SIR,

1 Survey 2 sent separately
2 Tracings 3 in a tin case.x Subscript with
Cct. 5025 sent to
3 33.9.98
Proven Report
I enclose.

With reference to G.O. no. 1955 of 4.8.98,
I have the honour to forward a Survey showing
the possible sites for the Ellore Deputy
Collector's office together with tracings
showing the nature of the subsoil.

(A) the site originally proposed is an old
L. F. nursery, and the trees are almost
full grown. It is exceedingly cramped
between the D. P. W. Sub Division office
and the L. F. Assistant Engineer's quarters.

(B) The alternative site is on the
Parade ground. The only objection
that can be urged against this, is
that it will occupy a portion of a
Public open space. In my opinion,
such a consideration may, in this
case, be neglected, and according

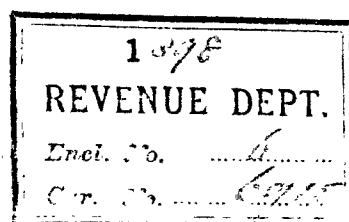

I recommend that site "B" should be selected.

The Subsoil is practically the same at either site. As regards floods, there is no other place to build, and if a remarkably high one occur, the building must take its chance.

I have the honor to be,
Sir,
Your Most obedt. Servt.

C No. 6915

From the P.W.D. Re. the site for the Dy. Collector's office Ellore

1026 Dated 6th October 1898.

5502.3 ...
... Please see notes under
G.O. $\frac{3066}{20-7-98}$. There were two
sites proposed for the Dy. Collector's
office at Ellore, outside the
fort, and in the ~~set~~ above
G.O. the P.W.D. was requested
to call for reports from
the local P.W. office as to
which of these two sites was
the more suitable and to
forward a map showing both
the sites and the adjacent
buildings.

2. The Suptdy Engineer I
Circle now submits the above
map, and reports that of
the two sites the one marked
A is an old L. F. nursery
and exceedingly cramped
in position, & that the alter-
native site marked B on

the parade ground is pre-
erable.

Has the building
been sanctioned yet? If not
put up ^{off} the paper showing
the need for it. Apparently
estimates have been
called for, and have
been sent up.
