Government Botanical Garden

Ochramund 22nd December 1898.

From R. L. Proudhon Esq

Curator Govt Botanic Garden

Algiers

To The Collector of the Algiers

Ochramund

Sir,

With reference to your letter of 18th Dec 1898
dated the 17th December 1898, I have the honor to
inform you that not (Dr Proudhon's "Art of Perfumery")
is reported to be an excellent work on the
different methods employed in distilling
extracting and preparing seeds from
flowers and leaves; while not (Spore's
Encyclopaedia) is not entirely a
Botanical Encyclopaedia but it is a
Standard work of reference on the
preparation and uses of a considerable
number of Vegetable Substances
on Commercial lines, among which
may be mentioned. Cocoa, Coffee
Cork, Drugs, Dyestuffs, Fibrous Substances
Gum, India-rubber, Jute, Narcotics
oils and Fatty Substances, resins.

and gummy substances, Spices, Starch
Sugar, Tannin, Tea, Timber, Varnish &c.

I frequently receive inquiries as to whether
it will pay to grow certain economic plants
and to extract or prepare their products
and it is not always an easy matter to
give full and satisfactory replies to
all such inquiries as there are no works
of reference in the Curator's Library
which I might consult relating to the
branches of applied Science, these two
works treat of. I have frequently felt
and still feel, the need of these two valuable
works of reference or I should not have
thought of asking for them. Should their
purchase be sanctioned, as I trust it
may, they will prove most acceptable
and useful additions to the Garden
Library.
