PROCEEDINGS OF THE BOARD OF REVENUE
(REVENUE SETTLEMENT, LAND RECORDS AND AGRICULTURE).

Read—again Proceedings of the Board of Revenue (R.S., L.R. and Agri.), No. 388, dated 22nd May 1897.

ABSTRACT.—Requesting Collectors of certain districts to report the distance of certain Sub-Registrars' offices from the nearest rain-recording stations.

Read—also the following G.O., Mis. No. 3881, Revenue, dated 29th September 1898:—

Read—the following Proceedings of the Board of Revenue (R.S., L.R. and Agri.), No. 322, dated 6th September 1898:—

Read—the following letter from Miss E. ISIS POGSON, P.R. MET. SOC., Meteorological Reporter to the Government of Madras, to the Secretary to the Commissioner of Revenue Settlement, Land Records and Agriculture, dated 10th August 1898, No. 610:—

With reference to Proceedings of the Board of Revenue (R.S., L.R. and Agri.), No. 388, dated 22nd May 1897, I have the honour to state that most of the stations enumerated in the list submitted by the Inspector-General of Registration are too near the already existing rain-gauge stations.

I would hence only recommend the inclusion of the 47 stations in the accompanying statement, which are not less than ten miles from the nearest rain-gauge station in the list of authorised rain-gauge stations.

Thiruvettipuram or Tiruvettyur in the North Arcot district has already been added to the list.

Resolution—No. 322, dated 6th September 1898.

On full consideration of the facts, the Board resolves to accept the suggestion of the Inspector-General of Registration that the registration of rainfall may be made by Sub-Registrars so far as the stations mentioned in the enclosed list, where there are no rain-gauges at present, are concerned. Some small modifications have been made in the list proposed by the Meteorological Reporter for the following reasons:—

To be omitted—

Bikkavola, Buchireddipalem, Kottapatnam, Orattanadu, Kazhugumalai, Kondotti and Tirutala.

Anjengo and Tangasseri.

To be added—

Mummidivaram, Valangimán, Kadayanallúr, Sáttankulam, Cheruplasséri, Mólki and Baíndr.

as they are near other stations.

as they are really outside the limits of the Malabar district.

as the registration thereof will fill up blanks in the present scheme of stations.

2. There will thus be 45 Sub-Registrars' stations to which Symon's rain-gauges should be newly supplied. The total cost of these gauges will amount to Rs. 670, including packing and conveyance. The Board requests that the Government will be pleased to sanction the above proposal and the estimated cost of Rs. 670, which will be provided for in the revised budget estimate for the current year under 26. Scientific and Minor Departments—Provincial Statistics—Rain-gauges. No provision is necessary for fixing the rain-gauges at these places as the cost of the construction by the Public Works Department will be met from the grant to that department under 45. Provincial Civil Works—vide G.O., Mis. No. 3513, dated 22nd September 1893.

for Secretary to Government.

To the Board of Revenue (Revenue Settlement).

RESOLUTION—No. 410, dated 7th November 1898.

Communicated to the Meteorological Reporters to the Government of India and of Madras, the Inspector-General of Registration and the Collectors concerned.

Parti
(C.O. 5112/98)

4 BOARD OF REVENUE (REV. SETT., L. RDS. AND AGR.), No. 410, 7TH NOV. 1898.

2. The Inspector-General will be requested to send an indent to the Meteorological Reporter, Madras, for the rain-gauges required for supply to the stations mentioned in the Appendix to B.P., No. 322, dated 6th September 1898, showing the addresses of the Sub-Registrars to which the gauges should be despatched. The Meteorological Reporter to the Government of Madras will be requested to arrange for the supply of the gauges to the stations concerned, direct from Calcutta.

3. The Collectors concerned will be requested to arrange that suitable sites for the erection of the gauges are selected and to see that they are all fixed at an early date by the Public Works Department in accordance with the conditions of rainfall circular No. I of 1891.

4. The Meteorological Reporter, Madras, is requested to furnish the Inspector-General with indent forms and copies of rainfall circulars, instructions, &c., for registering the rainfall, for distribution to the Sub-Registrars concerned.
