REVENUE BOARD OFFICE
MADRAS

Proceedings of the Board of Revenue

(Land Revenue).

Forest No. 57 Misc, dated 21st January 1899

Read endorsement of W. A. Gass Esquire, Conservator of Forests, Southern Circle, dated 30th December 1898, No. 1757 of 1898-99 on letter from A. Butterworth Esq. Collector of the Nilgiris, dated 19th December 1898, Report. G. & R. No. 35/1898-99 Forests.

Resolution

In G. O. Mis. No. 244 Rev. dated 29th April 1898, Government approved the Board's recommendation that the newly settled and demarcated boundary line between Mysore and the Nilgiri District be inspected and reported on in alternate years by the Nilgiri and Mysore Forest Officers respectively. The proposal accepted by the Mysore Durbar (vide G.O. Mis. dated 5th July 1898)

When examined
When signed

st Officer, Mr. Douglas. The
the points A, B. C and F referred to in the joint
ort of by Messrs. Douglas and Ricketts pointed
the G.C. first quoted above were found intact
those at D and E had been overthrown and
ust out of the perpendicular respectively by
ld elephants. The former was replaced and the
tter straightened. The flat stone laid down on
n open ridge by Colonel Elorte's party in
4-75 to connect points E and F could not be
und owing to overgrowth; it is proposed at
the next inspection to clear the overgrowth and
indicate the stone by some easily discernible
mark.

3. From what happened to the pillars at D and E,
Mr. Douglas considers it necessary to protect
all pillars from the attacks of wild elephants
by digging elephant trenches around them,
if this can be done without much expense.
He, however, suggests that the question may
again be considered by the District Forest
Officers, both of Mysore and the Nilgiris
after the next inspection is completed. The
Collector adds, with reference to this question
that so long as the annual inspections are
regularly carried on, it is easy for the inspecting
to replace over thrown pillars; but
this cannot be regarded as a wholly
[illegible]

board affixed to a neighbouring tree, if there be one, at a convenient height to indicate spot. The Board is of opinion that the Consideration of the question safely be postponed pending the results of the next annual inspection.
