READ—the following papers:—

From B. MACLEOD, Esq., M.A., Barrister-at-Law, Collector and Magistrate of Anantapur, to the Secretary to Government, Public Works Department, dated Guntakal, 30th September 1898, Dis. No. 190 D.

Adverting to G.O., Mis. No. 3560, dated 30th August 1898, embodied in Board's Proceedings, Mis. No. 2423, dated 6th September 1898, I have the honour to submit herewith plans and estimates for the construction of a first-class Taluk cutcherry and sub-jail in the Kalyandrug taluk of this district with a terraced roof, amounting to Rs. 45,200, received from the Superintending Engineer, III Circle, duly countersigned, for obtaining the early sanction of Government.

From Lieut.-Col. W. L. C. BADDELEY, R.E., Superintending Engineer, III Circle, Bellary, to the Chief Engineer, Public Works Department, dated Bellary, 3rd November 1898, No. 2855 W.

I have the honour to inform you that the Collector of Anantapur has forwarded to Government for sanction an estimate of Rs. 45,200 for a first-class Taluk cutcherry at Kalyandrug. The building is to have a terraced roof. The trial pits showed compact gravel, but in view of the partial failure of the terraced buildings lately constructed in the Anantapur district, I am of opinion that the Taluk cutcherry should be constructed with a Mangalore tiled roof.

The estimate in this case would be Rs. 45,730. A copy of the Executive Engineer, Bellary's, No. 7456 of 7th October 1898, is forwarded for information.

Note by the Chief Engineer, Public Works Department.

The estimate for constructing a first-class Taluk office at Kalyandrug, Anantapur district, reduced in this office from Rs. 45,730 to Rs. 44,170, is recommended for sanction with the following remarks:—

(1) The roof of the main building, as proposed, was to be constructed of Mangalore tiles with a teak ceiling below. This is now altered, in accordance with Circular No. 4700 C., dated 26th October 1898, to roofing of Mangalore tiles embedded in $\frac{3}{4}$ " mortar over flat tiles; the rafters being placed 1' 9" apart.

(2) Asphalt flooring allowed for the wards has been omitted, and slab stone on 4" concrete substituted.

(3) An error in estimating the roof of the ryots' shed has caused an increase of Rs. 125 in the woodwork.

(4) It is observed that no provision has been made for witness box and prisoners' dock in the two court-rooms. It should be stated whether these are necessary.

13th December 1898.

(Signed) W. B. DEWINTON,
Chief Engineer.

ORDER—No. 95 W., dated 10th January 1899.

The estimate, amounting to Rs. 44,170, as altered by the Chief Engineer, for the construction of a first-class Taluk office at Kalyandrug, Anantapur district, is sanctioned for early execution.

2. An expenditure of Rs. 2,500 was incurred on the work during 1897-98 in the collection of materials, but no provision has been made in the current year's budget. The Superintending Engineer will apply for such allotment as can be utilized before the close of the official year.

3. Attention is drawn to the Chief Engineer's note read above.

4. The countersignature of the Collector to the estimate should be obtained before the work is put in hand.

5. The sanction accorded in paragraph 1 of these Proceedings has been registered as Provincial No. 99 W. of 1898-99, and classified as Civil Buildings—Original Works.

(True Extract.)

A. K. M. S.
Under Secretary to Government.

To the Superintending Engineer, III Circle, with twelve enclosures.
