEPARTMENT.

Madras.

Stonehouse Hill

SIR,

A report just received from Masiniquai shows the existence here of an epidemic of rinderpest and in order to prevent, if possible, the disease spreading to the plateau and elsewhere, I consider it advisable that Government should temporarily extend the Cattle disease Act (Madras Act II of 1886) to the whole of the Nilgiri District. It might be applied in the first instance for a period of three months.

2 The Deputy Inspector's report shows 32 attacks, but from private sources, I have received

particulars which make me think
that many more cases have
occurred.

I, therefore, solicit very
early orders as I fear that the
disease has already made
considerable headway.

I have applied to the
Superintendent Civil Veterinary
Department for the services of a
Stock Inspector.

I have the honor to be

Sir,
Your most obedient servant

Mutterworth
As. Collector.

From the Collector of the Nilgiris
No 1172 D 17.8.98 (C. No 584)

To the Under Secy:

The Collector of the
Nilgiris reports of the existence
at Masangudi of an epidemic
of rinderpest and requests
that the Madras Cattle Disease
Act (II of 1866) may be
put in force in the Nilgiris
for a period of three
months. The communication
should have been addressed
through the Board of Revenue
but presumably the Govt. has
been addressed direct in
view of the urgency of the
matter. The Collector states
that the disease has already
made considerable headway
and requests very early orders

and notification submitted
