Divisional

Proceedings of the Board of Revenue

(Revenue Settlement, Land Records and Agriculture),

Dated 2nd January 1899.

No. 31 Miscellaneous

READ

Again the following Board's Proceedings, No. 5383 Misc: dated 7th September 1898:-

Read the following letter from Mahomed Raza Khan Esquire, the Collector of Kurnool, No. No. 3134 and of 1898 dated 18th August 1898:-

Adverting to Board's Proceedings No. 2148 Misc dated 28th March 1898 I have the honor to state that what is necessary is the Cadastral Survey of the Cultivable lands included in the unsurveyed area. The statement submitted with
Mr Elwino

ins letter dated 4th July 1897
lined only particulars of the
blocks and hills topographically
surveyed but it is possible that
there are also other extents —
not Cadastrally surveyed and
any portions that may be
cultivable in these extents should
also, I think, be Cadastrally surveyed.
I have asked the Superintendent
of Survey to inform me whether
there are any, and if so, what,
unsurveyed areas besides those
mentioned in his statement,
Copy of which was submitted
to the Board last year with
the letter quoted above, and shall
furnish the information to the
Board as soon as his reply is received.

2. The 150 acres appertaining
to the Nandyal Taluk and
which have been granted on
batta have not been surveyed; the lands comprised in this extent have been granted on
batta from time to time with
Assessments

Assessments fixed by the Divisional
Officer or the Collector.

3. As regards the very great difference
noticed by the Board between
the unsurveyed area in the
Nandyal Taluk fit for cultivation
as reported by Mr. Mullahy in
March 1894 and by Mr. Elwin in
July 1897, I beg to solicit reference
to this office letter R.C. No 100 dated
22^d July 1896 disposed of in Board's
Proceedings No 3963 Mis dated 12th
August 1896, from which it ^{will} be seen
that the figures reported by the
former officer were obtained
from Karmams at the time of
Jamabandy and are probably
incorrect, nor does evidently
the 158 acres mentioned by Mr. Elwin
represent accurately the unsurveyed
cultivable area of the whole of
the Nandyal Taluk. This extent
related

related only to the 7 villages —
named in this office R.C. No 100
already cited above. The Tahsildar
has now submitted a statement
(copy enclosed) showing the
unsurveyed area which is not
included in reserved forestland
which is fit for cultivation.
The statement relates to 21 villages
and is reported to contain complete
particulars for the taluk, there
being no unsurveyed area of
the above description in any
other villages of the taluk. It will
be seen that the particulars now
given about Panyam are not
widely divergent from those reported
previously in March 1894. The
Tahsildar has given no information
regarding Gutupalli village, the
whole of which is unsurveyed. This
will be obtained and furnished
shortly.

4. A statement showing the
approximate area of cultivable
lands, occupied and unoccupied,
which require to be Cadastrally
surveyed in each taluk is here-
with submitted. The figures for
Sirvel and Chandikothkur appear
to be wrong; the Tahsildars —
have been called on to state after
scrutiny whether they are correct
and to give village-wise details.

5. The extent of the lands fit
for cultivation and which require
to be Cadastrally surveyed in
the taluks not included in Kurnool
Proper is 6,624 acres and I do
not think it necessary that the
survey of these areas should be
separately arranged for.

Resolution No 5383 M.S. dated 7 Sept 98
Recd, pending receipt
of information promised by the Collector
in paras 1, 3 and 4 of his letter.
(True copy & extract)
Signed C. Benson
By Sir: of S. R & Agric in charge

To the Collector of Kurnool.

Read

Read also the following letter from
 Mahomed Dazn Khan Esquire,
 the Collector of Kurnool, No. 4428
 of 98 dated 24th November 1898:-

Adverting to Board's Proceedings,
 Nos 5383 mis dated 7th September
 1898 and 6424 mis dated 5th November
 1898, I have the honor to state that
 the Superintendent of Revenue Survey
 informs me that his statement, copy
 of which was submitted to the Board
 with Mr. Elwins letter No 1915 dated
 4th July 1897, shows the whole of the
 area not cadastrally surveyed
 in this District

2. With reference to paras 3 and
 4 of my letter No 3134 dated 18th August
 1898, I beg to give on the margin
 the revised figures obtained from
 the Tahsildars concerned for Nanoyal
 (including Gutupalli), Sandikotkur
 and Sirvel to be substituted for
 the areas noted against these taluks
 in the statement already submitted
 with

Value	Occupied Area Acres	Unoccupied Area Acres	Total Acres
Nanoyal (including Gutupalli)	11070	29546	12616
Sandikotkur	1083	2187	3270
Sirvel	118	1075	1193

with the letter above quoted.

Resolution No 31 Mis dated 2nd January 1899.

The papers read above
 will be submitted to Government,
 in continuation of B.P. No 2148 dated
 28th March 1898 and with reference
 to G.O. No 1801 Misc. Revenue, dated 25th
 April 1898.

2. Statement A forwarded herewith,
 shows the total unsurveyed area in
 the District. It consists of hills and
 hill-blocks topographically surveyed.
 The area of Cultivable land included
 in the unsurveyed area is shown
 in statement B. It is the cultivable
 area alone which requires to be
 cadastrally surveyed.

3. The major portion of this area
 i.e. about 19,000 acres out of 26,000
 lies in the four taluks of Kurnool
 Proper, which are now being resurveyed
 as a preliminary to resettlement;
 and the Superintendent of Survey
 proposes that, after the resurvey
 work

work has been completed in all the villages, ^{which were brought} under the original survey, the survey of the unsurveyed lands should be undertaken with the aid of the Kurnams and the necessary staff of Surveyors. This proposal may be approved.

4. The Cultivable area in the remaining Taluks, which has not been surveyed, is small and the Collector does not think that its survey need be specially arranged for.

(True Copies and Extracts)

R. G. Srinivasan
Secretary

To The Secretary to Government,
Revenue Department, with statements A+B.

Secretary

(C No. 145)

From the B. of Rev (R. S. & A.)

No 31 Dated 2nd January 1899.

FOR ORDERS.

To Under Secy.

In para 2 of R.O. No. 829 of 30.12.1895 the Board of Revenue was asked to report the nature of the unsurveyed tracts in the Murmorol district, which in Naudyal tahsil alone was 120,846 acres and the necessity for surveying the area.

2. It is now reported that the unsurveyed area in the Murmorol district consists of hill and hill blocks topographically surveyed and that what is necessary is the cadastral survey of the ultimate lands included in the unsurveyed area. The total unsurveyed area in each tahsil and the ultimate area included therein

1899
REVENUE DEPT.
Encl. No. 2
Cur. No. 145

There are shown below:-

	Total surveyed area Acres	Culturable area acres
Pathikonda..	52,948	865
Ramalakotta..	39,549	1,916
Koilkuntla..	50,821	1,559
Ammini...	356,886	2,794
Murkapur..	393,840	1,407
Nandikotkur	442,055	3,270
Linnel...	123,277	1,133
Nandyal..	229,430	12,616
Total.	<u>1,688,806</u>	<u>25,560</u>

It will be seen that the major portion of the culturable area requiring to be cadastrally surveyed, namely 19,000 acres lies in the four taluks of Kurnool proper. The Supt. Madras Survey proposes that after the resurvey of the tract which is now in progress is completed, the cadastral survey of the above lands should be undertaken with the aid of korvams and the necessary staff of surveyors. In order as to whether this proposal may be approved.

As regards the unsurveyed lands in the remaining taluks it is reported that ~~then survey need not be specially arranged for.~~ ~~arrangements are needed.~~
