READ— letter from J.H. Robertson Esquire, Acting Collector of Trichinopoly, to the Secretary to the Commissioners of Land Revenue, Madras, Ref. (s) on G.No. 3241/Rev of 1895 dated 24th May 1899.

Reference No. B. 238 dated 12th June 1899.

An extent of 50.61 acres of dry waste land assessed at Rs. 29-6-0 in Vairampatti, formerly a hamlet of Reddipatti village, Marungapuri Division in the Madura District but now a hamlet of Vairampatti village Kulitalai Taluk, Trichinopoly District, was originally granted by Government in its order No. 421 dated 4th May 1830 as inam for the support of the choultry constructed by one Sabaz Khan Subadar at Vairampatti on the road from Dindigul to Trichinopoly. At the inam settlement the inam was confirmed as Dharmadaram and Title deed No. 1528 was issued for it.

2. The Collector reports that on the death of Sirdar Khan, the second son of the original grantee, who was managing the choultry, the right of management was disputed with the result that the claimants misappropriated the revenue and neglected the building. Notices were issued to all the claimants jointly and severally calling on them to put the choultry in order within a given time and the time allowed was also extended more than once but no attempt has been made by any of them to repair the choultry beyond dismantling the roof of the verandah and a portion of the building. The Collector does not state when the notices in question were issued, but they were presumably of recent date.

3. In the circumstances above stated the Collector

recommends the resumption of the inam and the transfer of the assessment to the Taluk Board, Musiri, which has consented to spend it on the maintenance of a watershed at the choultry in question. The Board supports the Collector's recommendation and submits it for the sanction of Government.

4. In para 4 of the letter read above the Collector states that the Taluk Board has agreed to undertake the management of the choultry besides maintaining a water pandal therein; but this is not borne out by the Taluk Board's resolution No. 1 of 1899 which merely contemplates the maintenance of <sup>a</sup> water pandal. The proceeds of the endowment being only Rs. 29-5-0 per annum, the Board presumes that it is not the intention of the Taluk Board to restore the choultry and keep it up as such. Should such, however, be its intention, <sup>a</sup> revised resolution to that effect will be necessary before a recommendation can be made to Government for the transfer <sup>to</sup> of the Taluk Board of the Superintendence and management of the choultry together with its endowment under section 51 (2) of the Madras Local Board's Act V of 1884. The Collector is requested to report again on this point if necessary.
